Table KS001 Usual resident population
Table Population: All people

	Number and percentage intercensal population change (1)	Number and percentage of people living in households	Number and percentage of people living in communal establishments	Area (hectares) (2)	2001 Density (number of people per hectare)	Number of students away from home (3)
Number	492,759	7,078,632	93,459	157,208	45.62	65,477
Percentage	7.38	98.70	1.30	xxx	xxx	xxx

1. Care must be taken when interpreting intercensal population change, as there have been changes in definition between 1991 and 2001, and the 2001 counts have been adjusted to account for under-enumeration.
2. Area measurements are based on the 2001 version of the OS Boundary-Line data-set, amended where boundaries have changed since 2001, and do not include inland water.
3. 'Number of students away from home' is the number of students and schoolchildren in full-time education who would reside in the area were they not living away from home in term-time. Data for the number of students away from home was not available from the 1991 Census.

Table KS002 Age structure
Table Population: All people

	Number and percentage of people aged 30 - 44	45 - 59	60 - 64	65 - 74	75 - 84	85 - 89	90 and over	Mean age of population in the area (2)	Median age of population in the area (2)
Number	1,840,936	1,151,369	282,856	468,067	310,553	75,703	37,267	35.95	34
Percentage	25.67	16.05	3.94	6.53	4.33	1.06	0.52	xxxx	xxxx

1. 'Age' is age at last birthday.
2. 'Mean age' and 'Median age' are calculated using the underlying single year counts.

Table KS003 Living arrangements
Table Population: All people aged 16 and over in households

	All people aged 16 and over in households	People aged 16 and over in households						
		Living in a couple		Not living in a couple				
		Married or re-married	Cohabiting	Single (never married)	Married or re-married	Separated (but still legally married)	Divorced	Widowed
Number	5,632,491	2,247,402	579,683	1,859,561	116,250	137,038	333,807	358,750
Percentage	100.00	39.90	10.29	33.01	2.06	2.43	5.93	6.37

1. The living arrangements variable is different to marital status as it combines information from both marital status and the relationship matrix. Therefore, a person living as part of a 'cohabiting couple' could in fact be married to someone else but will not appear as married or separated in this classification.
2. A person not living in a couple can be classified married (or re-married) if they denote their marital status as married (or re-married) but have no spouse or partner resident in the household.

1. The occupancy rating provides a measure of under-occupancy and over-crowding. For example, a value of -1 implies there is one room too few and that there is over-crowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).

1. A dependent child is a person aged 0-15 in a household (whether or not in a family) or a person aged 16-18 who is a full-time student and in a family with parent(s).
2. For the Census, part-time is defined as working 30 hours or less a week. Full-time is defined as working 31 hours or more a week.
3. A lone parent household with dependent children is here defined as a household consisting of a lone parent with at least one dependent child (and with or without non-dependent children) living as the only family in a household with no other person. This is the same as in most household composition tables, but is to be distinguished from tables on lone parent families where there may be other families or people living in the household.

Footnote:

1. The living arrangements variable is different to marital status. It combines information from both marital status and the relationship matrix. Therefore a person living as part of a 'cohabiting couple' could in fact be married (to someone else) but will not appear as married or separated in this classification.

Footnote:

1. The living arrangements variable is different to marital status. It combines information from both marital status and the relationship matrix. Therefore a person living as part of a 'cohabiting couple' could in fact be married (to someone else) but will not appear as married or separated in this classification.

Footnotes:
1. Cohabiting couples includes same sex couples.
2. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). An adult in a household is defined as a person who is not a dependent child.
3. A lone parent can be classified as married (or re-married) if they denote their marital status as married (or re-married) but have no spouse or partner identified in the relationship matrix.

1. The term 'area' is used to define the particular geographical area level being shown in the table. So, in the case of a table for a ward, this will mean the term 'area' translates to the name of that ward.
2. Net migration within the UK subtracts the number of people who have moved into the area, from elsewhere within the UK, from the number of people who have moved out of the area, to elsewhere within the UK. It does not include people who have moved to or from outside the UK.
3. "assoc area" is associated area.
4. One year ago is one year before Census day (29 April 2001).
5. Inflow is not an exact count of people moving into an area as it does not include people who had no usual address one year ago who did not live within the area.
6. Outflow is not a count of all people moving out of an area as it does not include people who have moved outside the UK.

1. The term 'area' is used to define the particular geographical area level being shown in the table. So, in the case of a table for a ward, this will mean the term 'area' translates to the name of that ward.
2. Net migration within the UK subtracts the number of people who have moved into the area, from elsewhere within the UK, from the number of people who have moved out of the area, to elsewhere within the UK. It does not include people who have moved to or from outside the UK.
3. "assoc area" is associated area.
4. One year ago is one year before Census day (29 April 2001).
5. Inflow is not an exact count of people moving into an area as it does not include people who had no usual address one year ago who did not live within the area.
6. Outflow is not a count of all people moving out of an area as it does not include people who have moved outside the UK.

1. The term 'area' is used to define the particular geographical area level being shown in the table. So, in the case of a table for a ward, this will mean the term 'area' translates to the name of that ward.
2. Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other people in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
3. A wholly moving household is one where all members of the household have moved from the same address. A partly moving household includes households where no household members had a usual address one year ago.
4. assoc. area is associated area.
5. One year ago is one year before Census day (29 April 2001).
6. Inflow is not an exact count of people moving into an area as it does not include people who had no usual address one year ago who did not live within the area.
7. Outflow is not a count of all people moving out of an area as it does not include people who have moved outside the UK.
8. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).

The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).

Footnotes:
1. NS-SeC stands for the National Statistics Socio-economic Classification.
2. 'Not classifiable for other reasons' includes people whose occupation has not been coded and those who cannot be allocated to an NS-SeC category.
3. General health refers to health over the 12 months prior to Census day (29 April 2001).
4. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.
5. For long-term unemployed, year last worked is 1999 or earlier.

Footnotes:

1. For the Census, part-time is defined as working 30 hours or less a week. Full-time is defined as working 31 or more hours a week.
2. Cohabiting couples includes same sex couples.
3. The living arrangements variable is different to marital status as it combines information from both marital status and the relationship matrix. Therefore, a person living as part of a 'cohabiting couple' could in fact be married to someone else but will not appear as married or separated in this classification.

Footnotes:
1. The terms used to describe tenure are defined as:
   Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership).
   Rented from the Council refers to rented from Council (local authority) / Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland.
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
2. 'Living rent free' could include households that are living in accommodation other than private rented.
3. In general, a household's accommodation is defined as an unshared dwelling if all the rooms are behind a door that only that household can use.

Footnotes:

1. The terms used to describe tenure are defined as:
   Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership).
   Rented from the Council refers to rented from Council (local authority) / Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland.
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
2. 'Living rent free' could include households that are living in accommodation other than private rented.
3. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
4. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).

1. The terms used to describe tenure are defined as:
   Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership).
   Rented from the Council refers to rented from Council (local authority) / Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland.
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
2. 'Living rent free' could include households that are living in accommodation other than private rented.
3. 'Other household type' covers students living in a household with others, where one or more of them is not a student. This includes households where the student forms part of the 'parent' generation.
4. All students and schoolchildren aged under 16 are shown as economically inactive though some may be economically active.
5. All students over 74 are classified as economically inactive though some may be economically active.

1. The term 'student living away from home' refers to students and schoolchildren in full-time education who would be resident in the household if they were not living elsewhere during term-time. They are counted as residents at their term-time address.
2. NS-SeC stands for the National Statistics Socio-economic Classification.
3. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.
4. For long-term unemployedyear last worked is 1999 or earlier.
5. 'Not classifiable for other reasons' includes people whose occupation has not been coded and those who cannot be allocated an NS-SeC category.

1. Social Grade is the socio-economic classification used by the Market Research and Marketing Industries, most often in the analysis of spending habits and consumer attitudes. Although it is not possible to allocate Social Grade precisely from information collected by the 2001 Census, the Market Research Society has developed a method for using Census information to provide a good approximation of Social Grade.
2. In this table, people are classified by the Approximate Social Grade of their Household Reference Person.

1. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). An adult in a household is defined as someone who is not a dependent child.
2. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
3. Car or van availability includes any company car or van if available for private use.
4. The terms used to describe tenure are defined as:
   Other social rented: includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
5. Language need indicator: Either born outside the UK, Isle of Man and Channel Islands, and whose Household Reference Person was born outside the Irish Republic, the USA or the Old Comonwealth or who were born inside the UK, Isle of Man and Channel Islands, and whose Household Reference Person was born outside the UK, the Irish Republc, the USA or the Old Commonwealth.
6. General health refers to health over the 12 months prior to Census day (29 April 2001).
7. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems related to old age.
8. NS-SeC stands for the National Statistics Socio-economic Classification.
9. 'Not classified' includes people who have not been coded, those who cannot be allocated to a NS-SeC category and all full-time students regardless of whether they are economically active or inactive.

1. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of level 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).
2. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
3. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
4. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems related to old age.
5. Hours worked is the average number of hours per week worked in the last four weeks before the Census (29 April 2001) in the main job.

1. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
2. Car or van availability includes any company car or van if available for private use.
3. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of level 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).
4. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems related to old age.
5. General health refers to health over the 12 months prior to Census day (29 April 2001).

1. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
2. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
3. Car or van availability includes any company car or van if available for private use.
4. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems related to old age.
5. General health refers to health over the 12 months prior to Census day (29 April 2001).
6. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to desribe qualifications equivalent to levels 1-3 of the National Key Learning targets (ie GCSEs, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications to levels 4 and above (ie first degrees, higher degrees, NVQ levels 4 and 5 ; HND; HNC and certain professional qualifications).

1. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
2. Car or van availability includes any company car or van if available for private use.
3. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of level 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications.
4. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
5. 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.
6. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.
7. 'Not classifiable for other reasons' includes people who have not been coded and those who cannot be allocated to a NS-SeC category.
8. For long-term unemployed, year last worked is 1999 or earlier.

Footnotes:

1. 'Other industry' includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.
2. 'Not classifiable for other reasons' includes people who have not been coded and those who cannot be allocated to a NS-SeC category.
3. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.
4. General health refers to health over the 12 months prior to Census day (29 April 2001).
5. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of level 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).
6. One year ago is one year before Census day (29 April 2001)

1. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).
2. 'Other industry' includes other community; social and personal service activities; private households with employed persons and extra-territorial organisations and bodies.
3. 'Not classifiable for other reasons' includes people whose occupation has not been coded and those who cannot be allocated to an NS-SeC category.
4. Lives in area and works outside associated area' includes people who work offshore or work outside the UK. 'Lives and works in area' includes people who work at or mainly from home and those with no fixed place of work.
5. Hours worked is the average number of hours per week worked for the last four weeks before the Census (29 April 2001) in the main job.
6. Workplace population relates to those who work within the area. Daytime population relates to those who work within the area or who live in the area but do not work.
7. Lives and works in the area includes 'works mainly at home' and 'no fixed place'.
8. In England and Wales 'associated area' refers to Local Authority District for tables at Ward(Electoral Division in Wales); Parish (Community in Wales) or Output Area level. For all other geographical areas the 'associated area' is England and Wales
9. An anomaly in processing resulted in a very small number of instances of 'Managers and senior officials' being incorrectly included in the 'Lives in area and does not work' category.
10. Counts do not include people whose usual residence was outside England and Wales.

1. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). An adult in a household is defined as someone who is not a dependent child.
2. The terms used to describe tenure are defined as:
   Other social rented: includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
3. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
4. Car or van availability includes any company car or van if available for private use.
5. 'Not classified' includes people who have not been coded, those who cannot be allocated to a NS-SeC category and all full-time students regardless of if they are economically active or inactive.
6. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems related to old age.

1. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of level 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).
2. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
3. General health refers to health over the 12 months prior to Census day (29 April 2001).
4. 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.
5. 'Not classifiable for other reasons' includes people who have not been coded and those who cannot be allocated to a NS-SeC category.
6. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.

1. UA refers Unitary Authority.
2. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). An adult in a household is defined as someone who is not a dependent child.
3. Inflow is not an exact count of people moving into an area as it does not include people who had no usual address one year ago who did not live within the area.
4. Outflow is not a count of all people moving out of the area as it does not include people who have moved outside the UK.
5. In England and Wales 'associated area' refers to Local Authority Districts for tables at Ward (Electoral Division in Wales); Parish (Community in Wales) or output area level. For all geographical areas the 'associated area' is England and Wales.

1. The terms used to describe tenure are defined as:
   Owned: either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership).
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person. 'Living rent free' could include households that are living in accommodation other than private rented.
2. NS-SeC stands for the National Statistics Socio-economic Classification.
3. 'Not classified' includes people who have not been coded, those who cannot be allocated to a NS-SeC category and all full-time students regardless of if they are economically active or inactive.
4. One year ago is one year before the Census (29 April 2001)
5. A wholly moving household is one where all members of the household have moved from the same address.
6. Inflow is not an exact count of people moving into an area as it does not include people who had no usual address one year ago who did not live within the area.
7. Outflow is not a count of all people moving out of the area as it does not include people who have moved outside the UK.
8. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.

9. In England and Wales 'associated area' refers to Local Authority District for tables at Ward(Electoral Division in Wales); Parish (Community in Wales) or Output Area level. For all other geographical areas the 'associated area' is England and Wales
10. 'Partly moving households' include households where no household member had a usual address one year ago.

1. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s). An adult in a household is defined as someone who is not a dependent child.
2. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
3. The occupancy rating provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
4. 'Not classified' includes people who have not been coded, those who cannot be allocated to a NS-SeC category and all full-time students regardless of if they are economically active or inactive.
5. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems related to old age.
6. Car or van availability includes any company car or van if available for private use.

1. The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level' qualifications is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSE's, 'O' levels, 'A' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of level 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).
2. The terms used to describe tenure are defined as:
   Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.
   Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
3. General health refers to health over the 12 months prior to Census day (29 April 2001).
4. 'Other' industry includes other community, social and personal service activities, private households with employed persons and extra-territorial organisations and bodies.
5. 'Not classifiable for other reasons' includes people who have not been coded and those who cannot be allocated to a NS-SeC category.
6. In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of whether they are economically active or not.

1. Social Grade is the socio-economic classification used by the Market Research and Marketing Industries, most often in the analysis of spending habits and consumer attitudes. Although it is not possible to allocate Social Grade precisely from information collected by the 2001 Census, the Market Research Society has developed a method for using Census information to provide a good approximation of Social grade.

2. In this table, Social Grade has been assigned on characteristics of the individual, rather than of the Household Reference Person as is standard.
