Notes

The London boroughs were constituted under the London Government Act 1963 and the first elections to the new councils were held on 7 May 1964. Prior to 1976, councillors were elected at general elections held every three years but as a result of an order made under the Local Government Act 1972 the term of office of members of London borough councils was increased to four years. The number of wards in a borough varies from 19 in Barking, Richmond-upon-Thames, and Tower Hamlets to 36 in Greenwich, with from 1 to 3 councillors elected for each ward. London borough councils have from 48 to 70 members. Electors have as many votes as there are councillors in each ward. Before 1978 each council included aldermen, to the number of one-sixth of the councillors, elected by the councillors from among themselves or from persons qualified to be councillors. Under the Local Government Act 1972, the office of alderman of a London borough council ceased to exist after the 1978 elections. The mayor of each borough is elected annually by each council from among the councillors.

Since the 1974 election the Local Government Boundary Commission has undertaken a review of ward boundaries, resulting in both new wards and boundary changes to existing wards. In many cases, therefore, the results of this election are not comparable with those of previous years at a ward level. The operation of the Commission's proposals for the London borough of Enfield was postponed pending settlement of a legal action between the London borough council and the Commission, and the old ward boundaries were used in that borough. Some new wards are divided between parliamentary constituencies so that constituency results cannot always be shown.

The City of London is not included because its constitution is different. The Corporation consists of 130 common councilmen, 4 to 12 of whom are elected annually for each ward, and 25 aldermen, in addition to the Lord Mayor. The aldermen, one for each of the 25 wards, are elected for life by the ward voters (who include business voters as well as residents).

This report is the fifth in this series to be published.

Notes

- (i) Votes cast in each by-election are shown against the names of the candidates.
- (ii) The date of the election, the percentage voting, and the size of the electorate are shown beneath the name of the ward and the parliamentary constituency.
- (iii) Elected candidates are shown in bold.
- (iv) Party affiliations are as indicated on pages 3 and 4 unless otherwise shown.

Table 3 Summary of election results by wards

- Note** (i) Owing to ward boundary changes, comparable figures for previous borough elections are not always available.
(ii) Wards that now have less than 25% (approximately) of their electorate in another constituency are indicated by an asterisk, however wards with part of their area, but no electorate, in another constituency are not indicated. Where more than 25% (approximately) of the ward electorate reside in another constituency, as occurs in the London boroughs of Greenwich, Harrow, and Redbridge, the percentage of the shared electorate has been given.
(iii) Percentages will not necessarily add exactly due to rounding.
