1. INTRODUCTION & KEY FINDINGS

Introduction

This quarterly report presents information about people seen rough sleeping by outreach teams in London in April-June 2022. Information is derived from the 'Combined Homelessness and Information Network' (CHAIN), a database commissioned and funded by the Greater London Authority (GLA) and managed by Homeless Link. For more information see www.homeless.org.uk/chain.

In the rough sleeping figures in this report people are grouped into three categories:

New rough sleepers	Those who had not been contacted by outreach teams rough sleeping before the period
Living on the streets	Those who have had a high number of contacts over 3 weeks or more which suggests they are living on the streets
Intermittent rough sleepers	People who were seen rough sleeping before the period began at some point, and contacted in the period - but not regularly enough to be 'living on the streets'

For more information about the methods used to derive statistics for this report, and definitions of different groups, please see section 11 – Methodology.

Key findings

New rough sleepers

In the period April-June 2022 outreach teams recorded 1446 people in London sleeping rough for the first time. Of these:

- 1074 (74%) spent just one night sleeping rough
- 326 (23%) slept rough for more than one night but did not go on to live on the streets
- 46 (3%) were deemed to be living on the streets.

The number of new rough sleepers recorded during this period was 23% higher than the same period last year.

By comparison, of the 1177 rough sleepers recorded as new to the streets in April-June 2021 875 (74%) were seen sleeping rough just once. A similar proportion (24%) went on to spend more than one night without meeting the criteria for living on the streets, and 2% went on to live on the streets.

Living on the streets

During April-June 2022 there were 411 people recorded who were deemed to be living on the streets. This total includes:

- 46 people who were new to rough sleeping in London and remained on the streets during the period
- 29 people from the RS205+ cohort who were seen bedded down at least once.

The number of rough sleepers deemed to be living on the streets is 4% higher than the same period last year, and 13% higher than the immediately preceding period (January-March 2022).

Intermittent rough sleepers

The number of people who were seen rough sleeping during April-June 2022 who were not new, and did not have enough contacts to be deemed as living on the streets, was 1187. This is 14% higher than the same period last year, and 10% higher than the immediately preceding period.

Of these:

- 523 people (44%) were seen on just a single occasion
- 297 people (25%) were seen just twice and
- only 8 (1%) had six or more contacts.

Total number of people seen rough sleeping

In total during the period April-June 2022 outreach teams recorded 2998 individuals sleeping rough in the capital. This is a 16% increase on the total figure for April-June 2021.

Of that total:

- new rough sleepers account for 48% of all rough sleepers
- intermittent rough sleepers account for 40% of all those recorded in the period, and
- 14% of those recorded during the period were living on the streets.

2. ROUGH SLEEPER POPULATION ANALYSIS

All London Boroughs: Headlines

NEW ROUGH SLEEPERS

	No. this period	% change from last period	% change on same period last year
Total	1446	+12%	+23%
New RS with no second night out	1074	+8%	+23%
New RS with a second night out but not living on the streets	326	+19%	+17%
New RS joining living on the streets population*	46	+70%	+92%

	This period	Last period	Same period last year
Proportion of new rough sleepers prevented from spending a second night out	74%	77%	74%

LIVING ON THE STREETS (LOS)

	No. this period	% change from last period	% change on same period last year
Total	411	+13%	+4%
LOS - Transferred from new RS*	46	+70%	+92%
LOS - Known	336	+9%	-2%
LOS - RS205+	29	+7%	+7%

INTERMITTENT ROUGH SLEEPERS

	No. this period	% change from last period	% change on same period last year
Total	1187	+10%	+14%

	This period	Last period	Same period last year
Proportion of intermittent rough sleepers seen only once during period	44%	50%	47%

OVERALL TOTAL ROUGH SLEEPERS

	No. this period	% change from last period	% change on same period last year
Total	2998	+10%	+16%

*This cohort is listed under both new rough sleepers and living on the streets headings, but is only counted once towards the overall total

All London Boroughs: Achieving No Second Night Out

Category	No. this period
New RS with no second night out	1074
New RS with a second night out but not living on the streets	326
New RS joining living on the streets population	46
Total	1446

Note: New RS = New rough sleepers

Since October 2018 there has been a significant increase in the numbers of new rough sleepers recorded, by comparison to equivalent quarters in the previous year. This is partly due to an increase in recording of 'unidentified' rough sleepers, particularly correlated with the newly introduced bimonthly street counts which London boroughs have been required to carry out as part of the government's Rough Sleeping Initiative. Where an individual cannot be identified, usually due to reluctance to engage with recording workers, it is possible that a duplicate client record may be created for them every time they are seen, and hence they are counted multiple times in the new rough sleeper figures.

All London Boroughs: No One Living on the Streets

Category	No. this period
LOS - Transferred from new RS	46
LOS - Known	336
LOS - RS205+	29
Total	411

All London Boroughs: Intermittent Rough Sleepers

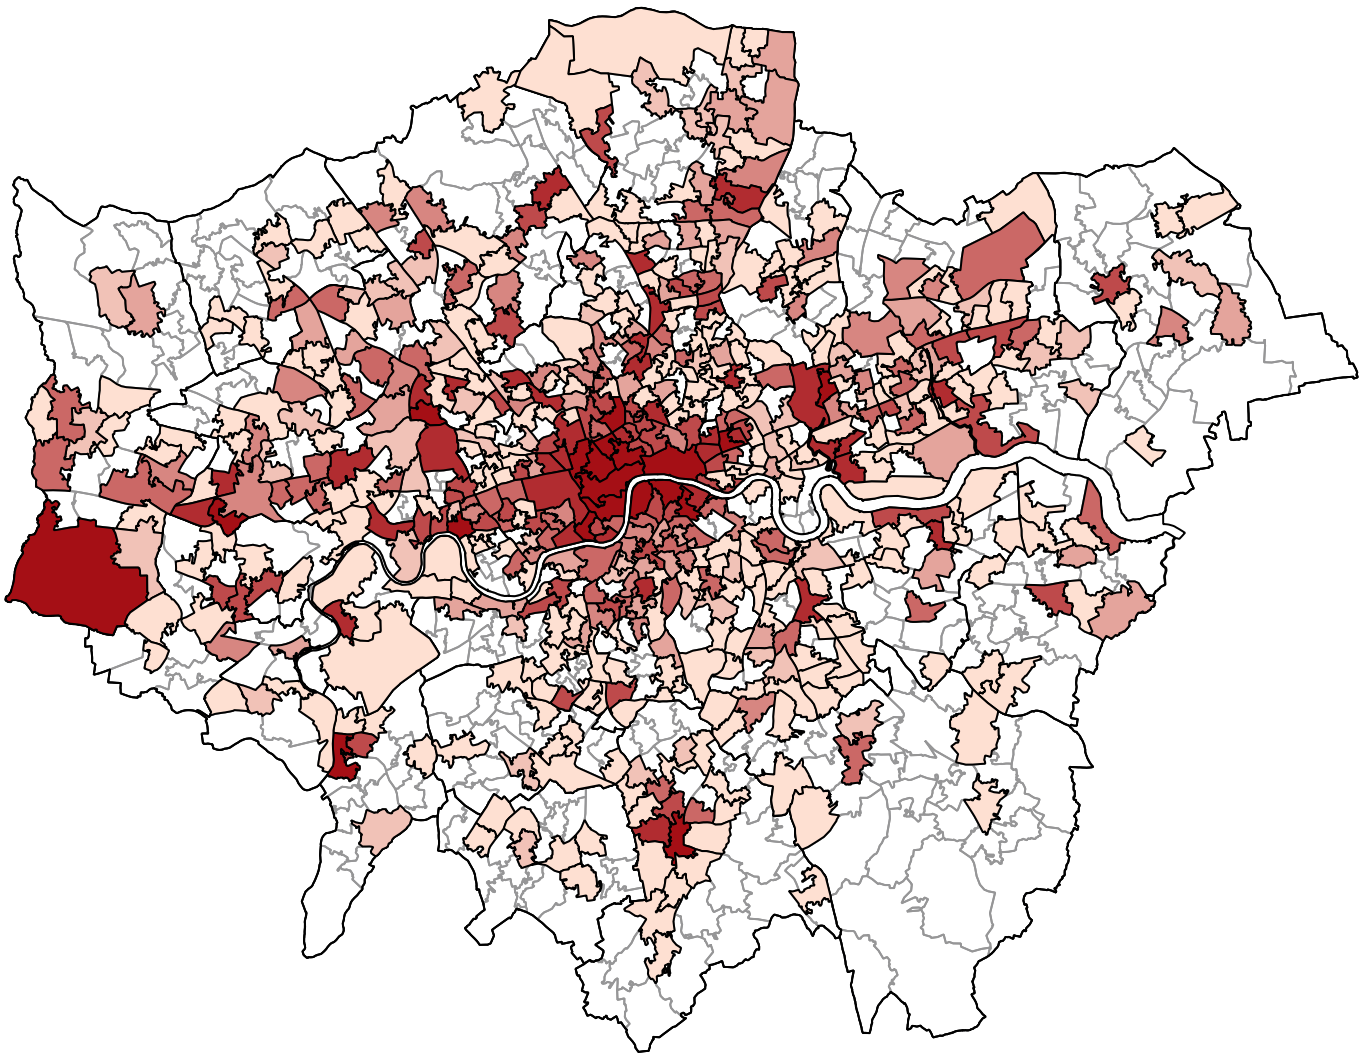

No. bedded down street contacts during this period	No. intermittent rough sleepers
1 street contact	523
2 street contacts	297
3 street contacts	210
4 street contacts	138
5 street contacts	11
6 or more street contacts	8
Total	1187

3. SPATIAL DISTRIBUTION

Bedded down street contacts by area: Greater London level

The map below shows the number of bedded down street contacts recorded in each Middle Super Output Area across Greater London during the period. It is important to note that this represents volume of contacts rather than individuals, and some people may have been seen on multiple occasions within a given area.

**No. Bedded Down Contacts**

1	6-10
2	11-20
3	21-50
4-5	51+

4. NATIONALITY

Nationality: Rolling figures

Nationality of people seen rough sleeping by outreach services.

	Oct-Dec 21		Jan-Mar 22		Apr-Jun 22	
Nationality	No.	%	No.	%	No.	%
UK	1362	50.8%	1273	51.4%	1354	50.2%

Pakistan	7	0.3%	14	0.6%	14	0.5%
Sri Lanka	8	0.3%	7	0.3%	12	0.4%
Other Asian countries	54	2.0%	43	1.7%	52	1.9%
Asia	160	6.0%	183	7.4%	197	7.3%
Americas	48	1.8%	39	1.6%	38	1.4%
Australasia	0	0.0%	2	0.1%	3	0.1%
Not known	270		239		300	
Total (excl. not known)	2679	100.0%	2475	100.0%	2698	100.0%
Total (incl. not known)	2949		2714		2998	

Note: Percentages are calculated from total excluding clients whose nationality was not known or not recorded.

In individual borough reports some nationalities included in the table above may have '0' clients recorded against them – these nationalities are included in this standardised table as they represent a significant number of clients across London as a whole.

As of 2022/23 Q1, we have adjusted categories used for nationality reporting, so that the ten countries previously categorised as CEE are now included in the broader category of Europe (EEA).

Nationality: Breakdown by area

Nationality of people seen rough sleeping by outreach services, grouped by area.

Base: 2698. Note that the base figure for this chart excludes clients whose nationality is not known or recorded.

5. DEMOGRAPHICS

Gender

Gender of people seen rough sleeping by outreach services.

Base: 2942 people seen rough sleeping whose gender was known. This excludes 56 people whose gender was not known.

Age

Age of people seen rough sleeping by outreach services.

Base: 2998

Ethnicity

Ethnicity of people seen rough sleeping by outreach services.

Base: 2998

The previously employed category of 'Gypsy/Romany/Irish Traveller' was replaced with separate categories for 'White - Gypsy/Irish Traveller' and 'White - Roma' in April 2021. However, many people seen rough sleeping during the period may not have had their ethnicity information updated to reflect these new categories, so the original category is also included in the graph.

6. SUPPORT NEEDS

Support needs of people seen rough sleeping by outreach services.

Base: 2187. Note that the base figure for this chart excludes people for whom all three support needs are not known or not assessed (811)

Support Needs	No. people	% of people seen rough sleeping
Alcohol only	193	9%
Drugs only	152	7%
Mental health only	409	19%
Alcohol and drugs	79	4%
Alcohol and mental health	179	8%
Drugs and mental health	302	14%
Alcohol, drugs and mental health	220	10%
All three no	593	27%
All three no, not known or not assessed	60	3%
All three not known or not assessed	811	
Total (excl. not assessed)	2187	100%
Total (incl. not assessed)	2998	

Note: Total excluding not known or assessed is used as base for percentages.

7. INSTITUTIONAL & ARMED FORCES HISTORY

People seen rough sleeping by outreach services, by experience of armed forces, care or prison.

Base: 2161. Note that the base figure for this chart excludes people for whom all three institutional histories are not known or not recorded.

Nationality of rough sleepers with experience of armed forces:

Nationality	No. people	% of people seen rough sleeping
UK	38	2%
Non-UK	75	3%
Not known/recorded	0	0%
Total	113	5%

8. ACCOMMODATION & RECONNECTION OUTCOMES

Reconnections and bookings into accommodation achieved for verified rough sleepers by borough based services, Rapid Response and London Street Rescue during the period.

Accommodation and reconnection outcomes by number of people:

	Jan-Mar 22	Apr-Jun 22
Outcome	No. people	No. people
Booked into accommodation or reconnected	1684	1315
Booked into accommodation	1643	1253
Booked into hub, shelter or emergency accommodation	680	291
Booked into temporary accommodation	1001	853
Booked into long term accommodation	250	236
Reconnected	92	126

Note: Some people may have been booked into more than one type of accommodation during the period.

Reconnection outcomes by number of events:

	Jan-Mar 22		Apr-Jun 22	
Reconnection reason	No. events	%	No. events	%
Return to home area	70	74%	96	74%
Seeking work	3	3%	3	2%
Move to area for friends/family	17	18%	22	17%
Move to area with appropriate services	32	34%	43	33%
Reconnections total	94		129	

Note: An individual may have had more than one reconnection during the period. Reconnections can be recorded with multiple reasons, so the overall total will be lower than the combined sum of the separate reconnection reasons. Percentages are based on the total number of reconnections.

	Jan-Mar 22		Apr-Jun 22	
Reconnection destination	No. events	%	No. events	%
UK - London	47	50%	82	64%
UK - outside London	9	10%	19	15%
Central and Eastern Europe	25	27%	22	17%
Other Europe	6	6%	3	2%
Rest of the world	7	7%	3	2%
<i>Not known</i>	0		0	
Reconnections total (excl. destination not known)	94	100%	129	100%

Note: An individual may have had more than one reconnection during the period.

Accommodation outcomes by number of events:

Total	2317	100%	1627	100%

Note: An individual may have been booked into accommodation more than once during the period.

9. NO SECOND NIGHT OUT & ROUTES HOME

Outcomes achieved by non-outreach services covering the whole of London.

No Second Night Out

People accessing NSNO turnaround hubs:

Service	No. people
Turnaround hubs	413

Accommodation and reconnection outcomes by number of people:

Outcome	No. people
Booked into accommodation or reconnected	194
Booked into accommodation	193
Reconnected (direct)	33
Reconnected (via Routes Home)	4

Note: These figures are for all clients who departed NSNO during the period, and are not a subset of the total clients accessing NSNO during the period. Clients may have received both a reconnection and an accommodation outcome.

Routes Home

Accommodation and reconnection outcomes by number of people:

Outcome	No. people
Booked into accommodation or reconnected	7
Booked into accommodation	0
Reconnected (direct)*	7
Reconnected (supported)**	0

*Reconnections achieved by Routes Home directly with NSNO clients are counted in the NSNO outcomes table rather than the Routes Home table.

**Reconnections recorded directly by other services but achieved with support from Routes Home. These will also have been counted elsewhere in this report amongst the reconnections outcomes for other services.

Assistance and advice provided to agencies working with those at risk of rough sleeping:

Outcome	No. referrals
Reconnection confirmed	2
Reconnection not confirmed	14

10. TEMPORARY ACCOMMODATION

Hostels, assessment centres and second-stage accommodation.

Arrivals

A total of 115 individuals arrived at temporary accommodation during the period.

Departures: Destination on Departure

A total of 125 individuals departed from temporary accommodation during the period.

Base: 134

Destination on departure	Destination category	Chart colour
Assessment Centre, Bed & Breakfast, Covid-19 emergency hotel, Detox clinic, Hospital - not long term/acute care, Hostel - another organisation, Hostel - within the organisation, Internal SWEP transfer, Internal transfer, NASS accommodation, Night shelter, NSNO assessment hub, NSNO staging post, Psychiatric hospital, Rehab clinic, Temporary accommodation (LA)	Transfer	
Accommodation where client is owner, Care home, Clearing House/RSI, Hospital - long term, LA tenancy (general needs), Long stay hospice, Private rented sector - independent, Private rented sector - with some floating support, Returned to home country (EEA), Returned to home country (non EEA), RSL tenancy (general needs), Sheltered Housing, Supported Housing, Tied accommodation with work	Mid to long term accommodation	
Died by suicide, Not known, Sleeping rough/Returned to streets, Taken into custody	Negative	
Died, Previous home, Staying with family, Staying with friends	Other	

Note: An individual may have had more than one accommodation departure during the period.

Died	2	1%
Previous home	0	0%
Staying with family	2	1%
Staying with friends	0	0%
<i>Other subtotal</i>	<i>4</i>	<i>3%</i>
Total	134	100%

Note: An individual may have had more than one accommodation departure during the period.

Departures: Reason for Leaving

Temporary accommodation departures by reason for leaving.

Base: 134

Note: An individual may have had more than one accommodation departure during the period.

11. METHODOLOGY

From January 2014 onwards, CHAIN rough sleeping figures returned to being reported on a quarterly basis, following a two year period of reporting on a bi-monthly cycle.

Alongside the change in reporting period, we have also made some other adjustments to our reporting methodology. People who have been seen rough sleeping in more than one borough during the period will now be counted towards the figures for each relevant borough, rather than being assigned to one borough only, as was previously the case with bi-monthly reports. This means that the overall unique rough sleepers total for London will not be the same as the sum of all separate borough figures.

The new quarterly reports continue to employ the methodology of assigning rough sleepers to categories based on the following factors:

- Whether they were new rough sleepers during the period
- How many times they were seen rough sleeping during the period
- Number of days elapsed between first and last time they were seen rough sleeping during the period

We continue to apply the same thresholds for the above factors to the quarterly reporting period that we previously used for bi-monthly reporting. A further explanation of the individual categories follows.

New rough sleepers

New rough sleepers, who were seen for the first time during the period. The total number of new rough sleepers is broken down into those who were seen just once and did not have a second night out, those who were seen on several occasions, but as yet have not been on the streets long enough to count as 'living on the streets', and those new to the streets who remained there long enough to fulfil the criteria for 'living on the streets' (outlined below).

Living on the streets (LOS)

With the designation 'living on the streets' we refer to rough sleepers who have stayed on the streets after arriving, and are entrenched or at risk of becoming so. In determining who is counted as living on the streets we have used a combination of time on the streets (three or more weeks between the earliest and latest bedded down contact) and number of bedded down contacts (five or more contacts) during the period we are reporting on. If a person is seen bedded down six times, but only during one week, he or she does not count. If a person has four bedded down contacts, but spread over two months, he or she would also not count. To be counted a rough sleeper must have both elements.

The reporting period covers three months. However, to ensure that we do not miss those whose rough sleeping crosses over reporting periods we look back for the three weeks immediately before the start of the three month reporting period. For a rough sleeper in these circumstances, if they are not seen again, he or she will not be reported living on the streets in the next period.

The LOS total will include some who were new to the streets in the period, but whose stay

extended beyond three weeks and who were seen bedded down at least five times - these are transferred from the new rough sleeper figures (shown in red in both section one and two of the report).

It is important to note that a rough sleeper who is included in the LOS total will not necessarily have been living on the streets for the entirety of the quarter in question, but they were living on the streets for a significant period during the quarter. The LOS total will also include some who are no longer on the streets, having gone into accommodation (or disappeared). They will not appear in the subsequent LOS total. Rough sleepers will only count as LOS during the period where they meet the above definition.

RS205+ refers to people who have been identified as especially hard to help because of their prolific history of rough sleeping. This group appear in the LOS chart if they have any number of bedded down contacts within the two months being reported on.

Intermittent rough sleepers

Intermittent rough sleepers are those who are not new in this period, and have not been seen rough sleeping enough to be deemed living on the streets. This group includes those who sleep rough periodically for very short periods (including some street drinkers and beggars). It also will include those who return to the streets for a longer period (but in this period less than the 'living on the streets' definition). Those that go on to be living on the streets will appear in that category in the next period.
