Introduction

This publication aims to provide information on schools in each London borough and for London as a whole over the last five years. It pulls together new and historical information that can be found on the DfES website: [DfES Research and Statistics Gateway](#). There are comparisons made over time and between boroughs in London.

This publication has been designed electronically so that it can be dynamically updated when new information is published by DfES in a similar format to previous publications. For example, the GCSE results published as part of the Achievement and Attainment tables (formerly the Performance Tables), or pupil absence information.

The list of table sources (at the end of the document) contains web links to the DfES source publications.

See the glossary for a description and the definitions of the terms used in this document.

Notes:

Some information is not shown for some years because:

- the information was not published electronically by DfES in that year; eg Key Stage 2 point scores results were not published before 2003,
- the definitions for the indicator had changed; e.g. the SEN code of practice changed in 2004, or
- it is not applicable; e.g. City of London have no Local Authority (LA) maintained secondary schools.

Some figures have been rounded by DfES before publication so there may be discrepancies between the sum of constituent items and totals. For example, the number of pupils known or believed to have English as a first language is rounded to the nearest ten pupils in each borough.

The section on performance reports attainment in terms of the standard measure of the percentage of pupils who do or do not reach nationally expected levels. This measure does not describe the full range of attainment in London's schools.

Key Findings

- There were 83 Local Authority (LA) maintained nursery schools in London in 2005. There were also 1,836 LA maintained primary schools, 406 secondary and 149 special schools.
 - There were ten academies in nine London boroughs in January 2005 representing 59 per cent of all academies in England.
 - Around two-thirds (39) of the 62 new independent schools in England since 2001 are in London.
 - There were 241 LA maintained Church of England primary schools in London in 2005. There were also 240 Roman Catholic, 18 Jewish, two Muslim and one Sikh primary school.
 - There were 31 LA maintained Church of England secondary schools in London in 2005. There were 70 Roman Catholic, 3 Jewish, no Muslim and one Sikh secondary school.
- There were 1,070,600 pupils on roll in LA maintained schools in January 2005. There was a growth of 1.2 thousand pupils in LA maintained schools between 2001 and 2005.
- London primary schools have, on average, just over 100 more pupils on roll than primary schools in England, with an average 341 pupils on roll in 2005 and 238 in England.
- In January 2005, there were 74,500 pupils aged 16-19 years old at LA maintained schools in London; an increase of 10.25 thousand since 2002.
- Outer London LA maintained primary schools had 57.5 per cent white pupils compared to 34.6 per cent in inner London in January 2005.
- Pupils in LA maintained schools in inner London are more than twice as likely to be eligible for free school meals than pupils in schools in England as a whole.
- Pupil absence was lower in secondary schools in London than in schools in England in 2005 following a drop of 1.3 per cent in London schools compared to a drop of only 0.9 per cent in England schools since 2002.
- The proportion of Key Stage 2 pupils in inner London achieving the nationally expected level of attainment increased more between 2002 and 2005 than the proportion in outer London. Pupils in London improved more than pupils in England.
- At GCSE, pupils in inner London improved at a faster rate between 2001 and 2005 than pupils in England. There was a rise in inner London of 10.2 percentage points in the percentage of pupils aged 15 achieving the equivalent of 5 or more GCSE grades A*-C compared with 6.1 in England

1. Schools

- In January 2005 there were 3,058 schools in London, including nursery, primary, secondary, special and independent schools, pupil referral units, city technology colleges and academies.
 - The number of schools in inner London fell by six between 2001 and 2005. At the same time, the number of schools in outer London grew by 16. There was therefore an overall growth of 10 schools in London.
 - This London growth contrasts with the trend in England as a whole. The number of schools in England dropped by 1.6 per cent between 2001 and 2005 while the number of schools in London grew by 0.3 per cent.

Table A: Schools

Area	Number of schools of all types					Change
	2001	2002	2003	2004	2005	2001-2005
Inner London	1,233	1,231	1,218	1,220	1,227	-6
Outer London	1,815	1,818	1,815	1,843	1,831	+16
London	3,048	3,049	3,033	3,063	3,058	+10
England	25,744	25,615	25,472	25,543	25,335	-409

(Taken from Appendix 3: Table 1a iii)

- The increase in the number of London schools reflects the opening of city academies, and an increase in the number of independent schools and pupil referral units (PRUs). There was no change in the number of city technology colleges (CTCs) in London between 2001 and 2005.
 - There were two city academies in London in 2003, one in inner London and one in outer London. In January 2005, there were ten academies within nine London boroughs, five in inner London and five in outer London, representing 59 per cent of all academies in England.
 - Around two-thirds of the 62 new independent schools in England opened since 2001 are in London. Almost three quarters of those are in outer London.
 - There was a 66.6 per cent increase in the number of PRUs in London between 2001 and 2005 compared to a 45.1 per cent increase in England over the same period. Nearly 22 per cent of the new PRUs were in London.

Table B: Non-maintained schools

England	447	+139	14	-1	17	+14	2,250	+62

(Taken from Appendix 3: Table 1a ii and Table 1a iii)

- There were 71 fewer local authority (LA) maintained schools in London in January 2005 than in 2001. The losses were approximately equally divided between inner London and outer London.
 - This is a change of -2.8 per cent of the LA maintained schools in London compared to -2.7 per cent in England.

Table C: LA maintained schools

Area	Number of LA maintained schools					Change
	2001	2002	2003	2004	2005	2001-2005

England	23,169	23,034	22,860	22,717	22,532	-637

(Taken from Appendix 3: Table 1a iii)

- There were 83 LA maintained nursery schools in London in 2005. There were also 1,836 LA maintained primary schools, 406 secondary and 149 special schools.
 - Of the 71 fewer maintained schools in 2005 compared to 2001, 52 were primary schools. There were also two fewer secondary schools between 2001 and 2005, 15 fewer special schools and two fewer LA maintained nursery schools.
 - The decline in the number of primary schools is likely to be the result of amalgamation of infant and junior schools.

(Taken from Appendix 3: Table 1a i and Table 1a ii)

- There were 241 LA maintained Church of England primary schools in London in 2005. There were also 241 Roman Catholic, 18 Jewish, two Muslim and one Sikh LA maintained primary school. There was little change in the number of each type of school between 2004 and 2005. (The information was not made available before 2004).
 - In local authorities in England in 2005, there were 2.6 times more Church of England (CE) primary schools than Roman Catholic (RC).
 - In London, there was the same number of RC as CE primary schools. RC primary schools in London formed 14.1 per cent of all RC primary schools in England.
 - Nearly three-quarters (72.5 per cent) of LA maintained primary schools in London in 2005 had no specific religious character.
 - Of the 29 Jewish LA maintained primary schools in England, 62.1 per cent of them are in London. Over 80 per cent of those are in 5 outer London boroughs.

- There were 31 LA maintained Church of England secondary schools in London in 2005. There were also 70 Roman Catholic, 3 Jewish, no Muslim and one Sikh secondary school.
 - Nearly three-quarters (73.4 per cent) of LA maintained secondary schools in London in 2005 had no specific religious character.
 - All three Jewish LA maintained secondary schools in London in 2005 were in outer London boroughs. There were 7 Jewish LA maintained secondary schools in England.
 - Neither of the two Muslim secondary schools in England were in London. The only Sikh secondary school in England is in outer London.
 - In January 2005 there were more than twice as many RC secondary schools in London as CE secondary schools.

England	8,374.1	8,369.1	8,366.8	8,334.9	8,274.5	-99.6

(Taken from Appendix 3: Table 2aiii)

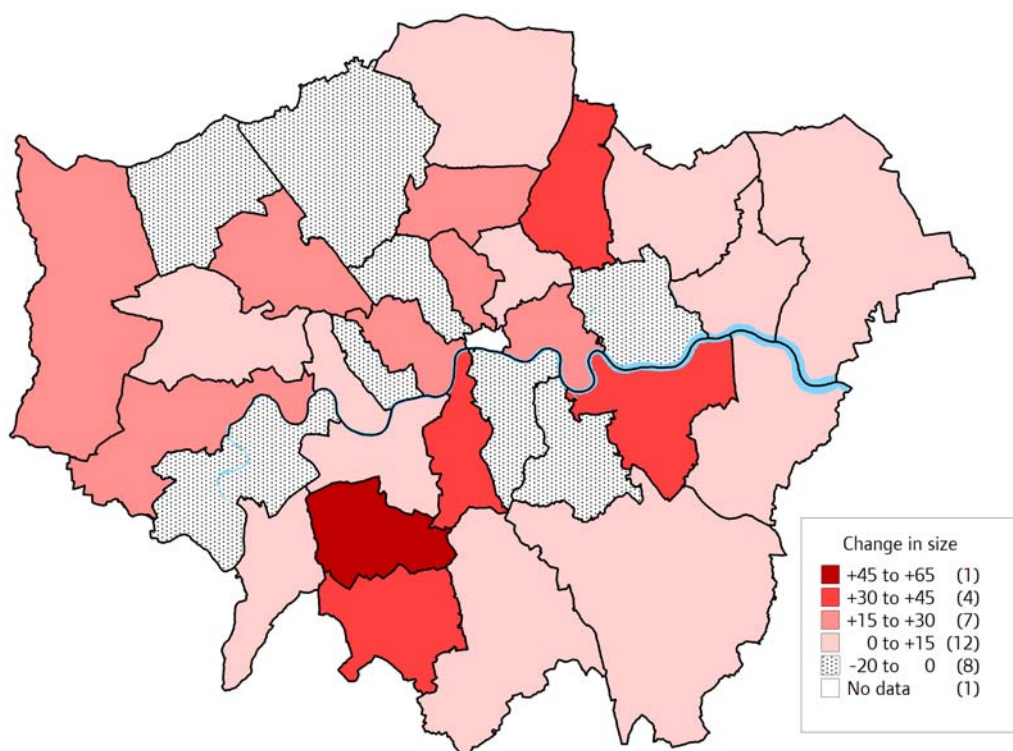

- There were 1,070,600 pupils on roll in LA maintained schools in January 2005.
 - Despite the drop of 71 LA maintained schools in London, there was a growth of 1.2 thousand pupils in LA maintained schools between 2001 and 2005.
 - Fifteen of the 32 London boroughs had an increase and 17 had a decrease in pupil numbers.

Map D: Change in the number of pupils on roll in London schools, by borough 2001-2005

- In January 2005, there were 74,500 pupils aged 16-19 years old at LA maintained schools in London; an increase of 10.25 thousand since 2002.
- The average size of an LA maintained school has changed from 420.2 pupils in 2001 to 432.7 pupils in 2005.
 - Out of 32 London boroughs, 75 per cent had an increase in average school size in their schools between 2001 and 2005. Two-thirds of those were in outer London boroughs.

Map E: Change in the average size of LA maintained schools, by borough 2001-2005

- The average size of a secondary school in London has grown to 1,041 since 2001.
 - Secondary schools in outer London tend to have approximately 120 more pupils on roll than those in inner London.
- London primary schools have just over 100 more pupils on roll than primary schools in England, with an average 341 pupils on roll in 2005 and 238 in England.

England	410,200	419,600	423,600	427,700	431,900	+21,700

(Taken from Appendix 3: Table 3b)

- There was an increase in the number of pupils per teacher in LA maintained primary schools in London between 2001 and 2005 of 0.3 pupils per teacher.
- Of 32 London boroughs, 21 had an increase in the number of pupils to each teacher in their primary schools between 2001 and 2005.

Map F: Change in Pupil:Teacher Ratio in LA maintained primary schools, by borough 2001-2005

- There were 15.7 pupils to each teacher in nursery schools in London in 2005. A decrease since 2001 of 0.6 pupils per teacher.
 - The change in the number of pupils to teachers was bigger in England schools than in London schools between 2001 and 2005 with the Pupil:Teacher Ratio (PTR) falling further in schools in England than in London.

Map L: Change in percentage of pupils in LA maintained primary schools eligible for free school meals, by borough 2001-2005

- Pupils in special schools are much more likely to be eligible for free school meals than those in mainstream schools.
 - More than half of pupils in special schools in inner London were eligible for free school meals in January 2005 compared to a third of pupils in special schools in England.
 - In special schools in London in 2005, 43.0 per cent of pupils were eligible for free school meals. Figures for inner and outer London were 53.9 per cent and 36.6 per cent respectively.
- Between 2001 and 2005, 23 London boroughs had an increase in the proportion of pupils in their primary schools eligible for free school meals; 14 were outer London boroughs.
- Only seven boroughs in London had an increase in the proportion of pupils eligible for free school meals in secondary schools and only one of these was in inner London.

7. Special Educational Needs

- In primary schools in London in January 2005, 1.8 per cent of pupils had a statement of Special Educational Needs (SEN).
 - This is 0.2 per cent higher than in schools in England.
 - The percentage of pupils with statements has changed little in London and in England since 2002.
- A higher proportion of pupils in secondary schools have statements of SEN than in primary schools. The proportion in London is 0.2 per cent higher than in schools in England.
 - In inner London, the percentage of pupils in secondary schools with SEN statements was 0.6 points higher than in outer London. The 2.9 per cent of statemented pupils in inner London in 2005 is a drop from 2002.

8. Absence and Exclusion

- In primary schools in London in 2005, 6.0 per cent of half-day sessions were missed due to absence compared to 5.4 per cent in schools in England.
 - The proportion of missed half-day sessions in inner London primary schools is 0.2 percentage points higher than in outer London.
 - There has been a drop of 1.0 percentage points in pupil absence in inner London since 2002 compared to a drop of 0.4 per cent in schools in outer London.
- Pupil absence is higher in secondary schools than in primary schools in London and England.
 - The drop to 7.6 per cent of half-day sessions missed in secondary schools was greater in inner London than in outer London.

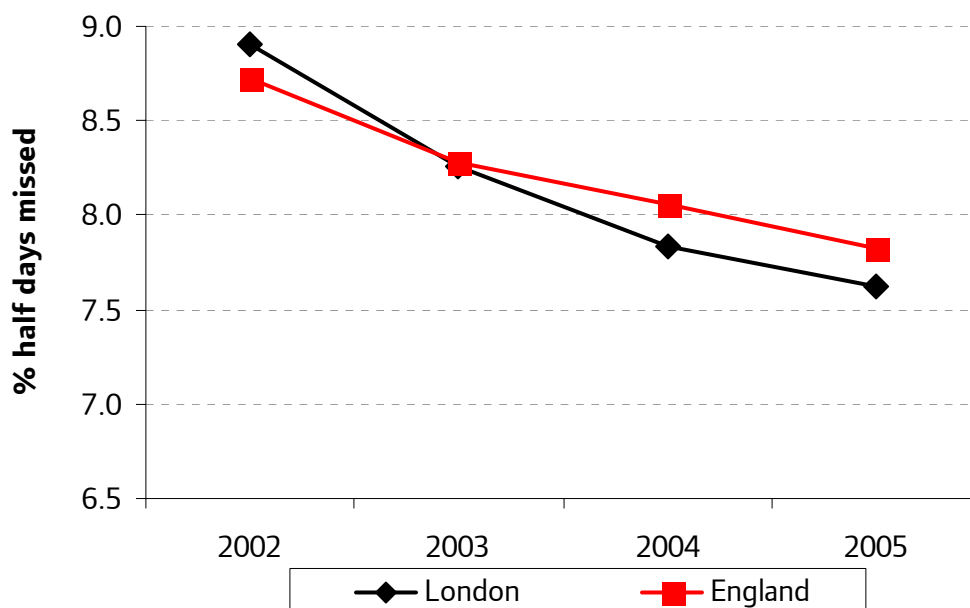

Table Q: Absence from LA Maintained Schools

Area	% half-days missed in primary schools		Primary change	% half-days missed in secondary schools		Secondary change

London boroughs saw a decrease in absence in their secondary schools between 2002 and 2005. There were decreases of more than 2.0 per cent in four London boroughs, all in inner London.

Map O: Change in percentage of half-days missed due to absence from LA maintained secondary schools, by borough 2002-2005

- Permanent exclusions of compulsory aged pupils from LA maintained schools dropped between 2001 and 2004 in secondary schools in inner London and rose in schools in outer London.
- The proportion of permanent exclusions from primary schools was the same in London as in England at 0.03 per cent of compulsory aged pupils.
- Permanent exclusions from secondary schools were higher than those from primary schools with 0.32 per cent of pupils permanently excluded in 2004.
- Pupils in special schools are more likely to be excluded from school than those in mainstream schools.
 - In London in 2004, 0.40 per cent of pupils in special schools were permanently excluded from school.
 - Outer London had the same proportion of pupils permanently excluded as in England; inner London was higher at 0.50 per cent.

9. Key Stage 1 Performance

- At Key Stage 1, 69 per cent of London pupils achieved or bettered the nationally expected level of attainment in reading in 2005. In writing 58 per cent and in mathematics 70 per cent of pupils achieved at least the expected level.
 - On this measure, girls in London schools out-performed boys in all three subjects; by ten percentage points in reading, 14 in writing and by two percentage points in mathematics.
 - In schools in England, pupils performed better in all three subjects than pupils in London by 3 or 4 percentage points in each subject.

10. Key Stage 2 Performance

- At Key Stage 2 in London in 2005, 79 per cent of pupils in LA maintained schools in London achieved level 4 or better in English, 74 percent in mathematics and 85 per cent in science.
 - A greater proportion of girls achieved level 4 in English than boys with the percentage of girls reaching the expected level in London being nine points higher than boys.
 - The gap was smaller in science with proportion of girls reaching the expected level in London increasing by one percentage point.
 - In mathematics, using this measure, boys out-performed girls by one per cent.

(Taken from Appendix 3: Table 10ai, Table 10aii and Table 10aiii)

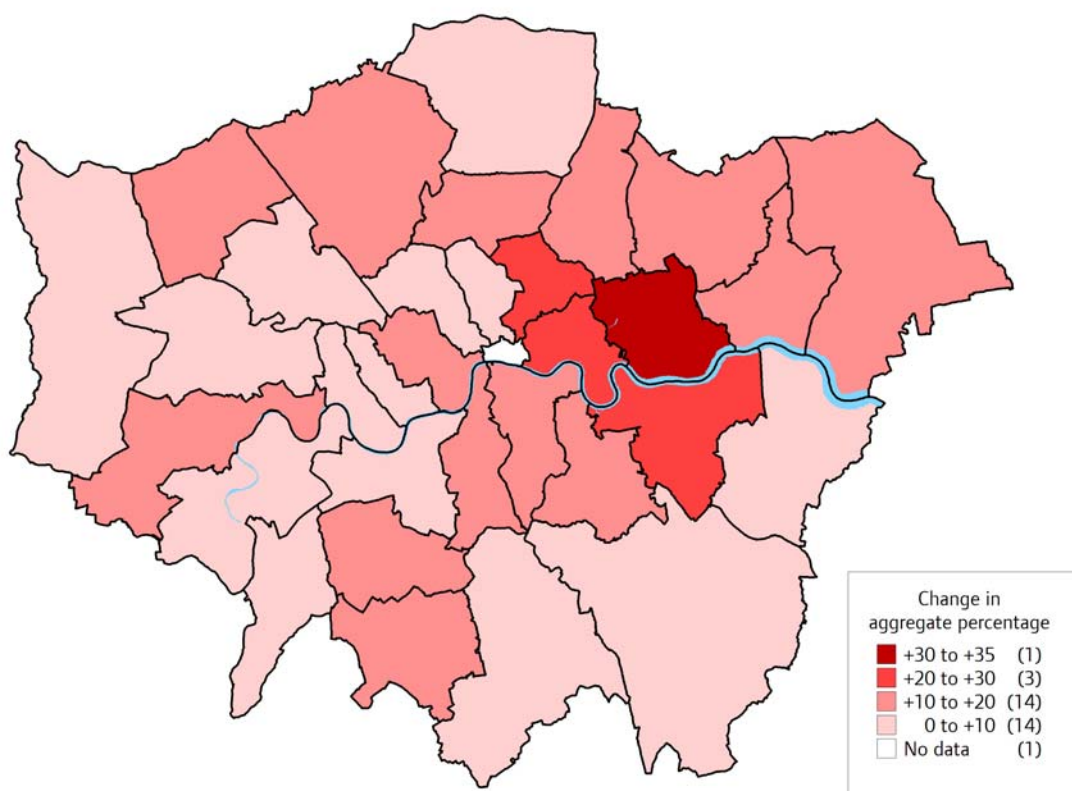

- The proportion of Key Stage 2 pupils in inner London achieving the nationally expected level of attainment increased more between 2001 and 2005 than the proportion in outer London.
- Between 2001 and 2005, Key Stage 2 results improved more in London than in England as a whole.

Chart E: Combined percentage of pupils in LA maintained primary schools reaching level 4 or above at Key Stage 2, 2001-2005

- In London between 2001 and 2005, six boroughs' combined Key Stage 2 percentage improved by more than 20 points.
 - In London between 2001 and 2005, 24 boroughs improved by more than 10 points and one inner London borough improved by more than 30 points.

Map Q: Change in the combined percentage of pupils achieving level 4 or above in Key Stage 2 tests, by borough 2001-2005

- Combined percentages at Key Stage 2 improved in London by 16 points or 7.2 per cent between 2001 and 2005.
 - Inner London schools improved by 18 points, an 8.5 per cent increase since 2001.
 - Outer London improved by 14 points, 6.1 per cent and England improved by 13 points, or 5.7 per cent.

11. Key Stage 3 Performance

- At Key Stage 3 in London in 2005, 73 per cent of pupils achieved level 5 or better in English, 71 percent in mathematics and 65 per cent in science.
 - On this measure, pupils in outer London out-performed pupils in schools in England in English, mathematics and science.
 - A greater percentage of girls than boys in London achieved the expected level in all subjects, except mathematics, where 71 per cent of both boys and girls achieved level 5.
 - The greatest difference in performance between boys and girls in London in 2005 was in English where 67 per cent of boys and 80 per cent of girls achieved the expected level. A difference of 13 percentage points. These proportions were the same for pupils in schools in England as a whole.

(Taken from Appendix 3: Table 11ai, Table 11aii and Table 11aiii)

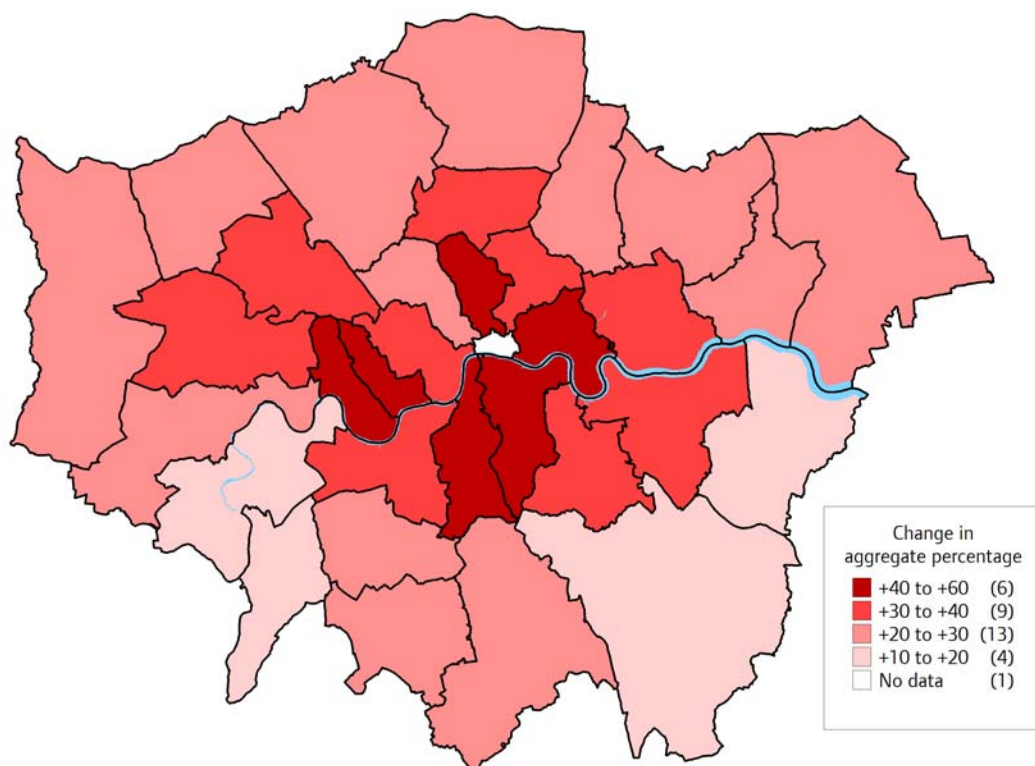

- The proportion of Key Stage 3 pupils in inner London achieving the expected level increased more in inner than outer London between 2003 and 2005.
 - At Key Stage 3, boys improved more than girls in English and mathematics in London between 2001 and 2005.
 - Results improved faster in London than in England between 2001 and 2005.

Chart F: Combined percentage of pupils in LA maintained primary schools reaching level 5 or above at Key Stage 3, 2001-2005

- In inner London, six boroughs' combined Key Stage 3 score improved by more than 40 points.
 - In outer London, three boroughs improved by more than 30 points but no borough improved by more than 40.

Map R: Change in the combined percentage of pupils achieving level 5 or above in Key Stage 3 tests, by borough 2001-2005

- The combined percentage of pupils achieving level 5 at Key Stage 3 improved by 38 points between 2001 and 2005 in inner London schools, a 25.3 per cent increase.
 - In London, the 29 point increase between 2001 and 2005 represents a 16.1 per cent rise.
 - In outer London and England, Key Stage 3 results improved by 23 and 22 points respectively; an 11 per cent rise in both cases.

12. GCSE Performance

- In 2004, 53.0 per cent of pupils in London schools achieved the equivalent of five or more A*-C grades at GCSE. To 2004, the rate of improvement was faster in London than in England as a whole.

Chart G: GCSE results in LA maintained secondary schools, 2001-2004

- In 2005, provisionally, there were 53.8 per cent of pupils in London schools who achieved the equivalent of five or more A*-C grades at GCSE. This is expected to rise when further information is published in January 2006.
 - Pupils in inner London improved at a faster rate between 2001 and 2005 than pupils in England. There was a rise in inner London of 10.2 percentage points compared with 6.1 in England.

(Taken from Appendix 3: Table 12a)

- The percentage of pupils achieving five or more GCSE A*-C grades (or equivalent) improved by more than ten points in 11 London boroughs. Seven of these boroughs were inner London boroughs.

Map 5: Change in the percentage of pupils achieving 5 or more A*-C grades at GCSE or equivalent, by borough 2001-2005

- Between 2003 and 2004 in London, there was a drop of 1.0 percentage points in the proportion of pupils who had no pass grades at GCSE or equivalent. This percentage had remained steady at around 4.6 per cent between 2001 and 2003.
 - On this measure, pupils in inner London improved more than those in outer London with a drop of 1.5 per cent compared to 0.6 per cent of pupils with no pass grades between 2001 and 2004.
 - In London in 2004, the proportion of pupils finishing Key Stage 4 with no GCSE pass grades was 0.2 percentage points lower than in England.

Appendix 1: Glossary of terms used

Academies

These are all ability schools established by sponsors from business, faith or voluntary groups working in highly innovative partnerships with central government and local education partners. Academies are non-LA maintained schools registered as independent schools.

Capped GCSE point score

Pupils take different numbers of GCSE or equivalent courses. In order to make comparisons between groups of pupils, their best 8 GCSE equivalent results are taken as a capped score.

City technology colleges

These take the form of a charitable company limited by guarantee. A CTC is a non-LA maintained school registered as an independent school.

Class sizes

The information is given for classes or groups of pupils being taught together at a particular point in the school day on the third Thursday in January each year. Reception classes are included in the Key Stage 1 numbers. The pupil figures do not include pupils engaged in private study, pupils on work experience or pupils attending courses at further education establishments during the selected period.

Combined percentages

At Key Stages 1-3, combined percentages are the sum of the percentage of pupils achieving the nationally expected level in the three main subjects: Reading, writing and mathematics at Key Stage 1; and English, mathematics and science at Key Stages 2 and 3.

Ethnic background of pupils

Since 2003 the categories for recording ethnicity data have reflected the categories used in the 2001 national population census. There is no complete direct mapping between this set of codes and those used in previous years.

First language

First language is the language to which the child was initially exposed during early development. At present, first language is recorded as either English, or a language other than English.

Free school meals

The definition of those entitled to Free School Meals includes only pupils where parents have indicated that they wish their child to have a free meal and have confirmed benefit receipt with the Local Authority or school.

Independent schools

An independent school is legally defined as any institution providing full time education for five or more pupils of compulsory school age, which is not maintained by a local authority.

Key stages

The national curriculum has four key stages. Key Stage 1 is for pupils who are in years 1 and 2 of the national curriculum. Key Stage 2 is for pupils in years 3 to 6 and Key Stage 3 is for pupils in years 7 to 9.

Tests are taken at the end of each key stage. For most pupils, these are taken in the summer when the pupils are aged 7, 11 or 14. Assessments at Key Stages 1 to 3 are in terms of levels, which are intended to reflect the extent of learning. Typically, children are expected to move up by one level over a two-year period. At the end of Key Stage 1, the majority of pupils are expected to have reached level 2. The national expected level for pupils at the end of Key Stage 2 is level 4 and at Key Stage 3 it is level 5 or 6.

Key Stage 4 covers the examinations taken at the end of compulsory secondary schooling. Pupils who were aged 15 at the beginning of the school year take exams at the end of that school year.

Middle Schools

Middle schools take children from first schools and generally lead on, in turn, to comprehensive upper schools. They cover varying age ranges between 8 and 14. They are deemed either primary or secondary depending on the age range catered for.

Non-maintained schools

Voluntary bodies run non-maintained schools; they may receive some grant aid from the Government for capital work and for equipment, but their current expenditure is met primarily from the fees paid by parents or to Local Authorities for pupils placed in the schools. Non-maintained schools include Academies, City Technology Colleges, Independent schools and some Nursery and Special schools.

Nursery schools

These provide education primarily for children below compulsory school age, under 5.

Part-time pupils

These are pupils who do not attend school both morning and afternoon at least five days a week. Each part-time pupil is counted as 0.5 of a full-time pupil. Pupils outside of compulsory school age are often part-time.

Primary schools

Primary schools consist mainly of infant schools for children aged 5 to 7, junior schools for those aged 7 to 11 and junior mixed and infant (JMI) schools catering for both age groups. Many primary schools provide nursery classes for children under 5.

Pupil absence

Schools are required to take attendance registers twice a day: once at the beginning of the morning session and once during the afternoon session. Schools have to indicate in their register whether a day pupil of compulsory school age is absent.

Pupil:teacher ratio

The pupil:teacher ratio within schools is the ratio of all pupils on the school registers (counting each part-time pupil as 0.5) to all qualified teachers (including the FTE of part-time teachers) employed in the schools on the third Thursday in January. Teachers absent for long periods or seconded to other duties are excluded from calculations of pupil:teacher ratios although their replacements – provided they are qualified teachers – are included.

Regional statistics of pupils

Regional figures are for schools in each region, irrespective of pupils' normal place of residence.

Secondary schools

Secondary schools teach pupils from age 11 to the end of compulsory age schooling at age 16. Some schools have sixth forms catering for pupils aged 16 and above.

Special Educational Needs (SEN)

In January 2002 a new SEN code of practice replaced the five-stage model used since 1994. The new code groups pupils under the headings: "school action", "school action plus" and "statemented". Pupils with a statement of SEN continue to be in a distinct group. For this reason numbers reported in 2003 and later are not directly comparable with those from earlier years. It is important that anyone using the data should be aware that SEN policies vary between local authorities.

Special schools

Special schools provide education for children with special educational needs who cannot be educated satisfactorily in a mainstream school.

Teachers

The figures for teachers are a count of teachers in post on the third Thursday in January each year, including supply and relief teachers filling vacant posts, but excluding unfilled vacancies.

Part-time teachers are counted once for each school in which they teach. Each part-time teacher is counted as a proportion of a full school week.

Vale Added measure

Value added measures the progress that students have made between taking tests at each key stage. The value added scores are shown as measures based on 1000. Scores above 1000 represent schools where students made more progress on average than similar students nationally, while scores below 1000 represent schools where students made less progress. Further information can be found in the [Value Added Technical Information](#) section of the DfES Achievement and Attainment tables.
