## 1. INTRODUCTION

This report presents information about people seen rough sleeping by outreach teams in Ealing between April 2015 and March 2016. Information in the report is derived from the Combined Homelessness and Information Network (CHAIN), a multi-agency database recording information about rough sleepers and the wider street population in London. CHAIN, which is commissioned and funded by the Greater London Authority (GLA) and managed by St Mungo's, represents the UK's most detailed and comprehensive source of information about rough sleeping.

The final section of the report presents information about people arriving at or departing from temporary accommodation for rough sleepers in Ealing. People included in this section will have been seen rough sleeping at some point in their history, but not necessarily during 2015/16.

## **Percentage figures in this report**

Please note that, in some cases, percentage figures given in this report are rounded up or down to the nearest whole number. This may mean that individual figures in tables and charts do not add up to a combined total of 100%.

## **Glossary of acronyms used in this report**

ASB: Anti-Social Behaviour

Defined in the Crime and Disorder Act (1998) as acting 'in a manner that caused or was likely to cause harassment, alarm or distress to one or more persons not of the same household as the perpetrator.'

CEE: Central and Eastern European

Used to denote the ten A8 and A2 European Union accession countries (Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia).

CHAIN: Combined Homelessness and Information Network

A multi-agency database recording information about rough sleepers and the wider street population in London, commissioned and funded by the GLA and managed by St Mungo's.

EEA: European Economic Area

The 28 countries of the European Union (EU), plus a further three countries that are part of the EU's single market (Iceland, Liechtenstein and Norway). Common usage generally also includes Switzerland, whose citizens have the same rights to live and work in the UK as other EEA nationals.

GLA: Greater London Authority

The top-tier administrative body for Greater London, consisting of a directly elected executive Mayor of London, and an elected 25-member London Assembly.

NLOS: No Living on the Streets

A GLA commissioned assessment and reconnection project for rough sleepers who were living on the streets and not eligible for No Second Night Out. From October 2014 onwards the project was integrated into the GLA's No Second Night Out service.

NSNO: No Second Night Out

A GLA commissioned assessment and reconnection project for rough sleepers. The service originally specifically targeted new rough sleepers, but from October 2014 onwards it has also worked with rough sleepers who are living on the streets. The term is also used in other contexts to refer to a wider strategy to end rough sleeping, both in London and nationwide.

## 2. ROUGH SLEEPER POPULATION ANALYSIS

### 2.1 Number of people seen rough sleeping: Flow, stock, returner model

People seen rough sleeping in the year, by the flow, stock and returner model.

2012/13 base: 244

2013/14 base: 248

2014/15 base: 219

2015/16 base: 287

The flow, stock and returner model categorises people seen rough sleeping in the year according to whether they have also been seen rough sleeping in previous periods:

Category	Description
Flow	People who had never been seen rough sleeping prior to 2015/16 (i.e. new rough sleepers).
Stock	People who were also seen rough sleeping in 2014/15 (i.e. those seen across a minimum of two consecutive years).
Returner	People who were first seen rough sleeping prior to 2014/15, but were not seen during 2014/15 (i.e. those who have had a gap in their rough sleeping histories).

287 people were seen rough sleeping in the borough in 2015/16. This represents a 31% increase when compared to 2014/15.

61% of people seen rough sleeping in the borough during the year were new rough sleepers (flow), while 23% fell into the stock category, and 15% were returners.

## 2.2 Number of times seen rough sleeping

People seen rough sleeping in the year, by number of times seen rough sleeping.

Base: 287

137 (48%) people were seen rough sleeping only once in 2015/16, this compares to 114 (52%) seen rough sleeping only once in 2014/15.

55% of people seen rough sleeping in the borough during 2015/16 who were new to the streets did not spend a second night on the streets during the year.

## 2.3 Rough sleeping volume: Flow, stock, returner model

People seen rough sleeping in the year, by flow, stock, returner model, and number of times seen rough sleeping.

Base (Flow): 176  
 Base (Stock): 67  
 Base (Returner): 44

## 2.4 New rough sleepers (flow): History prior to rough sleeping

People seen rough sleeping for the first time ever in 2015/16, by history prior to first being seen rough sleeping.

### 3.6 Support needs

People seen rough sleeping in the year, by support needs.

Support needs data in CHAIN is derived from assessments made by those working with rough sleepers in the homelessness sector. It is important to note that 31% of rough sleepers in the borough in 2015/16 did not have a support needs assessment recorded.

Base: 199. Note that the base figure for this chart excludes clients where none of the three support needs were known or assessed (88).

<b>Base (total assessed)</b>	<b>144</b>	

9 people seen rough sleeping in the borough in 2015/16 had experience of serving in the armed forces, of whom 4 were UK nationals. Time spent in the forces could have been at any point in the person's life, and it is not necessarily the case that the person has recently been discharged.

## 4. HELPING PEOPLE OFF THE STREETS

### 4.1 Accommodation outcomes

Outreach teams and other services work to help rough sleepers into a range of accommodation types, most commonly hostels but also the private rented sector and residential treatment centres.

In 2015/16, 73 people who had been seen rough sleeping during the year were booked into accommodation by services in the borough.

The table below details the accommodation outcomes achieved with people seen rough sleeping in the year, compared to outcomes for rough sleepers in the previous year.

### 4.2 NSNO attendance

People seen rough sleeping during the year who were referred from the borough to NSNO.

	2014/15*	2015/16
NSNO	37	51
NLOS	2	

\*From October 2014 onwards NLOS ceased operating as a separate service and was integrated into NSNO. Some people may have attended both NSNO and NLOS during 2014/15.

### 4.3 Reconnection outcomes

Confirmed reconnections achieved with people seen rough sleeping in the year.

Outreach and other services help people to reconnect to their home area or country, where they are more likely to find a solution to their homelessness, for example through appropriate support networks, entitlement to accommodation or access to an alcohol treatment centre. Reconnection destinations could be another borough within London, an area elsewhere in the UK, or another country. Some people may have had more than one reconnection recorded during the year.

Reconnection reason	2014/15		2015/16	
	No.	%	No.	%
Return to home area	14	82%	7	78%
Seeking work	2	12%	0	0%

<b>Reconnections total (excl. destination not known)</b>	<b>17</b>	<b>100%</b>	<b>9</b>	<b>100%</b>

\*Reconnections can be recorded with multiple reasons, so the overall total will be lower than the combined sum of the separate reconnection reasons. Percentages are based on the total number of reconnections.

9 people seen rough sleeping in 2015/16 also had a confirmed reconnection recorded by services in the borough during the period.

44% of reconnections this year were to destinations outside the UK. 22% of reconnections were to Central and Eastern European countries.
