# Boroughs of London

## 1. Introduction

This *Briefing* presents demographic and socio-economic information for London's resident population according to their ethnicity and separately their religion. The document tries to pull together a range of material some of which is available in previously published DMAG reports. The report highlights how each group compares with the total London population as well as allow comparisons between different ethnic and faith groups for most variables.

This report is divided into two main sections. The first contains profiles for ethnic groups while the second consists of profiles for faith groups. Within the ethnic group section there is a further subdivision that separates profiles for 16 ethnic group categories (from the 2001 Census) from those of the five main ethnic categories that are aggregations of the 16.

These profiles have been produced predominantly using 2001 Census statistics. Other sources used include DCSF (formally DfES) school statistics, London Household Survey and statistics acquired from the London Health Observatory. Further details on data sources can be found in Section 5.

Each ethnic profile occupies four pages and each faith profile is based on a three page layout. Unfortunately not all data available for ethnicity were available by religion. Profiles cover a wide range of information including demography, housing and amenities, health, education, economic activity, occupation, industry and poverty.

Please note that for some data sources ethnic group categories needed to be aggregated. The next section outlines where this has been necessary.

## 2. Data for Ethnic Groups

Not all sources were able to provide consistent information for all ethnic group categories. This section outlines the data available for each of the 16 ethnic group categories and the five aggregated ethnic group categories.

Data for the following topics are available for all 16 ethnic groups and the five aggregated groups:

- Gender and age
- Country of birth
- Living arrangements
- Households
- Tenure
- Car access
- Occupancy rating
- Central heating
- Communal establishment
- Limiting long-term illness
- General health
- Admissions for psychiatric specialities
- School populations
- Teacher ethnicity
- Key Stage 1
- Key Stage 2
- Key Stage 3
- GCSE
- Qualifications
- People aged 16-74
- Economically active
- Economically inactive
- Occupation
- Industry
- Jobseekers allowance
- Homelessness

Data for the following are available for 16 ethnic groups but not the five aggregated groups:

- FAE disease/cause ratio

Data for the following are available for a limited number of the 16 ethnic groups and a limited number of the aggregated groups. This is due to restrictions on data availability:

- Population projections
- Migration statistics
- Births by mothers age
- Age specific fertility rates
- Total fertility rate
- Diagnoses with high/low number of admissions
- AS/A Level
- Material deprivation

Groups, where aggregated, have been aggregated as below:

White British	- White (Aggregated)
White Irish	- White (Aggregated)
White Other	- White (Aggregated)

Mixed White and Black Caribbean	- Other Black
Mixed White and Black African	- Other Black
Mixed White and Asian	- Other Asian
Other Mixed	- Other

### **3.1 Ethnicity Profiles: All ethnic groups (16 categories)**

White British  
White Irish  
White Other  
Indian  
Pakistani  
Bangladeshi  
Asian Other  
Black Caribbean  
Black African  
Black Other  
Mixed: White and Black Caribbean  
Mixed: White and Black African  
Mixed: White and Asian  
Mixed: Other  
Chinese  
Other

## **6. Glossary and Definitions**

### **Demography**

#### **Population Projections**

These projections have been demographically modelled using 2001 census data. To diminish the impact of statistical disclosure at borough level data, particularly migration, the 16 categories as described in the 2001 census were aggregated into ten categories.

#### **Migration Statistics**

In the 2001 Census, people were asked whether they had moved within the previous year and if yes, were asked to provide their address a year earlier.

Migration into London has been either from the rest of the UK or from the rest of the world. People who lived in London in 2000 but moved to a country outside of the UK cannot be measured therefore the calculation of net migration is not possible.

In the migration tables, a number of people had said that they had moved but did not state their former address. These migrants were allocated to origin locations in proportion to the known flows by age and gender.

#### **Living Arrangements (2001 Census)**

The living arrangements classification combines the responses to the question on legal marital status and whether people are, or are not, living as a couple. It applies only to people in households and is recorded under the household reference person.

There are three major categories: 'One Person Households', 'One family and no other' households, and 'Other' households. This Briefing breaks down 'One family and no other' households by including the subcategories: 'All pensioners', 'Married Couple households', 'Cohabiting Couple households', and 'Lone parent households'.

#### **One person households**

This describes households with one person and includes both pensioners and others.

#### **Pensioners**

This describes pensioners who live as one family either as a couple or as a one person household.

#### **Living in a couple**

Includes both living with a spouse and cohabiting.

#### **Lone parent family**

Usually, a lone parent family is a father or mother with his or her dependent child(ren) where the parent does not have a spouse or partner in the household and the child(ren) do not have a spouse, partner or child in the household. It also includes a lone grandparent with his or her grandchild(ren) where there are no children in the intervening generation in the household.

#### **Cohabiting**

Two people are described as cohabiting if they are living together as a couple but are not married to each other. This includes people living with a partner of the same sex. A cohabiting person might be married (to someone not resident in the household) but will not be shown as married or separated in the living arrangements tables.

### **Country of Birth (2001 Census)**

There are five tick box responses to the country of birth question; one for each part of the UK and one for the Republic of Ireland. Where there is no applicable tick box, people were asked to write in the present name of their country of birth.

### **Births by mothers age**

These values represent the structure of all births in London in 2002 by age band and ethnicity of the mother. These data are obtained from NHS hospital episode statistics, hospital records of maternities.

### **Age specific fertility rates (ASFRs)**

These values for the whole population and each ethnic group were derived using the table for births by mothers' age and 2002 mid-year female population estimates using the following definition:

$$ASFR(x,y) = 1000 \times \frac{\text{Births based on HES 2002/03 } (x,y)}{\text{Women at mid-2002 } (x,y)}$$

where:

x=five-year age band of mother

y=ethnicity (or whole population)

Units of  $ASFR(x,y)$  are births per 1000 women per year

### **Total period fertility rates (TPFRs)**

These values for the whole population and each ethnic group were derived using the following definition:

$$TPFR(y) = \frac{5}{1000} \times \sum ASFR(x,y)$$

where x and y are as defined above for ASFRs.

Units of  $TPFR(y)$  are births per woman over her lifetime.

## **Housing and Amenities**

### **Tenure (2001 Census)**

The tenure of a household is derived from the response to the question asking whether the household owns or rents its accommodation and, if rented, from the response to the question asking who is the landlord.

### **Owner occupier**

This includes accommodation that is either owned outright, owned with a mortgage or loan, or shared ownership (paying part rent and part mortgage).

### **Other social rented**

Includes rented from Registered Social Landlord, Housing Association, Housing Co-operative, Charitable Trust and non-profit housing company.

### **Private rented**

This includes accommodation that is rented from a private landlord or letting agency, employer of a household member, relative or friend of a household member, or other non social rented.

### **Living rent free**

Could include households that are living in accommodation other than private rented

### **HRP**

The HRP is chosen from the people in the household on the basis of economic activity; ordered by full time job, part time job, unemployed, retired, other; then if same status, age (oldest takes priority) then if same age, order on form (the first listed becomes the HRP)

### **Access to Cars**

Whether there are cars or vans owned, or available for use, by one or more members of a household. It includes company cars and vans available for private use. The count of cars or vans in an area relates only to households. Cars or vans used by residents of communal establishments are not counted.

### **Occupancy rating**

This provides a measure of under occupancy and over crowding. It relates the actual number of rooms to the number of rooms 'required' by the members of the household (based on a relationship between them and their ages). The room requirement is calculated as follows:

- a one person household is assumed to require three rooms (two common rooms and a bedroom) - where there are two or more residents it is assumed that they require a minimum of

two common rooms plus one bedroom for:

- i. each couple (as determined by the relationship question)
- ii. each lone parent
- iii. any other person aged 16 or over
- iv. each pair aged 10 to 15 of the same sex
- v. each pair formed from a remaining person aged 10 to 15 with a child aged under 10 of the same sex
- vi. each pair of children aged under 10 remaining
- vii. each remaining person (either aged 10 to 15 or under 10).

### **Central Heating**

A household's accommodation is described as 'with central heating' if it has central heating in some or all rooms (whether used or not). Central heating includes gas, oil or solid fuel central heating, night storage heaters, warm air heating and under floor heating. The information is not available for unoccupied household spaces.

### **Communal Establishments (2001 Census)**

A communal establishment is defined as an establishment providing managed residential accommodation. Managed means full-time or part-time supervision of the accommodation. In most cases (for example, prisons, large hospitals, hotels) communal establishments can be easily identified. However, difficulties can arise with small hotels, guesthouses and sheltered accommodation. Special rules apply in these cases: Small hotels and guesthouses are treated as communal establishments if they have the capacity to have 10 or more guests, excluding the owner/manager and his/her family. Sheltered housing is treated as a communal establishment if less than half the residents possess their own facilities for cooking. If half or more possess their own facilities for cooking (regardless of use) the whole establishment is treated as separate households. Communal establishments have been excluded from calculations unless otherwise stated.

### **Homeless households**

These are the number of households that have been accepted as homeless, in priority need and not intentionally homeless between April 2005 and March 2006

## Health

### Limiting long-term illness (2001 Census)

A self assessment of whether or not a person has a limiting long-term illness, health problem or disability which limits their daily activities or the work they can do, including problems that are due to old age.

### General Health (2001 Census)

A self-assessment of a person's general health over the 12 months before Census day.

### Admissions for psychiatric specialities

Data on hospital admissions for London residents for adult acute psychiatry and older adult psychiatry. Figures show directly age-standardised admission rates, per 100,000 population

### F AE disease/cause ratio

An FAE is an acronym for finished admission episode for the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

The FAE ratios have been calculated using indirect standardisation by ethnicity against London totals within each diagnosis.

The numerator used is:

$$\frac{\text{Total number of specific diagnosis for specific ethnicity in London}}{\text{Total number of FAEs for specific ethnicity in London}}$$

The denominator used is:

$$\frac{\text{Total number of specific diagnoses in London}}{\text{Total number of FAEs in London}}$$

Ratios for persons who did not state their ethnicity have not been included.

### PAR

A Proportional Admission Ratio (PAR) is a measure of how more or less likely a person of a particular ethnicity living in a particular area (London) is to have a hospital FAE for such a diagnosis compared to the standard population, in this case London.

The PAR is a ratio of the actual number of specific diagnoses/FAE for a particular ethnicity compared to the total number of those specific diagnoses per FAE for all London, multiplied by 100. A PAR of 100 indicates that the ethnicity has an average FAE rate for a particular diagnosis, higher than 100 indicates that the ethnicity has a higher than average rate, lower than 100 indicates a lower than average rate. Calculations are not made where there are less than 20 admissions.

### All infectious and parasitic diseases

This refers to all diseases that are generally recognized as communicable or transmissible as well as a few diseases of unknown but possibly infectious origin.

**Tuberculosis**

Tuberculosis is a common and deadly infectious disease, which most commonly affects the lungs but can also affect the central nervous system, lymphatic system, circulatory system, genitourinary system, bones, joints, and even the skin.

**Cancer of head and neck, oesophageal cancer, stomach cancer, colon cancer, rectal cancer, pancreatic cancer, lung cancer, breast cancer, cervical cancer, uterine cancer, ovarian cancer, prostate cancer, bladder cancer**

These cancers are malignant growths in the corresponding areas of the human anatomy.

**Skin melanoma**

This is a malignant tumour of melanocytes (cells located in the bottom layer of the skin's epidermis).

**Non-Hodgkin's lymphoma**

This is a cancer arising from the lymphocytes (a type of white blood cells).

**Leukaemia**

This is a cancer of the blood or bone marrow.

**Diabetes**

This is a metabolic disorder characterised by hyperglycaemia (high blood sugar).

**Substance use**

This refers to the overindulgence in and dependence on a psychoactive drug leading to effects that are detrimental to the individual's physical health or mental health, or the welfare of others.

**Schizophrenia**

This is a psychiatric diagnosis that describes a mental disorder characterised by impairments in the perception or expression of reality and by significant social and occupational dysfunction.

**Neuroses**

This term refers to the mental imbalance that causes distress, but unlike a psychosis or some personality disorders, does not prevent rational thought or an individual's ability to function in daily life.

**Epilepsy**

This is a common chronic neurological condition that is characterised by recurrent unprovoked seizures.

**Acute hypertensive disease**

This is the condition of having high blood pressure.

**Coronary heart disease**

This is the end result of the accumulation of atheromatous plaques (cholesterol and fatty acids) within the walls of the arteries.

**Heart failure**

This is a condition that can result from any structural or functional cardiac disorder that impairs the ability of the heart to fill with or pump a sufficient amount of blood throughout the body.

**Stroke**

This is an acute neurological injury in which the blood supply to a part of the brain is interrupted, which involves a sudden loss of neuronal function.

**Pneumonia**

This is an illness of the lungs and respiratory system in which the alveoli become inflamed and flooded with fluid.

**COPD**

This acronym for chronic obstructive pulmonary disease is a group of diseases characterised by limitation of airflow in the airway that is not fully reversible.

**Asthma**

This is a chronic disease of the respiratory system in which the airway occasionally constricts, becomes inflamed and is lined with excessive amounts of mucus, often in response to one or more triggers.

**Chronic liver disease**

This is a name for the liver diseases of slow process and persisting over a long period of time, resulting in a progressive destruction of the liver.

**Renal failure**

This is the condition in which the kidneys fail to function properly.

**Fracture of neck of femur**

This is usually known as a hip fracture and is often due to osteoporosis.

**Admissions from injury undetermined**

These are FAEs from which the injury is undetermined.

## **Education**

### **Primary school**

Children between ages 5 and 11 are taught at primary schools. The percentages will not total 100 because ethnicity for 5,860 primary school children (1.2%) was either refused or not obtained. All figures are rounded to the nearest 10.

### **Secondary School**

Children between ages 11 and 16 are taught at secondary schools. The percentages will not total 100 because ethnicity for 11,140 secondary school children (2.6%) was either refused or not obtained. All figures are rounded to the nearest 10.

### **Teacher ethnicity**

This represents teacher percentages for both primary and secondary schools. The percentages have been calculated from those who have provided ethnicity details. This represents 88.3 % of the teacher population. The rest have not been included since they either refused or the information has not yet been obtained.

### **Schools of religious character**

A school is defined to have a religious character if it engages in religious education in addition to the national curriculum.

### **Key Stage 1**

The National Curriculum for key stage 1 starts at the beginning of Year 1 (aged 5) and finishes at the end of Year 2 (aged 7).

### **Key Stage 2**

The National Curriculum for key stage 2 starts at the beginning of Year 3 (aged 7) and finishes at the end of Year 6 (aged 11).

### **Key Stage 3**

The National Curriculum for key stage 3 starts at the beginning of Year 7 (aged 11) and finishes at the end of Year 9 (aged 14).

### **GCSE**

The National Curriculum for GCSE/key stage 4 starts at the beginning of Year 10 (aged 14) and finishes at the end of Year 11 (aged 16).

### **A Level**

The coverage of these statistics is 16 to 18 year old students at the end of their second (and final) year of post-16 study. However, as the year group is not collected, a set of proxy criteria has been established. The criteria are that students must be 16, 17 or 18 (age at the start of the academic year) and they must have been entered for a GCE/VCE A level, or a VCE Double Award in Summer 2004.

Key skills qualifications at Level 3 are included in the average point score calculations. These are generally taken at the same time as other Post-16 qualifications. A pass in each of these qualifications at Level 3 receives 20 points and therefore, for the purposes of calculating average point scores, an entry is considered comparable to one-sixth of an A level entry.

Points are assigned to general (GCE) and vocational (VCE) advanced level grades on the following basis:

Grade	VCE Double Award
AA	240
AB	220
BB	200
BC	180
CC	160
CD	140
DD	120
DE	100
EE	80
U, X	0

The Advanced level results relate to general (GCE) and vocational (VCE) A/AS levels. The GCE Advanced Subsidiary is the first 50 per cent of a GCE A level course, and is assessed at the standard expected of a candidate after one year of A level study. Vocational A levels come in three forms, the VCE AS which is equivalent in size and points awarded to the GCE AS but is assessed at the full A level standard, the VCE A level which is directly equivalent to the GCE A level in size, 11 points awarded and the standards of assessment and the VCE Double Award which is equivalent to 2 GCE/VCE A levels.

### Qualifications - Level 1

A person with level 1 qualifications has 1+ 'O' level passes, 1+ CSE/GCSE any grades, NVQ level 1 or Foundation GNVQ.

### Qualifications - Level 2

A person with level 2 qualifications has 5+ 'O' level passes, 5+ CSEs (grade 1). 5+ GCSEs (grades A-C), School Certificate, 1+ 'A' levels/ AS levels, NVQ level 2 or Intermediate GNVQ.

### Qualifications - Level 3

Grade	GCE and VCE level	GCE and VCE AS
A	120	60
B	100	50
C	80	40
D	60	30
E	40	20
U, X	0	0

A person with level 3 qualifications had 2+ 'A' levels, 4+ AS levels, Higher School certificate, NVQ level 3 or Advanced GNVQ.

### Qualifications - Level 4/5

A person with a level 4/5 qualification has a first degree, higher degree, NVQ levels 4 and 5, HNC, HND, qualified teacher status, is qualified medical doctor, qualified dentist, or qualified nurse, midwife, health visitor.

## **Labour Market**

### **Economic Activity**

In the 2001 Census the Economic Activity questions apply only to people aged 16 to 74. They relate to whether or not a person was working or looking for work in the week before Census. The concept of Economic Activity is compatible with the International Labour Organisation (ILO) definition of economic status.

### **Economically Active**

All people who were working in the week before the Census are described as economically active. In addition, the category includes people who were not working but were looking for work and were available to start work within two weeks. Full-time students who are economically active are included but are identified separately in the classification. The economic activity questions are only asked of people aged 16 to 74.

### **Employed**

Any person, who did paid work in the week before the Census, whether as an employee or self employed, is described as employed or in employment. 'Paid work' includes casual or temporary work, even if only for one hour; being on a government-sponsored training scheme; being away from a job/business ill, on maternity leave, on holiday or temporarily laid off; or doing paid or unpaid work for their own or family business.

### **Employee and Self-Employed**

The distinction between employee and self-employed is determined by the response to the question 'Do (did) you work as an employee or are (were) you self-employed?' It relates to the person's Main job in the week before the Census or, if not working in the week before the Census, their last Main job.

### **Full-time student**

A full-time student is a person of any age who has indicated that they are a schoolchild or student in full-time education. Full-time students and schoolchildren who are economically active are identified separately in the economic activity tables. They are not included in the other categories of economically active such as 'employees' or 'unemployed'. In tables on occupation and industry, where students are not identified separately, they are included under the appropriate occupation or industry. The economic activity questions are only asked of people aged 16 to 74.

### **Full-time working**

Working full-time is defined as working 31 hours or more a week.

### **Part-time working**

Working part-time is defined as working 30 hours or less a week.

### **Unemployed**

A person is defined as unemployed if he or she is not in employment, is available to start work in the next two weeks and has either looked for work in the last four weeks or is waiting to start a new job. This is consistent with the International Labour Office (ILO) standard classification.

### **Economically Inactive**

Within the Economic Activity classification, a person is either Economically Active or Inactive.

Specific categories of Economic Inactivity are: Retired, Student (excludes those students who were working or in some other way were economically active), Looking after family/home, Permanently sick/disabled and Other. A person who is looking for work but is not available to start work within two weeks is counted as Economically Inactive. Economic Activity questions are only asked of people aged 16 to 74.

### **Permanently sick/disabled**

This is a sub-category of 'economically inactive'. There is no direct connection with limiting long-term illness.

### **Occupation**

A person's occupation is coded from the response to the question asking for the full title of the Main job and the description of what is done in that job. It is coded to the 2000 edition of the Standard Occupational Classification (SOC).

### **Managers and senior officials**

This covers occupations such as:

- Corporate Managers And Senior Officials
- Production Managers
- Functional Managers
- Quality And Customer Care Managers
- Financial Institution And Office Managers
- Managers In Distribution Storage And Retailing
- Protective Service Officers
- Health And Social Services Managers
- Managers In Farming, Horticulture, Forestry And Fishing
- Managers And Proprietors In Hospitality And Leisure Services
- Managers And Proprietors In Other Service Industries

### **Professional occupations**

This covers occupations such as:

- Science Professionals
- Engineering Professionals
- Information And Communication Technology Professionals
- Health Professionals
- Teaching Professionals
- Research Professionals
- Legal Professionals
- Business And Statistical Professionals
- Architects,
- Town Planners
- Surveyors
- Public Service Professionals
- Librarians And Related Professionals

### **Associate professionals and technical occupations**

This covers occupations such as:

- Science And Engineering Technicians
- Draughtspersons And Building Inspectors
- IT Service Delivery Occupations

- Health Associate Professionals
- Therapists
- Social Welfare Associate Professionals
- Protective Service Occupations
- Artistic And Literary Occupations
- Design Associate Professionals
- Media Associate Professionals
- Sports And Fitness Occupations
- Transport Associate Professionals
- Legal Associate Professionals
- Business And Finance Associate Professionals
- Sales And Related Associate Professionals
- Conservation Associate Professionals
- Public Service And Other Associate Professionals

### **Administrative and secretarial occupations**

This covers occupations such as:

- Administrative Occupations in Government And Related Organisations
- Administrative Occupations in Finance
- Administrative Occupations in Records
- Administrative Occupations in Communications
- Administrative Occupations in General
- Secretarial And Related Occupations

### **Skilled Trades occupations**

This covers occupations such as:

- Agricultural Trades
- Metal Forming, Welding And Related Trades
- Vehicle Trades
- Electrical Trades
- Construction Trades
- Building Trades
- Textiles And Garments Trades
- Printing Trades
- Food Preparation Trades
- Skilled Trades

### **Personal service occupations**

This covers occupations such as:

- Healthcare And Related Personal Services
- Childcare And Related Personal Services
- Animal Care Services
- Leisure And Travel Service Occupations
- Hairdressers And Related Occupations
- Housekeeping Occupations
- Personal Services Occupations

### **Sales and customer service occupations**

This covers occupations such as:

- Sales Assistants And Retail Cashiers
- Sales Related Occupations
- Customer Service Occupations

### **Process; Plant and machine operative**

This covers occupations such as:

- Process Operatives
- Plant And Machine Operatives
- Assemblers And Routine Operatives
- Construction Operatives
- Transport Drivers And Operatives
- Mobile Machine Drivers And Operatives

### **Elementary occupations**

This covers occupations such as:

- Elementary Agricultural Occupations
- Elementary Construction Occupations
- Elementary Process Plant Occupations
- Elementary Goods Storage Occupations
- Elementary Administration Occupations
- Elementary Personal Services Occupations
- Elementary Cleaning Occupations
- Elementary Security Occupations
- Elementary Sales Occupations

### **Industry**

The industry in which a person works is determined by the response to the question asking for a description of the business of the person's employer (or own business if self-employed). The responses are coded to a modified version of the UK Standard Industrial Classification of Economic Activities 1992 – UK SIC (92).

### **Manufacturing and primary**

This includes industries such as:

- Agriculture, hunting and related service activities
- Fishing
- Mining
- Manufacturing
- Electricity, gas, steam and hot water supply collection
- Purification and distribution of water

### **Construction**

This includes industries such as:

- Site preparation
- Building installation
- Building completion
- Building of complete constructions or parts thereof; civil engineering
- Renting of construction or demolition equipment with operator

### **Wholesale and retail trade**

This includes industries such as:

- Sale, maintenance and repair of motor vehicles and motorcycles
- Retail sale of automotive fuel
- Whole trade and commission trade
- Retail trade
- Repair of personal and household goods

### **Hotels and restaurants**

This includes industries such as:

- Hotels
- Restaurants
- Bars
- Canteens and catering
- Camping sites and other provision of short-stay accommodation

### **Transport; Storage and communications**

This includes industries such as:

- Land transport
- Transport via pipelines
- Water transport
- Air transport
- Supporting and auxiliary transport activities
- Activities of travel agencies
- Post and telecommunications

### **Financial intermediation**

This includes industries such as:

- Financial intermediation
- Insurance and pension funding
- Activities auxiliary to financial intermediation

### **Real estate; renting and business activities**

This includes industries such as:

- Real estate activities
- Computer and related activities
- Research and development
- Other business activities
- Renting of machinery and equipment without operator and of personal and household goods

### **Public administration and defence; social security**

This includes industries such as:

- Administration of the State and the economic and social policy of the community
- Provision of services to the community as a whole
- Compulsory social security activities

### **Education**

This includes industries such as:

- Primary education
- Secondary education
- Higher education
- Adult and other education

### **Health and social work**

This includes industries such as:

- Human health activities
- Veterinary activities
- Social work activities

### **Other**

This includes industries such as:

- Sewage and refuse disposal, sanitation and similar activities
- Activities of membership organisations not elsewhere classified
- Cultural and sporting activities
- Other service activities
- Private households with employed persons
- Extra-territorial organisations and bodies

### **Job Seekers allowance**

Job Seekers allowance is a benefit for people who are available to work and are actively looking for (seeking) work.

## Regular Briefings from the GLA Data Management and Analysis Group (DMAG)

Recent *DMAG Briefings*:

2007-01	DCLG 2003-based Projections of Households for Greater London	John Hollis
2007-02	Claimant Count Model 2007: Technical Note	Lorna Spence/Caroline Hall
2007-03	Commuting in London	Gareth Piggott
2007-04	Who Benefits?	Lovedeep Vaid/PSU Health
2007-05	Disabled People and the Labour Market in London	Lorna Spence
2007-06	Demography Team Workplan 2007/08	Demography Team
2007-07	Education Team Workplan 2007/08	Education Team
2007-08	Social Exclusion Data Team Workplan 2007/08	Social Exclusion Data Team
2007-09	Child Poverty in London: 2007 Update	Lorna Spence / Lovedeep Vaid
2007-10	Summary of Social Trends 2007	Elizabeth Williams
2007-11	Census Information Note 2007-1	Eileen Howes
2007-12	GLA 2006 Round Ward Population Projections	Caroline Hall/John Hollis
2007-13	Borough and sub-regional demographic profiles 2007	Caroline Hall
2007-14	2006 Round Ethnic Group Population Projections	Baljit Bains/Ed Klodawski
2007-15	GI Team Workplan 2007-08	Gareth Baker

A full list of DMAG Briefings is available to internal customers through the GLA Intranet; otherwise please contact [dmag.info@london.gov.uk](mailto:dmag.info@london.gov.uk) A CD containing PDF versions of the Briefings, or hard copies, can be provided.

## Contact details for the Data Management and Analysis Group

**Rob Lewis (020 7983 4652)** is **Head of the Data Management and Analysis Group**.

[rob.lewis@london.gov.uk](mailto:rob.lewis@london.gov.uk)

**John Hollis (020 7983 4604)** is responsible for the work of the **Demography, Education and Social Exclusion Teams**, and particularly for demographic modelling. [john.hollis@london.gov.uk](mailto:john.hollis@london.gov.uk)

**Eileen Howes (020 7983 4657)** is responsible for the work of the **Census, SASPAC and General Statistics Teams** and particularly for census analysis. [eileen.howes@london.gov.uk](mailto:eileen.howes@london.gov.uk)

**Gareth Baker (020 7983 4965)** is the **GIS Manager** with responsibility for leading work on GI including strategy, the development of data holdings, analysis and dissemination.

[gareth.baker@london.gov.uk](mailto:gareth.baker@london.gov.uk)

**Steve Forgan (020 7983 4185)** is the **interim London Analyst Support Site (LASS) Manager** and is responsible for data exchange & analysis projects for crime reduction in London.

[Stephen.forgan@london.gov.uk](mailto:Stephen.forgan@london.gov.uk)

**Kelly Rump (020 7983 4655)** is the **Business Coordinator**. [Kelly.rump@london.gov.uk](mailto:Kelly.rump@london.gov.uk)

---

### Demography Team

**Baljit Bains (020 7983 4613)** works in the Demography Team and is responsible for ethnic demography, including ethnic group projections. [baljit.bains@london.gov.uk](mailto:baljit.bains@london.gov.uk)

**Caroline Hall (020 7983 4347)** works in the Demography Team and is responsible for ward level projections, the Demography Extranet and borough liaison. [caroline.hall@london.gov.uk](mailto:caroline.hall@london.gov.uk)

**Ed Klodawski (020 7983 4694)** works in the Demography Team. His post is joint with the London Health Observatory and specialises in ethnic and health issues. [edmund.klodawski@london.gov.uk](mailto:edmund.klodawski@london.gov.uk)

### Social Exclusion Team

**Lorna Spence (020 7983 4658)** works in the Social Exclusion Team, with particular responsibilities for labour market data. [lorna.spence@london.gov.uk](mailto:lorna.spence@london.gov.uk)

**Lovedeep Vaid (020 7983 4699)** works in the Social Exclusion Team with particular responsibilities for benefits, indicators, income data and the Social Exclusion Extranet. [lovedeep.vaid@london.gov.uk](mailto:lovedeep.vaid@london.gov.uk)

**Rachel Leeser (020 7983 4696)** works in the Social Exclusion Team with particular responsibilities for surveys, income data and the Social Exclusion Data Users Group. [rachel.leeser@london.gov.uk](mailto:rachel.leeser@london.gov.uk)

### Education Team

**David Ewens (020 7983 4656)** works in the Education Team and is responsible for research and data analysis. [david.ewens@london.gov.uk](mailto:david.ewens@london.gov.uk)

**Shen Cheng (020 7983 4889)** works in the Education Team and is responsible for school roll projections. [shen.cheng@london.gov.uk](mailto:shen.cheng@london.gov.uk)
