Rt Hon Jeremy Corbyn MP
Member of Parliament for Islington North

Mayor of London

Our Ref: JC29360 12 October 2026

Dear Jules Pipe CBE,

Re: Archway Campus Development

Thank you for the update regarding the Archway Campus Development.

I am glad to hear that GLA Officers have been engaging with the applicant, and providing updates to Islington Council. Open communication is very important in cases such as these. I appreciate that the local authority is being kept aware throughout the process of considering and amending the the planning application.

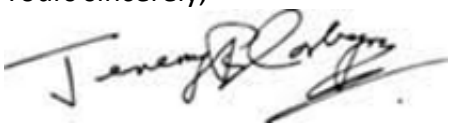

I would like to ask that my office also be provided with regular updates as to where the application stands, and the changes being made. As the local MP, I am keenly interested in the progression of this application, and broadly any new housing developments that are proposed to be in Islington North. Additionally, many constituents have contacted my office to voice their concerns about the development and urged me to submit my representations.

As I am sure your office is aware, my central concerns are preserving the local heritage of the site, the lack of family sized homes, and the number social housing homes that will be available. I have submitted my objection via the consultation form that was available online .I would urge both the GLA and SevenCapital to give due consideration to feedback received from residents through the consultation process and through community group engagement.

I understand there is no confirmed date for a public hearing that will be heard at London City Hall. I would be grateful if I was informed when there is a date set, and I would like to formally register my interest in speaking at this hearing.

I look forward to maintaining effective communication and coordination between our offices as the planning application progresses.

Yours sincerely,

Jeremy Corbyn MP
