1. INTRODUCTION

This report presents information about people seen rough sleeping by outreach teams in Islington between April 2016 and March 2017. Information in the report is derived from the Combined Homelessness and Information Network (CHAIN), a multi-agency database recording information about rough sleepers and the wider street population in London. CHAIN, which is commissioned and funded by the Greater London Authority (GLA) and managed by St Mungo's, represents the UK's most detailed and comprehensive source of information about rough sleeping.

Percentage figures in this report

Please note that, in some cases, percentage figures given in this report are rounded up or down to the nearest whole number. This may mean that individual figures in tables and charts do not add up to a combined total of 100%, or that there could be small discrepancies between percentage figures in tables and corresponding pie charts.

Glossary of acronyms used in this report

ASB: Anti-Social Behaviour

Defined in the Crime and Disorder Act (1998) as acting 'in a manner that caused or was likely to cause harassment, alarm or distress to one or more persons not of the same household as the perpetrator.'

CEE: Central and Eastern European

Used to denote the ten A8 and A2 European Union accession countries (Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia).

CHAIN: Combined Homelessness and Information Network

A multi-agency database recording information about rough sleepers and the wider street population in London, commissioned and funded by the GLA and managed by St Mungo's.

EEA: European Economic Area

The 28 countries of the European Union (EU), plus a further three countries that are part of the EU's single market (Iceland, Liechtenstein and Norway). Common usage generally also includes Switzerland, whose citizens have the same rights to live and work in the UK as other EEA nationals.

GLA: Greater London Authority

The top-tier administrative body for Greater London, consisting of a directly elected executive Mayor of London, and an elected 25-member London Assembly.

NSNO: No Second Night Out

A GLA commissioned assessment and reconnection project for rough sleepers. The service originally specifically targeted new rough sleepers, but from October 2014 onwards it has also worked with rough sleepers who are living on the streets. The term is also used in other contexts to refer to a wider strategy to end rough sleeping, both in London and nationwide.

2. ROUGH SLEEPER POPULATION ANALYSIS

2.1 Number of people seen rough sleeping: Flow, stock, returner model

People seen rough sleeping in the year, by the flow, stock and returner model.

2013/14 base: 163

2014/15 base: 135

2015/16 base: 158

2016/17 base: 178

The flow, stock and returner model categorises people seen rough sleeping in the year according to whether they have also been seen rough sleeping in previous periods:

Category	Description
Flow	People who had never been seen rough sleeping prior to 2016/17 (i.e. new rough sleepers).
Stock	People who were also seen rough sleeping in 2015/16 (i.e. those seen across a minimum of two consecutive years).
Returner	People who were first seen rough sleeping prior to 2015/16, but were not seen during 2015/16 (i.e. those who have had a gap in their rough sleeping histories).

178 people were seen rough sleeping in the borough in 2016/17. This represents a 13% increase when compared to 2015/16.

48% of people seen rough sleeping in the borough during the year were new rough sleepers (flow), while 34% fell into the stock category, and 18% were returners.

2.2 Number of times seen rough sleeping

People seen rough sleeping in the year, by number of times seen rough sleeping.

Base: 178

72 (40%) people were seen rough sleeping only once in 2016/17, this compares to 62 (39%) seen rough sleeping only once in 2015/16.

56% of people seen rough sleeping in the borough during 2016/17 who were new to the streets did not spend a second night on the streets during the year.

2.3 Rough sleeping volume: Flow, stock, returner model

People seen rough sleeping in the year, by flow, stock, returner model, and number of times seen rough sleeping.

Base (Flow): 85
 Base (Stock): 61
 Base (Returner): 32

2.4 New rough sleepers (flow): History prior to rough sleeping

People seen rough sleeping for the first time ever in 2016/17, by history prior to first being seen rough sleeping.

Base: 162. Note that the base figure for this chart excludes people for whom none of the three support needs were known or assessed (16).
