Introduction

With the aim of making the democratic process as transparent as possible to the London electorate, this report includes a great deal of detail on every aspect of the 2018 London Borough council elections. No other single volume presents the full results and election statistics from the 32 London boroughs enabling the reader to analyse and compare the results across London in one place.

The report presents data for every candidate in every ward (excluding the City of London which operates on a different electoral model). Summaries are provided in the form of maps and tables, and to make comparisons easier, they mostly match those included in the 2018 report. A commentary of the results, written by Professor Tony Travers of the London School of Economics, has been included to give readers an overview of the trends seen in these elections.

Further information about what is included and how to use the report can be found in the Technical Notes section on page xliii.

This is the latest report in a long series of council election reports dating back to 1964, all of which are currently available on the London Datastore at:
<http://data.london.gov.uk/elections>

Commentary

by Professor Tony Travers
London School of Economics & Political Science

The 2022 London borough elections were held just a year after the 2021 mayoral and assembly elections which had been postponed by the Covid-19 pandemic. The spring of 2022 was politically turbulent, locally, nationally and internationally. The Metropolitan Police commissioner resigned in early February. Russia invaded Ukraine later that month triggering a sharp rise in energy prices and inflation. A series of scandals affected the government and Parliament. These events occurred in the run-up to the Queen's Platinum Jubilee celebrations which took place in June. As it happened, spring 2022 turned out to be relatively calm compared with the political upheavals which were to affect the UK during the late summer and early autumn of that year.

The Liberal Democrats increased their vote share compared to 2018, while Labour's fell somewhat. The Conservatives recorded their second lowest vote share since the boroughs were first elected in 1964. Labour saw their vote share drop from 44.1 to 42.2 per cent and the Conservatives from 29.0 to 26.2 per cent. The Liberal Democrats' vote share increased from 12.7 to 14.1 per cent. However, the number of seats won by each party across the 32 boroughs (in 1,817 seats) does not precisely reflect these shares of the vote. Despite losing vote share, Labour won a net 33 additional seats, up from 1123 to 1156. Meanwhile the Conservatives, who saw their share fall 2.8 per cent, lost a net 107, down from 511 to 404. The Liberal Democrats gained a net 26 seats, up from 154 to 180. Other parties' vote share increased from 14.2 per cent to 17.5 per cent, increasing the number of seats won from 45 to 77.

Labour's total of 1156 councillors was their second highest ever. The highest was 1221, in 1971. The Conservative Party's 404 was below their previous lowest total, 511 in 2018. When making comparisons over time, it is important to note there are slightly fewer seats now than in the period from 1964 to 2018 due to periodic boundary reviews. The Liberal Democrats' total of 180 seats was up on the number won in 2018, but still significantly below the numbers won in borough elections between 1986 and 2010.

The average number of electors per councillor in the 2022 borough elections was 3325. This compares to 2672 in 1986, when London's population was over two million lower than in 2022. The increase in the overall population per councillor is far sharper: from 3448 in 1986 to 4953 in 2022. Councillors face greater demands than in the past.

The 2019 general election, which took place between the 2018 and 2022 rounds of borough elections, saw the combined Labour-plus-Conservative vote in London fall by 7.5

per cent, albeit from a relative high point of 87.6 per cent in the post-referendum 2017 electionⁱ. Similarly, the borough elections saw the 'Lab-plus-Con' vote fall from 73.1 per cent in 2018 to 68.4 per cent in 2022. Over time, there is a read-across between the strength of each party in a particular borough's local elections and its capacity to prosper in future general elections.

The Green Party did better in 2022 than 2018. Overall, their vote share increased from 8.7 per cent to 11.8 per cent, winning seats in a number of boroughs where there was previously little opposition. In 2022, the Green Party won over 20 per cent of the vote in four councils. 'Others', which is an aggregation of the Greens and an array of smaller and single borough/issue parties, have seen their vote share grow significantly since 2002, with a peak year in 2014 when UKIP won over 20 per cent of the vote in four boroughs. Residents and Independents, as in the past, performed particularly strongly in Havering.

Unusually, the City of London's (separate) cycle of elections, which had been postponed from 2020, took place in the same year as the boroughs, 2022, though in March not May. Candidates for the Common Council have, traditionally, overwhelmingly stood as Independents, though in recent years some party political and ward-based independent parties have emerged. Independents won 78 of the seats in 2022, down 7, while Temple & Farringdon Together won 10 (no change), Labour won 5 (no change) and the new Castle Baynard Independents won 7 (up 7). Details of the City's election results can be found at <https://www.cityoflondon.gov.uk/about-us/voting-elections/elections-results>.

As in previous years, Labour's largest concentration of votes was in east and north east London, notably in Barking & Dagenham (68.4 per cent), followed by 56.8 per cent in Newham, 54.5 per cent in Redbridge and 54.3 per cent in Islington. Indeed, Labour received over half the overall votes cast in 13 boroughs. The Conservatives, by contrast, did not win half the votes in any borough, with Bexley (47.0 per cent) being highest. The next highest were Hillingdon (46.9 per cent), Kensington & Chelsea (44.3 per cent) and Harrow (42.9 per cent). The Liberal Democrats' highest vote share was in Richmond (51.6 per cent), followed by Kingston (44.7 per cent) and Sutton (36.8 per cent).

The Greens Party won over 10 per cent of the vote in 20 boroughs, significantly more than in 2018 when they did so in 10. The party exceeded 20 per cent of the vote in four boroughs in 2022, achieving 22.2 per cent in Lewisham, 21.8 per cent in Lambeth 21.8 per cent in Islington and 21.1 per cent in Hackney. Havering, as is often the case, saw the largest 'Residents Association' vote at 41.7 per cent.

As in all 'first past the post' elections, the voting system tends to give disproportionately large seat shares to parties with the largest vote shares. The number of votes, on average, required to win a seat varies significantly. The table below shows the seats won and votes cast for each of the parties or groupings which won seats in the 2022 London elections.

Labour needed the smallest number of votes to win a seat, with Chislehurst Matters producing the second most efficient votes-per-seat outcome. Of the parties that won seats in 2022, the Green Party enjoyed by far the least proportionate result, with over 25,000 votes cast for each seat won. However, this result was far more efficient than in 2018 when it required nearly 34,000 votes per seat: the Green vote in London appears to be becoming more concentrated. Single-borough parties and groupings, where they are successful, tend to enjoy a relatively efficient ratio between votes cast and seats won.

	Seats won	Votes	Votes per seat won
Labour	1,156	2,535,073	2,193
Conservative	404	1,538,079	3,807
Liberal Democrats	180	772,020	4,289
Residents' Association	26	89,681	3,449
Aspire	24	69,141	2,881
Green Party	18	456,879	25,382
Independents	6	45,193	7,532
Chislehurst Matters	3	7,906	2,635
All other parties	0	32,762	-
Total*	1,817	5,546,734	3,053

Five (arguably six) of the 32 boroughs changed political control. Labour won Barnet, Wandsworth and Westminster from the Conservatives. Havering remained 'no overall control', but moved from Conservative/Residents Association to Residents Association/Labour control. The Conservatives won control of Harrow from Labour and won the mayoral election (from Labour) in Croydon, though in the latter authority the Conservatives won 33 seats and Labour 34 with other parties winning three, meaning the council was technically 'no overall control'. Aspire gained Tower Hamlets from Labour and also won the mayoral contest. Other councils remained with the same political control as in 2018. By contrast, in 2018 only three councils changed control.

The biggest swings of votes from the Conservatives to Labour took place in Barnet (7.4 per cent), Bromley (5.9 per cent) and Westminster (4.8 per cent). Significant swings from Labour to the Conservatives occurred in Croydon (4.4 per cent) and Harrow (3.9 per cent). The Liberal Democrats enjoyed a 7.9 per cent swing from the Conservatives in Richmond, while the Green Party achieved a 10.2 per cent swing from Labour in Newham. Vote swings between the top two parties in each borough are shown in Table 2 below.

Table 2: Vote swing between top parties, 2018 to 2022

Borough	Top two parties' swing*	Swing
Barking & Dagenham	Lab to Con	5.9%
Barnet	Con to Lab	7.0%
Bexley	Con to Lab	5.2%
Brent	Lab to Con	3.0%
Bromley	Con to Lab	6.0%
Camden	Con to Lab	3.2%
Croydon	Lab to Con	5.1%
Ealing	Lab to Con	1.7%
Enfield	Lab to Con	5.3%
Greenwich	Con to Lab	1.3%
Hackney	Lab to Green	7.0%
Hammersmith & Fulham	Con to Lab	3.6%
Haringey	Lab to Lib Dems	1.1%
Harrow	Lab to Con	3.3%
Havering	Con to REA	7.6%
Hillingdon	Con to Lab	3.9%
Hounslow	Lab to Con	2.2%
Islington	Lab to Green	5.4%
Kensington & Chelsea	Con to Lab	1.9%
Kingston-upon-Thames	No swing (Lib Dems/Con)	0%
Lambeth	Lab to Green	1.5%
Lewisham	Lab to Green	2.0%
Merton	Lab to Con	0.2%
Newham	Lab to Green	10.2%
Redbridge	Con to Lab	1.0%
Richmond-upon-Thames	Con to Lib Dem	8.2%
Southwark	Lib Dems to Lab	0.8%
Sutton	Con to Lib Dems	0.3%
Tower Hamlets	Lab to Aspire	n/a
Waltham Forest	Con to Lab	0.3%
Wandsworth	Con to Lab	3.3%
Westminster	Con to Lab	4.7%
London	Con to Lab	0.45%

NB: The 'two top parties swing' shows the swing of votes between the two largest parties (in terms of vote share) on the council. In most cases this measure is a helpful way of seeing the shift in support between the top two parties, even if one has a large majority. However, where there is a new party (eg, Tower Hamlets in 2022) or where two parties vie for second and third place the measure makes less sense. Also, where (eg, Merton in 2022) the third party makes a major advance, the 'two top parties swing' is arguably of less interest than the third party's gain in vote share.

As in the 2018 borough elections, there was a further move towards a situation where in a significant number of councils there is little or no opposition. In 2022, Labour won all the seats in Barking & Dagenham and Lewisham and all but two in Newham. In Brent, Ealing, Greenwich, Hackney, Hounslow, Islington, Lambeth, Redbridge and Southwark, Labour won over 80 per cent of the councillors. In Richmond and Kingston the Liberal Democrats won around 90 per cent of the seats. The Conservatives remain strong in Bexley, Bromley

and Kensington & Chelsea, but are not competitive in many boroughs where they once were.

Boroughs which remain more marginal between parties (and thus, ostensibly, more politically plural) include Barnet, Croydon, Enfield, Harrow, Hillingdon, Merton, Sutton, Wandsworth and Westminster. Havering, as in most years, saw the Conservatives, Labour and residents' associations winning seats. The number of politically marginal boroughs appears to be reducing over time, though a change of national government would doubtless change this situation to some extent. It is notable that in the 2019 General Election (which Labour lost nationally by a wide margin) six of the top 20 majorities in the country were for Labour in London¹.

Turnout in 2022 was 35.5 per cent, down 3.3 percentage points compared to 2018. The highest turnout in 2022, 47.7 per cent, was in Richmond, followed by Kingston (45.5 per cent), Tower Hamlets (41.8 per cent), Wandsworth (41.2 per cent), Merton (40.3 per cent), Ealing (40.3 per cent) and Sutton (40 per cent). Richmond, although slightly below the 2018 figure, always has a high turnout. The lowest turnout, 24.5 per cent, was in Barking & Dagenham, with neighbouring Newham at 28.8 per cent and Brent at 30.7 per cent. In Kensington & Chelsea, where the Grenfell Tower fire had occurred in June 2017, turnout rose sharply from 30.3 per cent in 2014 to 39.7 per cent in 2018, though in 2022 it fell back to 32.7 per cent. The vote took place, as is traditional, on a Thursday. As on earlier occasions, some counts took place overnight, with results declared from about 2:00am on Friday morning. Others began counting and declared later on Friday. Croydon declared their final results on Saturday and Sunday.

A key factor to consider in relation to turnout at the 2022 borough elections is that they took place after two years of Covid lockdowns and the associated dislocation associated with Covid-19. During 2020 and 2021, there was evidence that a significant but unknown number of London residents had left the city to spend the pandemic (or at least the early months of it) in other parts of the country or, indeed, overseas. The precise electoral impact of any temporary or permanent move of voters (and a subsequent partial return by the spring of 2022) will never be known, though it seems likely that affluent Londoners, residents with dual citizenships and students are most likely to have been away for parts of the pandemic, potentially affecting the vote differentially from borough to borough.

Possible support for the notion that more affluent residents were disproportionately likely to have left the city can be found in the significant fall in turnout between 2018 and 2022 in Westminster (down from 38.1 per cent to 31.9 per cent, Kensington & Chelsea (39.7 per cent to 32.7 per cent) and Hammersmith & Fulham (39.4 per cent to 33.3 per cent), all well above average decline in turnout. However, turnout in centrally located Camden only fell from 37.3 per cent to 35.5 per cent, while there were substantial falls in turnout in some outer boroughs, notably Newham, Barking & Dagenham and Redbridge. Southwark

¹ General Election 2019: results and analysis, Briefing Paper Number CBP 8749, House of Commons Library, page 73, <https://researchbriefings.files.parliament.uk/documents/CBP-8749/CBP-8749.pdf>

uniquely saw an increased turnout (from 33.6 per cent to 34.0 per cent), though there was no change in Tower Hamlets (41.8 per cent in both years).

London's population has risen continuously since the late-1980s, though appears to have declined slightly between 2020 and 2022, presumably because of the pandemic. The 2021 Census suggested a slightly lower population (8.8 million) than Office for National Statistics annual estimates had implied (9.0 million), though the demographic impact of Covid-19 is still (and may always remain) uncertain. The number of people voting across the city in 2022 was 2,146,159 down from 2,315,166 in 2018 and the lowest total since 2006. Postal voting rose from 592,702 in 2018 to 700,846 in 2022, by far the highest-ever total.

There were also five contests for directly-elected executive mayors: in Croydon, Hackney, Lewisham, Newham, and Tower Hamlets. This was the first-ever mayoral contest in Croydon, coming after a period when the council's difficult financial situation had been national news. Croydon elected a Conservative mayor, almost certainly as a response, in part, to the former Labour council's mismanagement. In Tower Hamlets, Aspire (a technically new, local, party led by former mayor, Lutfur Rahman) won the mayoralty from Labour. The other three councils (Hackney, Lewisham and Newham) elected Labour mayors as they had on previous occasions.

The 2022 London borough elections were the 16th such contests since the boroughs were created in the mid-1960s. With the Conservatives' loss of Westminster (which the party had held not only since the first election in 1964 but, as the predecessor 'metropolitan borough', since 1900) only three have now never changed control. The Conservatives have always won Kensington & Chelsea, while Labour have always held Barking & Dagenham and Newham. The Liberal Democrats (initially the Liberal Party) have held Sutton continuously since 1986.

In the first 30 or so years since the first borough elections in 1964, London council elections produced aggregate party vote shares which were relatively close to those for Britain as a whole. Over time, the Conservatives, Labour and the Liberals (recast as the Liberal Democrats in 1989) could expect to do similarly in the capital to elsewhere. But since the late 1990s, Labour has begun to win larger votes shares in London than nationally and, latterly, the Conservatives have done less well in London than across the country. 2022 saw the party win its lowest-ever number of seats and its second-lowest (by a tiny margin) vote share. Table 3 below shows the vote shares in London and across Great Britain in 2022.

Table 3 Party vote shares in London and Great Britain, 2022

	Con	Lab	Lib Dem	Others
National vote %	33	35	17	15
London vote %	26	42	14	18
Difference	-7	+7	-3	+3

The figures for Britain as a whole, known as the ‘national equivalent vote share’, are estimated vote shares which take account of the varying number and pattern of elections in a particular year and adjusts them to be nationally representative. These estimates are produced annually by Professors Colin Rallings and Michael Thrasher and are taken from the House of Commons Library paper *Local Elections 2022*.² Figures are rounded.

The Conservatives’ vote in the London borough elections was, as in 2018, worse than their national performance, while Labour’s was rather better. Neither party’s performance in London compared to the rest of the country changed significantly in 2022 in relation to the position in 2018. It is possible that London stopped diverging further from national voting trends in the 2022 borough elections. The 2021 (delayed from 2020) London Assembly election showed a small Labour to Conservative vote swing, reinforcing the possibility that the longer-term decline in Conservative fortunes in London (and Labour’s apparently inexorable relative vote share increase) may be levelling out. Elections in 2024 and 2026 will make it possible to test this hypothesis further.

² *Local Elections 2022: Results and analysis*, by Richard Tunnicliffe, House of Commons Library, page 27, <https://researchbriefings.files.parliament.uk/documents/CBP-9545/CBP-9545.pdf>

Borough by borough summary

Labour once again won every seat in **Barking & Dagenham** (Lab hold), the fourth time in succession. The Conservatives have not now won a seat in the borough since 2006. Labour's vote share, 68.4 per cent, was lower than in 2018 (when it was 75.1 per cent) but is still one of the higher vote shares for party in the London borough elections (Labour achieved less than 60 per cent of the votes in each election from 2002 to 2014). The large UKIP vote in 2014 appears to have settled back into being a component of the Labour electoral base. The Conservatives, with 27.1 per cent of the vote, received their highest vote share since 1968 and the party remains the only significant bloc of votes other than Labour. The two-party Labour-plus-Conservative vote, at 95.5 per cent, was the second-highest ever in the borough (it was 97.0 per cent in 2018) and the highest in London in 2022.

Barnet (Lab gain from Con) was considered highly marginal in 2022, as it had been in 2018. Barnet has the largest total of Jewish voters in the country and it is widely believed that the change of national Labour Party leadership in 2020 and subsequent efforts to move on from accusations of anti-Semitism were crucial to the party winning the borough in 2022. Labour's vote share increased from 38.6 per cent to 42.8 per cent, while the Conservatives' fell from 45.1 per cent to 35.3 per cent, a swing of 7.0 per cent, the largest Conservative to Labour movement in any borough. Labour's seat total increased from 25 to 41, while the Conservatives' total fell from 38 to 22, giving Labour a large majority on the new council. As in 2018, the Liberal Democrats failed to win a seat. Barnet produced one of three 'totemic' victories for Labour in 2022, though over the longer term the borough remains marginal.

In **Bexley** (Con hold), there was a 5.2 per cent vote swing from the Conservatives to Labour though only a single seat (in Northumberland Heath ward) changed hands. For the second consecutive election, the Conservatives' vote share (47.0 per cent) in 2022 was the highest of any borough. Hillingdon Conservatives had the party's second highest vote share at 46.9 per cent. Labour's strength remains to the north of the borough, with the Conservatives dominant in the centre and to the south, a far larger area. A large UKIP vote in 2014 appears to have shifted back to the major parties, apparently benefiting Labour slightly more than the Conservatives. Nevertheless, Bexley is now one of the two safest Conservative boroughs in London. The Conservative-plus-Labour vote (88.2 per cent) was the second highest in London in 2022.

Brent (Lab hold) saw Labour shedding seats to both the Conservatives and the Liberal Democrats. The Conservatives won two additional seats (in Queensbury) and the Liberal Democrats three (in Alperton and Sudbury). Longer-term changes to the demography of the borough appear to be affecting voting patterns. The rise in the Conservative vote was most significant in Queensbury and Kenton, on the Brent-Harrow border. The

Conservatives also did well in Harrow. Overall, there was a 3.0 per cent vote swing from Labour to the Conservatives. The Liberal Democrats also saw their vote share rise from 11.4 per cent to 12.5 per cent, though this figure is still less than half the party's vote share in 2010 and 2006.

In **Bromley** (Con hold), there was a substantive vote swing (6.0 per cent) from the Conservatives to Labour, with the Conservatives recording their lowest-ever vote share in the borough (39.1 per cent). The previous lowest was 39.6 per cent in 2014. Labour increased their vote share from 24.0 per cent to 29.7 per cent, which was their second-best share ever in Bromley (the highest being 30.2 per cent in 1971). The gap between the vote shares of the Conservatives and Labour in the borough has never been smaller than in 2022, with the Conservative majority dropping from 40 to 14 and as a result Bromley is closer to being a Conservative/Labour marginal than previously. The Liberal Democrat vote rose from 13.7 per cent to 16.9 per cent but was still well below the levels achieved between 1982 and 2010.

Labour's grip on **Camden** (Lab hold) tightened again in 2022, with a net gain of four seats. The party's vote share rose from 48.9 per cent to 52.5 per cent, not far below their highest ever share in the borough (59.5 per cent) in 1971. The Conservatives, with 21.1 per cent of the vote, had their second lowest-ever vote share in Camden (this vote is now mostly concentrated in Hampstead), the previous lowest being the same figure (21.1) per cent in 2018 and 21.0 per cent in 1994. They won only three seats, the party's worst performance in the borough ever. The Liberal Democrat vote share fell from 16.8 per cent to 16.4 per cent, figures well below those achieved in 1982, 2006 and 2010. The Green Party, often a challenger to large Labour vote shares in several of the more affluent boroughs, saw their vote share slip from 15.2 per cent in 2014 to 11.6 per cent in 2018 to 10.2 per cent in 2022.

The politics of **Croydon** (Con win mayor; Lab lose council to NOC) in 2022 were heavily influenced by the financial mismanagement of the borough under the Labour administration in office between 2018 and 2022. In the borough election, there was a 5.1 per cent vote swing from Labour to the Conservatives, the third biggest 'Lab to Con' shift in London in 2022. Following a referendum held in October 2021, the borough voted to move from having a leader to a directly elected mayor. In Croydon's first-ever mayoral election, held on the same day as the borough elections, the Conservatives' candidate, Jason Perry, won, thus becoming the first Conservative directly-elected mayor to lead a London borough. On the council, Labour lost seats while the Conservatives gained, meaning Croydon technically moved from Labour control to No Overall Control. There is a profound 'north/south' split in the borough, with the Conservatives strongest in the south (Coulsdon and Purley) and Labour dominant in the north (Thornton Heath and Norwood).

Ealing (Lab hold) saw Labour win two seats and the Conservatives lose three on vote shares which were little changed from 2018. The Liberal Democrats increased their

councillor numbers rise from four to six on a vote share up from 11.1 per cent in 2018 to 14.1 per cent in 2022. Controversies over development (particularly in relation to permission to build tall buildings) and low traffic neighbourhoods probably explain a small vote swing from Labour to the Conservatives. But the opposition parties' vote share is too split to allow local single-issue campaigners to undermine Labour's dominance in Ealing. The Conservatives and Liberal Democrats won 37 per cent of the vote between them, but this produced only 11 seats. Labour's 51.1 per cent of the vote won them 59 seats. Ealing used to be seen as a bellwether for political parties' changing vote shares and their success or failure at the national level: whether the 2022 result was in any way predictive will be tested at the next general election.

Whilst the borough remained under Labour control, the Conservatives had a good result in **Enfield** (Lab hold), with their vote share increasing from 31.1 per cent to 34.4 per cent. Labour's share dropped from 48.5 per cent to 41.1. Overall, there was a vote swing of 5.3 per cent from Labour to the Conservatives, the second largest in any borough in 2022. Controversies over low traffic neighbourhoods and planning (Green Belt and the physical scale of new developments) damaged Labour, who lost eight seats to the Conservatives. Enfield is one of several boroughs where demographic change has significantly affected voting behaviour since the boroughs were created in 1964/65, but the 2022 result shows it is possible for the Conservatives to channel local single-issue politics to good effect against Labour.

Greenwich (Lab hold) has now been won by Labour at every borough election except 1968 since the boroughs were created in 1964/65. In 2022, there was further consolidation, with Labour winning 10 additional seats and the Conservatives losing six (the overall number of councillors increased because of a boundary review). Labour's vote share, 53.6 per cent, was the highest since 1998. The Conservative vote, though up slightly at 20.8 per cent, has moved up and down within the range 20 per cent to 28 per cent since 1986. That is, even in good years for the party nationally, Greenwich Conservatives have found it impossible to reach 30 per cent of the vote in the past 10 local elections, something they did achieve in all but one year between 1964 and 1982. The party's remaining vote is concentrated in and around Eltham. The Green Party does relatively well in Greenwich, polling 14.5 per cent in 2022, above the 12.2 per cent achieved in 2018. However, the Green vote has been too consistently and thinly spread to win seats.

The Labour vote share fell significantly in **Hackney** (Lab hold), down from 62.1 per cent in 2018 to 53.7 per cent in 2022. The Green Party vote was up from 16.8 per cent in 2018 to 21.1 per cent in 2022. The Greens thus had a larger vote share than the Conservatives in both years (almost twice as many in 2022) but won fewer seats: two in 2022, up from none in 2018. Conservative votes are concentrated in wards to the north of the borough (Springfield and Stamford Hill) and are efficiently cast for the five seats they won in 2018 and 2022. The directly elected mayoral contest was won by Philip Glanville (Labour) who received 59.0 per cent of the vote, that is without the need to count second preference votes, though this total was down from 65.9 per cent in 2018.

Hammersmith & Fulham (Lab hold) was run by the Conservatives as recently as 2010-14, but in 2022 the Conservatives recorded their lowest-ever vote share (26.8 per cent). The previous lowest share was 33.7 per cent in both 2018 and 1986. Labour saw their share increase to 53.8 per cent in 2022 from 53.4 per cent in 2018, though they exceeded 60 per cent in both 1964 and 1971. Labour won five more seats in 2022 and the Conservatives lost one, though there was an overall increase in councillors because of ward and boundary changes. The Liberal Democrats' vote share rose from 11.0 per cent to 14.1 per cent. The Conservatives, having been competitive with Labour from 1978 to 2018, appear to be slipping significantly further behind in the borough. Campaigning by the Conservatives in relation to the Hammersmith Bridge closure appeared not to pay off politically.

The shifting voting patterns in **Haringey** (Lab hold) since 1990-94 are remarkable. As recently as the 1990 election the Conservatives won 32.0 per cent of the vote, yet by 2014 the party had declined to below 10 per cent. The party last won councillors on Haringey in 1998. In 2022, the Conservatives managed just 7.6 per cent of the vote, the lowest of any borough in London. The Liberal Democrats won only 2.5 per cent of the vote in 1978, increasing to around 35 per cent in 2006 and 2010, before falling back to 19.9 per cent in 2014, and then recovering somewhat to 23.8 per cent in 2018 and then falling back slightly to 21.4 per cent in 2022. Labour have benefited from the split within their opposition, so that by 2022 they won 50 out of 57 seats, a proportion only exceeded in 1994 and 1998 when the Conservatives nationally were unpopular, and Labour was approaching the height of its election-winning powers. Labour is strongest in the east of the borough (Tottenham, Seven Sisters, Northumberland Park), while the Liberal Democrats do best in the west, notably Muswell Hill and Highgate, formerly Conservative wards).

Harrow (Con gain from Lab) has become the most politically marginal of all the boroughs. The Conservatives won control in 1974, 1978, 1982, 1986, 1990, 2006 and now in 2022, while Labour won in 1998, 2010, 2014 and 2018. The borough saw 'no overall control' in 1971, 1994 and 2002. In a democratic sense, it is highly competitive with an above-average turnout in 2022. There was a 3.3 per cent vote swing from Labour to the Conservatives as compared to 2018. The Conservatives' vote share (42.9 per cent, up from 42.5 per cent in 2018) was their highest in the borough since 2006. Labour lost vote share, down from 43.9 per cent in 2018 to 37.6 per cent in 2022. The Liberal Democrat share remained at 9.0 per cent, as in 2018. The Conservative vote was sharply up in Harrow Weald, Kenton East, Roxeth and Edgware, generally in the south of the borough. In some of the northern wards, notably Hatch End and Pinner, there was a relative move away from the Conservatives to Labour.

Havering (NOC, no change) saw Residents' Association candidates win 41.7 per cent of the vote, up from 28.6 per cent in 2018. The Conservatives slipped from 33.2 per cent in 2018 to 31.0, with Labour up from 18.4 per cent to 21.3 per cent. The Liberal Democrats, Greens, Independents and UKIP all lost vote share. Nevertheless, changes in the number of seats held were relatively modest: the Conservatives were down two, Labour up four and Residents down one. The Residents Association vote is concentrated in the east and

centre of the borough. Despite their relative success in 2022, Labour was significantly better at winning seats in the period from 1964 to 1998 but have fallen back subsequently. The Conservatives are still competitive, having won control as recently as 2006 and 2010. Following the election, Residents Association groups formed a coalition with Labour to lead the council, moving control away from a former minority Conservative administration.

In **Hillingdon** (Con hold) there was a 3.9 per cent vote swing from the Conservatives to Labour, with the Conservatives seeing their share fall from 52.1 per cent in 2017 to 46.9 per cent in 2022. However, the party's vote remains solid and surprisingly consistent in the longer-term (between 1982 and 2022, the Conservatives' vote has fluctuated in a relatively narrow band between 52.7 per cent and 36.0 per cent). Labour's vote share, at 39.4 per cent, was the highest since 1994, though the Liberal Democrats saw their share rise slightly from 2.3 per cent to 3.5 per cent. But this was their fourth worst-ever performance, only fractionally better than in 1971, 2014 and 2018. Hillingdon is a classic Conservative/Labour marginal - with the Conservatives dominating in the north of the borough and Labour to the south - but one where the Conservatives have the edge in the longer-term. The Labour-plus Conservative vote share in 2022 was 86.3 per cent, the third highest in any borough.

Hounslow (Lab hold) saw a fall in both the Labour (52.7 per cent to 47.4 per cent) and Conservative (28.0 per cent to 27.2 per cent) vote share, with a 2.2 per cent Labour to Conservative swing. The Liberal Democrats won 8.5 per cent of the vote, their second lowest share since 1978. Labour and the Conservatives each gained one seat, from a total increased by boundary changes. Conservative votes are concentrated in Chiswick and Turnham Green, in the far east of the borough, on the Hammersmith & Fulham border. Labour holds a large majority of seats to the west in Hounslow, Feltham and Cranford. The Green vote (14.7 per cent) was almost double that of 2018 (when it was 7.7 per cent). In a good year for them, the Conservatives would remain competitive with Labour.

There has been little opposition to Labour in **Islington** (Lab hold) since 2010-14, and the party remained firmly in control in 2022, winning 48 out of 51 seats. However, the Green Party saw their vote rise from 16.1 per cent to 21.8 per cent, meaning their vote share is now virtually double that of the Liberal Democrats (11.7 per cent) and Conservatives (11.1 per cent) combined. The Greens also increased their seats from one to three, all in Highbury ward. In Islington and in neighbouring Hackney, the Green Party are potentially moving towards being competitive with Labour, though apart from Tufnell Park ward there are relatively few marginal seats. The Liberal Democrats are close behind Labour in St Mary's and St James'. Overall, Labour now looks safe from the kind of (Liberal Democrat) surge which occurred between 1998 and 2006, in part because the opposition is fragmented.

Kensington & Chelsea (Con hold) became the sole remaining Conservative-controlled authority in inner London in 2022. This had never before been the case in any election from 1964 to 2018. In 2018, the Conservative vote in the borough had fallen below 50 per

cent for the first time since 1994, possibly as an electoral consequence of the Grenfell Tower fire in 2017. The 2022 Conservative vote share fell again, to 44.3 per cent, down from 48.6 per cent in 2018. Labour's vote fell from 32.0 per cent to 31.6 per cent, though this latter share is still towards the upper end of vote shares since 1964. The gap between the Conservatives and Labour (12.7 percentage points) was the narrowest in any election since 1964. The 1.9 per cent Conservative to Labour vote swing led the Conservatives' seat total to fall from 36 to 35 with Labour unchanged on 13. The Liberal Democrats gained one seat on a vote share up sharply from 12.5 per cent to 20.8 per cent, the party's second-highest ever in the borough.

In **Kingston-upon-Thames** (Lib Dem hold), the Liberal Democrats consolidated and extended their major victory in 2018. The party's vote share in fact fell (from 49.7 per cent in 2018 to 44.7 per cent in 2022), with the Conservatives seeing a vote share fall from 29.4 per cent to 24.4 per cent, resulting in no net vote share between the two leading parties in the borough. Labour's vote share rose (from 11.4 per cent to 12.4 per cent, as did the Green Party (from 4.2 per cent to 9.9 per cent) and Residents (4.5 per cent to 7.3 per cent). This decline in the 'Liberal Democrat plus Conservative' vote (also notable in 2014, when UKIP performed relatively well) begs a question as to whether Kingston is moving tentatively towards the fluid mixture of Liberal Democrats, Conservatives, Residents and Greens seen in different configurations within neighbouring Surrey districts. Having said this, the Liberal Democrat vote share in 2022 was the third highest ever in the borough.

Lambeth (Lab hold) saw the Conservatives (vote share down from 12.5 per cent in 2018 to 11.6 per cent in 2022) lose their last remaining seat on the council, the party having declined from having been a competitive opponent to Labour as recently as 1990-94. In the (admittedly unusual) election of 1968, the Conservatives won 57 out of 60 seats in Lambeth). Labour's vote share rose from 52.7 per cent to 53.0 per cent, the second-highest figure ever (which was 60.2 per cent in 1971). The Liberal Democrats, who appeared to be replacing the Conservatives as Labour's main opponents between 1994 and 2010, saw a fractional increase in their vote share from 11.8 per cent to 12.6 per cent, gaining three seats (in Streatham and Clapham). Labour gained one seat, while the Conservatives lost one. The Green Party vote share increased from 18.5 per cent to 21.8 per cent, though the party saw the number of seats held fall from five to two. The party is close behind Labour in several wards. As in several other boroughs, the first-past-the-post voting system works in the leading party's favour because none of the other three parties appear able consistently achieve a 30 per cent of the vote.

For the third election running, **Lewisham** (Lab hold) returned only Labour councillors. The party's vote share fell fractionally, from 53.3 per cent to 53.1 per cent. The Green Party came second, with a vote share up from 18.4 per cent in 2018 to 22.2 per cent, coming second to Labour in several wards, closely so in Crofton Park and Ladywell. The Conservatives fell back from 12.3 per cent to 10.5 per cent, their lowest figure ever, failing to win a single councillor for the third election in a row. The Liberal Democrats increased their vote share from 10.6 per cent to 12.7 per cent, making Blackheath and Lee Green wards relatively marginal. The mayoral contest was won by the incumbent, Damian Egan

(Labour), who won 58.1 per cent of the vote, that is without the need to count second preference votes. This total was up from 54.3 per cent in 2018.

Merton (Lab hold) was retained by Labour with relative ease, though with a vote share down from 44.6 per cent in 2018 to 38.3 per cent in 2022. The party won 31 seats, down from 34 in the previous election. The Liberal Democrats had their best-ever result in the borough, winning 17 seats on a vote share up from 13.9 per cent to 23.2 per cent – their highest ever in Merton. The Conservatives saw seats held reduce from 17 to 7, with a vote share down from 29.9 per cent to 24.0 per cent, the lowest ever. The Liberal Democrats took votes from the Conservatives in Wimbledon and Raynes Park (adjoining Kingston) which also has a large Liberal Democrat vote. The Residents Association lost one seat, down from three to two, despite an increased vote share. The Liberal Democrats replaced the Conservatives as the opposition on the council, albeit with a slightly smaller vote share. Merton had long been a classic Conservative-Labour marginal, but now looks more of a three-way contest.

For the first time since the election of 2006, **Newham** (Lab hold) did not see Labour winning all the seats on the council. The Green Party, on a vote share up from 6.7 per cent to 16.0 per cent, won two seats (in Stratford). Beckton is also now relatively marginal between Labour and the Greens. Labour's overall vote share fell from 68.0 per cent to 56.8 per cent, the second largest such fall in London in 2022 (Croydon saw the party's vote share down 12.1 per cent). There was a remarkable 10.2 per cent swing from Labour to the Greens. The mayoral contest was won by Rokhsana Fiaz (Labour) who received 56.2 per cent of the vote, that is, without the need to count second preference votes. This total was down from 73.4 per cent in 2018. The Green Party (with 11 per cent of the votes), had not stood a mayoral candidate in 2018 and clearly took votes from both Labour and the Liberal Democrats. There had been a referendum in 2021 about whether to replace Newham's directly elected mayoral model with a committee-based system which resulted in the mayoral model being retained by 56 per cent to 44 per cent.

Redbridge (Lab hold) saw Labour further strengthen its position, winning 58 out of 63 seats (up seven) on a vote share slightly down from 55.9 per cent to 54.5 per cent. The Conservatives lost seven seats (down from 12 to five) on a vote share reduced from 34.2 per cent in 2018 to 30.8 per cent in 2022. This figure of five compares with a previous minimum of 23 in 1998. The Conservatives' vote share was the second lowest ever, while Labour's was their second highest ever. Councillors elected in parts of Woodford switched from the Conservatives to Labour, leaving the Conservatives with residual strength in Fairlop and Woodford Green in the far north of the borough. The Conservatives controlled the council continuously from 1964 to 1994 and from 2002 to 2010, with the 2022 result potentially suggesting an existential risk to the party were it not for the fact the Conservatives still comfortably win over 30 per cent of the vote and, also, there is no advancing 'third party'. The Labour-plus Conservative vote share in 2022 was 85.3 per cent, the fourth highest in any borough.

In **Richmond-upon-Thames** (Lib Dem hold), there was an 8.2 per cent vote swing from the Conservatives to the Liberal Democrats, the second largest swing in 2022 between the top two parties in any of the boroughs. The Liberal Democrats vote share jumped from 45.2 per cent to 51.6 per cent, taking their seats won from 39 to 48. The Conservatives lost 10 seats, down from 11 to one. The party's vote share dropped from 32.2 per cent to 22.1 per cent, the lowest ever by a wide margin. The Green Party won one additional seat (up from four to five) on an increased vote share (up from 11.6 per cent to 13.4 per cent). Despite their poor showing in 2022, the Conservatives still have a substantial vote across Richmond and there is not yet a substantial and advancing 'third party'. The borough is capable of substantial shifts in councillor numbers from election to election.

Southwark (Lab hold) has been a Labour/Liberal Democrat contest since 1986, with Labour winning easily in 2014, 2018 and again 2022. The party won 52 seats in 2022, up from 49 in 2018. Vote share fell fractionally from 52.9 per cent to 52.6 per cent, the second highest since 1978. The Liberal Democrats lost three seats (from 14 to 11) on a vote share down from 21.5 per cent in 2018 to 19.5 per cent in 2022). The Liberal Democrats remain strong in the north of the borough, close to the river, with Labour dominant across the centre and south. The Conservatives lost their last seats in 2018 and again won none in 2022. Their vote share dropped from 10.4 per cent to 9.7 per cent, the lowest ever: the party's remaining competitive strength is in Dulwich. The Green Party won 16.4 per cent of the vote, up from 12.1 per cent in 2018. Here as in boroughs such as Haringey, opposition votes are fragmented.

The Liberal Democrats have run **Sutton** (Lib Dem hold) since 1986 and won again, though less easily, in 2022 than in 2018. The party lost five seats (down from 33 to 29) with a vote share down from 37.6 per cent in 2018 to 36.8 per cent in 2022. The Conservatives won three seats (up from 18 to 21) with a vote share down from 35.2 per cent to 33.8 per cent. Thus, there was a slight vote swing (0.3 per cent) from the Conservatives to the Liberal Democrats, suggesting greater efficiency in the distribution of the Conservative vote compared to the Liberal Democrats in 2022 compared to 2018. Ward boundary changes may have affected the outcome. Labour won three seats, up from none in 2018, with a slightly smaller vote share (17.2 per cent in 2018, down to 16.3 per cent in 2022), all in the northern wards of Hackbridge and St Helier West. It is worth noting that Labour were the Conservatives' main opponents from 1964 to 1971, but gradually declined through the 1970s and 1980s before staging a modest comeback since 2014. The Liberal Democrat vote thus embraces a vestigial Labour voter base in neighbourhoods such as Beddington, Carshalton and Wallington.

Tower Hamlets (Aspire gain from Labour) has a political system which, in recent years, has operated on a different axis to any other borough, with politics significantly influenced by unique demographic, cultural and religious factors. In 2018, Labour won 42 seats out of 45, with the Conservatives winning two and the People's Alliance of Tower Hamlets one. 2022 saw Labour down from 42 to 19 seats and the Conservatives down from two to one. Aspire, a party newly created to support a former mayor of the borough, Lutfur Rahman, won 24 out of 45. The Green Party won one seat, with a vote share up from 8.2 per cent

to 10.5 per cent. Labour's vote share fell from 43.9 per cent to 34.6 per cent, while the Conservatives (who had gained significant ground between 1998 and 2010) dropped from 10.2 per cent to 7.6 per cent. Aspire won 37.3 per cent. The mayoral contest was won by Lutfur Rahman (Aspire), who received 47.0 per cent of the first preference vote (ie, less than 50 per cent), thus triggering the need to apply second preference votes. With second preference votes added, Rahman won 54.9 per cent. In 2015, Rahman had been disqualified from office of mayor for five years following the 2014 election being declared void by the High Court. There had been a referendum in 2021 about whether to replace Tower Hamlets's directly elected mayoral model with a leader and cabinet-based one. The mayoral model was retained by 78 per cent to 22 per cent.

Waltham Forest (Lab hold) came closer than any other borough to a frozen 'no change' situation in 2022 compared to 2018. Labour gained one seat (up from 46 to 47) and the Conservatives lost one (down from 14 to 13). Labour's vote share fell from 51.3 per cent to 49.5 per cent, while the Conservatives also lost vote share (down from 21.2 per cent to 18.8 per cent). The Liberal Democrats also lost vote share. The Green Party, by contrast increased its vote share from 13.3 per cent to 16.1 per cent. Between 1982 and 2010, the Liberal Democrats won between six and 19 seats in each election but have fallen away subsequently. Waltham Forest remains a borough where the Labour-plus-Conservative vote remains dominant, with the Conservatives more powerful in Chingford to the north and Labour winning in the centre and south of the borough.

In **Wandsworth** (Lab gain from Con) Labour had won the popular vote in 2018 (by 38.7 per cent, compared to the Conservatives' 38.4 per cent). In 2022, Labour decisively took the borough, winning nine additional seats (up from 26 to 35), while the Conservatives lost 11 (down from 33 to 22). Labour's vote share grew from 38.7 per cent in 2018 to 42.1 per cent in 2022, the highest since 1986. The Conservatives saw their vote share fall from 38.4 per cent to 35.1 per cent, meaning there was a 3.3 per cent vote swing from the Conservatives to Labour. The Conservatives' vote share was the lowest ever, though only slightly below the 38.2 per cent levels in 1971 and 1974. The borough will remain highly competitive between Labour and the Conservatives with smaller parties squeezed by the struggle between the major ones. A single Independent held their seat.

Westminster (Lab gain from Con) had been controlled by the Conservatives continuously since the London boroughs were first elected in 1964. Indeed, the former Westminster metropolitan borough (the southern part of the contemporary authority) had also only ever been run by the Conservatives (or their differently named centre-right predecessors) between 1900 and 1965. Thus, Labour's victory in 2022 was a most significant one. With new wards and slightly fewer councillors, Labour won 31 seats (up 12) and the Conservatives 23 (down 18). The party's vote share rose from 40.3 per cent in 2018 to 46.8 per cent in 2022, while the Conservatives share dropped from 42.3 per cent to 39.3 per cent, the lowest-ever in the borough. The Liberal Democrat vote rose slightly from 9.0 per cent to 11.3 per cent. The Conservative to Labour vote swing was 4.7 per cent. It is possible that population movement away from London caused by the Covid-19 pandemic affected the voter base in some wards (to the Conservatives disadvantage) though this is

hard to prove. Labour managed to break out of its northern and southern redoubts to win in the centre of the borough. The result suggests the borough will remain marginal in future elections, particularly in neighbourhoods such as Maida Vale, Bayswater and Lancaster Gate.

Note: Boundary changes, including changes to the number of wards, councillors and councillors per ward (though not all of these changes in every borough) took effect in Barking & Dagenham, Barnet, Brent, Camden, Ealing, Enfield, Greenwich, Hammersmith & Fulham, Haringey, Harrow, Havering, Hillingdon, Hounslow, Islington, Kingston, Lambeth, Lewisham, Merton, Newham, Richmond, Sutton, Waltham Forest, Wandsworth and Westminster. Comparisons between aspects of the results in 2018 and 2022 will be affected by these boundary changes which were delivered by the politically impartial Local Government Boundary Commission for England.

The 2022 elections and longer-term trends

The 2022 London borough election results saw Labour winning control of 21 authorities, the Conservatives five (six if Croydon's mayoral win is deemed 'control'), the Liberal Democrats three, Aspire (Tower Hamlets) one, with two boroughs having 'no overall control' (one if Croydon is deemed a Conservative gain). Labour won Barnet, Wandsworth and Westminster (all from the Conservatives), but lost Harrow, Croydon and Tower Hamlets, leading to no net change in the number of boroughs controlled by each party. The Conservatives won Harrow (from Labour) and in Croydon won the mayoral race, but not control of the council, while losing Barnet, Wandsworth, Westminster. The Liberal Democrats held the three councils won in 2018. Aspire won control of Tower Hamlets from Labour. Havering remained 'no overall control'.

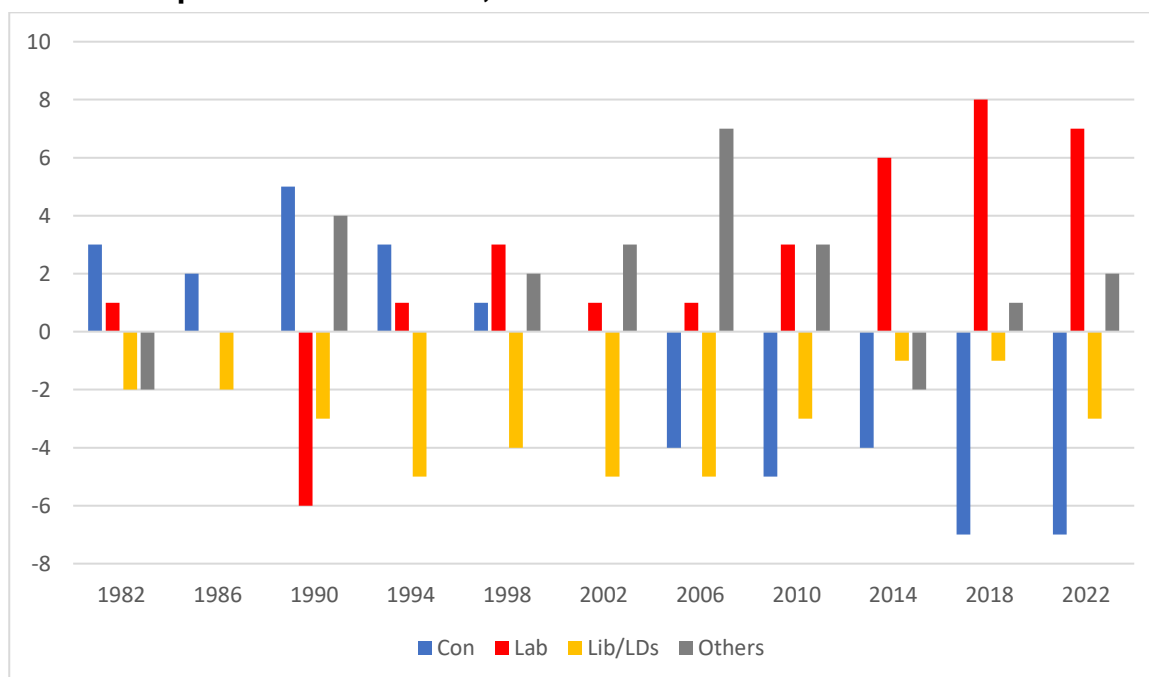

Looked at across the city, the result produced a 0.45 per cent vote swing from the Conservatives to Labour, though both parties lost vote share. The Liberal Democrats won 1.4 per cent more of the vote than in 2018, while the Green Party vote share rose from 8.7 per cent to 11.8 per cent. The overall result, if not in every borough, was thus relatively static between 2018 and 2022. Given the longer-term (ie since about 2000) relative increase in the Labour vote share in London and the decline in the Conservative share, did the 2022 result imply a 'levelling off' in the changing relative positions of the two largest parties in London? The London Assembly election in 2021 had seen a swing of just under two per cent from Labour to the Conservatives³, though this figure was below the national swing in that year.⁴

The chart below compares the difference between the London vote share and the National Equivalent Vote Share (NEVS) in each election from 1982 to 2022, that is, 11 sets of borough elections. The NEVS is an estimate of the national vote share across Britain adjusting for the pattern of elections in a particular year. As Figure 1 shows, the Conservatives slightly exceeded the national vote share in the elections from 1982 to 1998 but underperformed from 2006 onwards. The party's position was unchanged between 2018 and 2022. Labour significantly under-performed in London in 1990 but exceeded the NEVS by a growing margin in each year from 2002/2006 to 2018. But the Labour 'excess' compared to the NEVS fell slightly in 2022 compared to 2018. It is thus just possible that the longer-term growth in the Labour vote share and the fall in the Conservative one may be levelling off.

Figure 1: Percentage point difference between London borough vote share and National Equivalent Vote Share, 1982 to 2022

Source: Author's calculations based on (i) London Borough Council Elections 2022, 5 May 2022, Greater London Authority, Table 5 and (ii) May 2021 local elections, House of Commons Library, Section 6, <https://commonslibrary.parliament.uk/research-briefings/cbp-9228/>

Bexley and Kensington & Chelsea yet again proved the safest Conservative boroughs. But since the 1990s, the party has moved to a position where it has little or no chance of winning control (even in a good year for them) in Brent, Camden, Haringey, Lambeth, Lewisham and Southwark where in the past they were the major opposition or (in some cases) the winning party. But the Conservatives remain competitive (again, in a good year for the party) against either Labour or the Liberal Democrats in 20 boroughs.

Labour had both good and bad results. Winning Barnet, Wandsworth and, particularly, Westminster during the overnight count made it appear it would be an exceptional year for the party. Westminster was won for the first time ever. But later results on Friday from Harrow, Tower Hamlets and Croydon were a disappointment. In Croydon, where the Conservatives won the mayoral race and gained four seats (though not enough to control the council outright), the previous Labour administration's financial mismanagement clearly played a role in the Conservatives regaining control of the executive. Labour's loss of Tower Hamlets was the result of unique cultural factors, rather than bad government. Overall, Labour remains dominant across many parts of London and, since 2016, has been the party of the Mayor of London.

The Liberal Democrats further entrenched their south-west London stronghold and, indeed, extended it eastwards into Merton, where they won seats in formerly Conservative areas. Yet, as Figure 1 suggests, the party under-performs in London compared to the rest of the country. The Green Party consolidated voter concentrations in Hackney, Islington

and Lambeth, winning over 20 per cent of the vote in each case. They also did well in Lewisham and Newham, suggesting that in several boroughs where Labour are very dominant there is a section of voters who increasingly see the Greens as an acceptable alternative.

Havering once again proved unique. There remain sizeable Conservative and Labour groups, but Residents Association candidates did better even than in 2018. This pattern is now well-established. Chislehurst Matters, with a particular focus on neighbourhood roads, traffic and planning showed how strong place-based politics can be, even in a city of nine million people.

Issues which appeared to affect results differentially from borough to borough (though not in all) in 2022 included

- perceptions of the quality of financial management by the outgoing administration
- low traffic neighbourhoods
- controversies relating to high density and/or high-rise residential buildings in outer London
- local planning issues in general
- the Mayor of London's Ultra Low Emission Zone policy
- religious/cultural factors.

It is possible national policy issues such as the on-going political impacts of Brexit may have affected party support in some wards. The effect of the Covid-19 pandemic on inner boroughs' electoral make-up, especially where people with second homes had moved out of the city, may have marginally affected some boroughs' results.

London's council elections, like the system of local government across the 32 boroughs and the City of London, offers a rich variety of policy, politics and outcomes. Even though there are two boroughs (down from three in 2018) where a single party holds all the seats, there is pluralism in most boroughs. London's multi-dimensional diversity coexists with a set of municipalities, political groupings and policy offers which still resemble those which have been in place since the first elections in 1964, and which can also be found in counties and districts across the country. For the major British parties, the capital and its boroughs remain political prizes worth competing for.

Overview statistics and maps

This section provides an overview of the election results, which includes the state of political parties in each borough, the share of the vote by party, and the number of elected candidates for each ward. It also presents maps comparing the 2022 results with results from previous elections, as well as overview statistics on turnout, number of voters, and the total number of candidates, broken down by party.

Turnout and Party Vote

Turnout

The turnout of voters across the 32 boroughs as a whole was 35.5 per cent, lower than that seen in 2018 (38.8 per cent).

Highest borough turnout: Richmond upon Thames, 47.7%

Lowest borough turnout: Barking and Dagenham, 24.5%

Five highest wards:

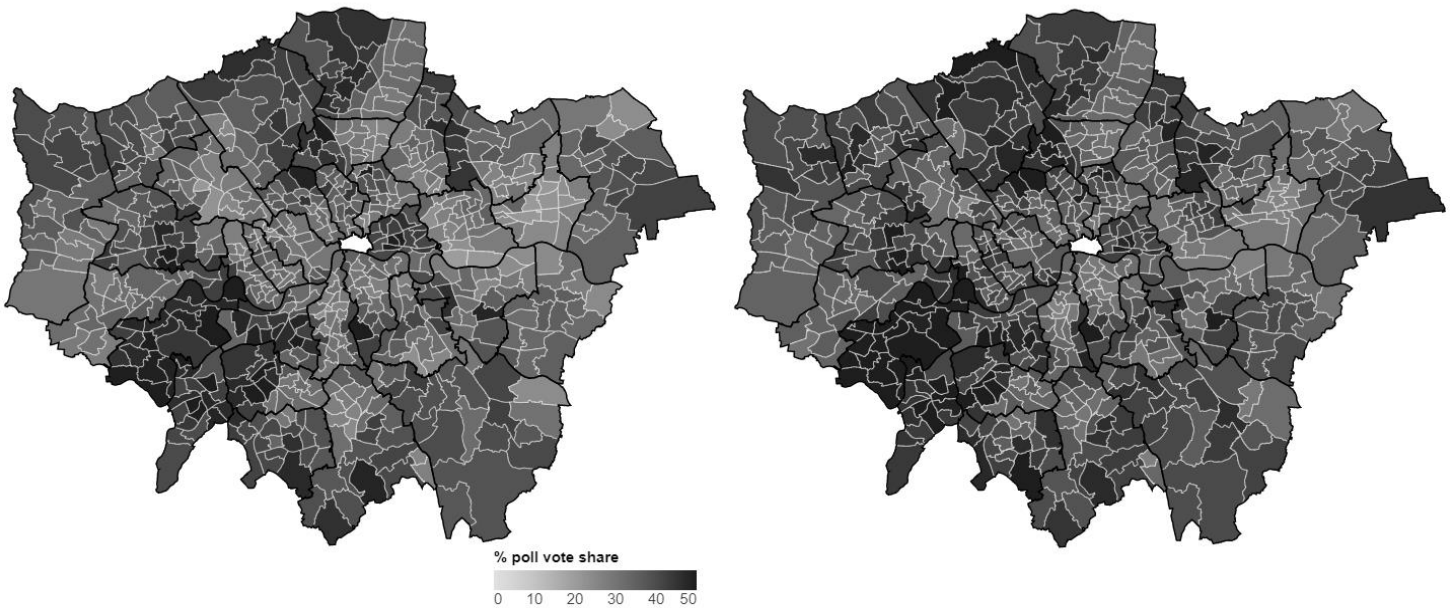

Southwark	Dulwich Village	60.7%
Kingston upon Thames Tudor		56.0%
Kingston upon Thames Berrylands		54.5%
Ealing	Northfield	53.7%
Wandsworth	Trinity	52.3%

Five lowest wards:

Newham	Royal Victoria	19.9
Barking and Dagenham Mayesbrook		20.6
Brent	Wembley Park	21.0
Barking and Dagenham Eastbury		21.1
Barking and Dagenham Valence		21.3

2022

2018

The Conservative Party Vote

The overall percentage vote for the Conservative Party was 26.2 per cent, down from 26.1 per cent in 2018. The party gained vote share in 6 of the 32 boroughs, making its biggest gains in Barking & D. (up 5.2 percentage points to 27.1 per cent). Of the 26 boroughs where the Conservatives experienced a fall in vote share, there was an even split of inner and outer London boroughs. The largest fall in vote share was seen in Richmond upon Thames which fell by 10.1 percentage points to 22.1 per cent.

Highest borough Conservative vote: Bexley, 47%
 Lowest borough Conservative vote: Haringey, 7.6%

Five highest wards:

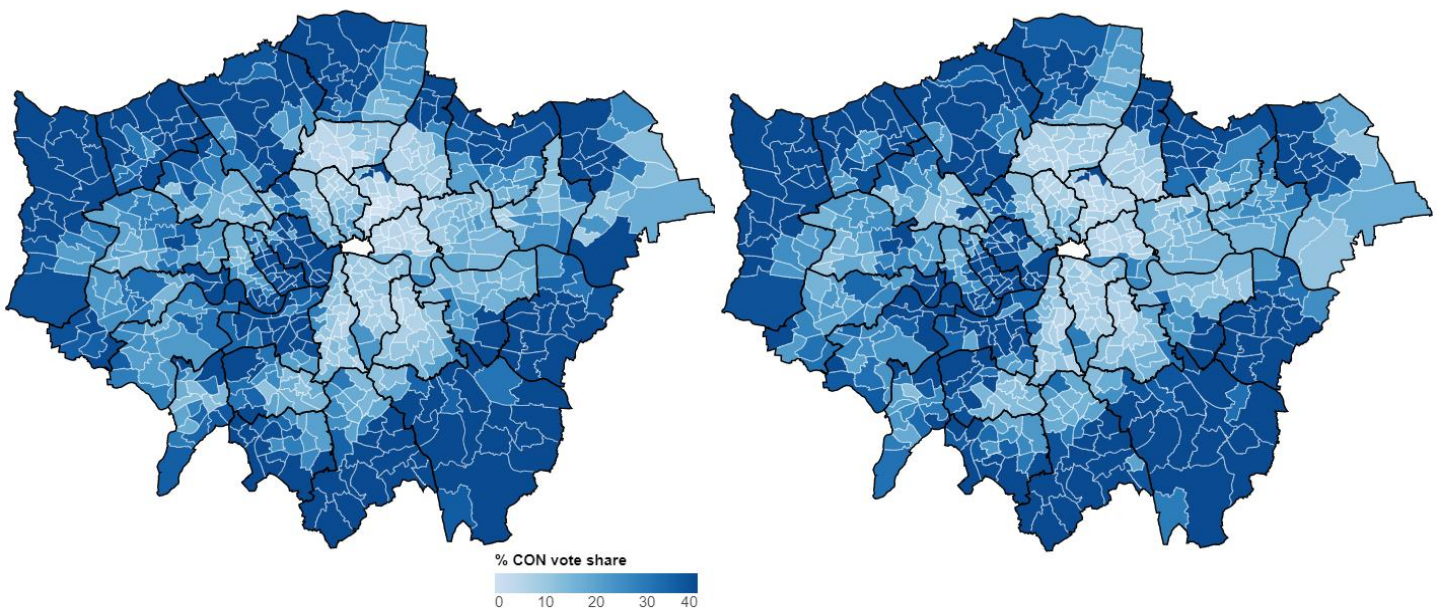

Kensington & Chelsea	Royal Hospital	69.0%
Croydon	Sanderstead	68.5%
Kensington & Chelsea	Brompton and Hans Town	66.6%
Barnet	Golders Green	65.8%
Croydon	Selsdon Vale & Forestdale	65.6%

Five lowest wards:

Haringey	Harringay	3.7%
Tower Hamlets	Shadwell	3.7%
Tower Hamlets	St Peter's	3.7%
Haringey	Stroud Green	2.9%
Lewisham	Telegraph Hill	2.7%

2022

2018

The Labour Party Vote

The overall percentage vote for the Labour Party was 42.2 per cent, down from from 44.1 per cent in 2018. The party gained vote share in 13 of the 32 boroughs, making its biggest gains in Bexley (up 7.5 percentage points to 41.2 per cent). Of the 19 boroughs where the Labour experienced a fall in vote share, the majority were outer London boroughs. The largest fall in vote share was seen in Croydon which fell by 12.1 percentage points to 32.4 per cent.

Highest borough Labour vote: Barking and Dagenham, 68.4%

Lowest borough Labour vote: Richmond upon Thames 9.2%

Five highest wards:

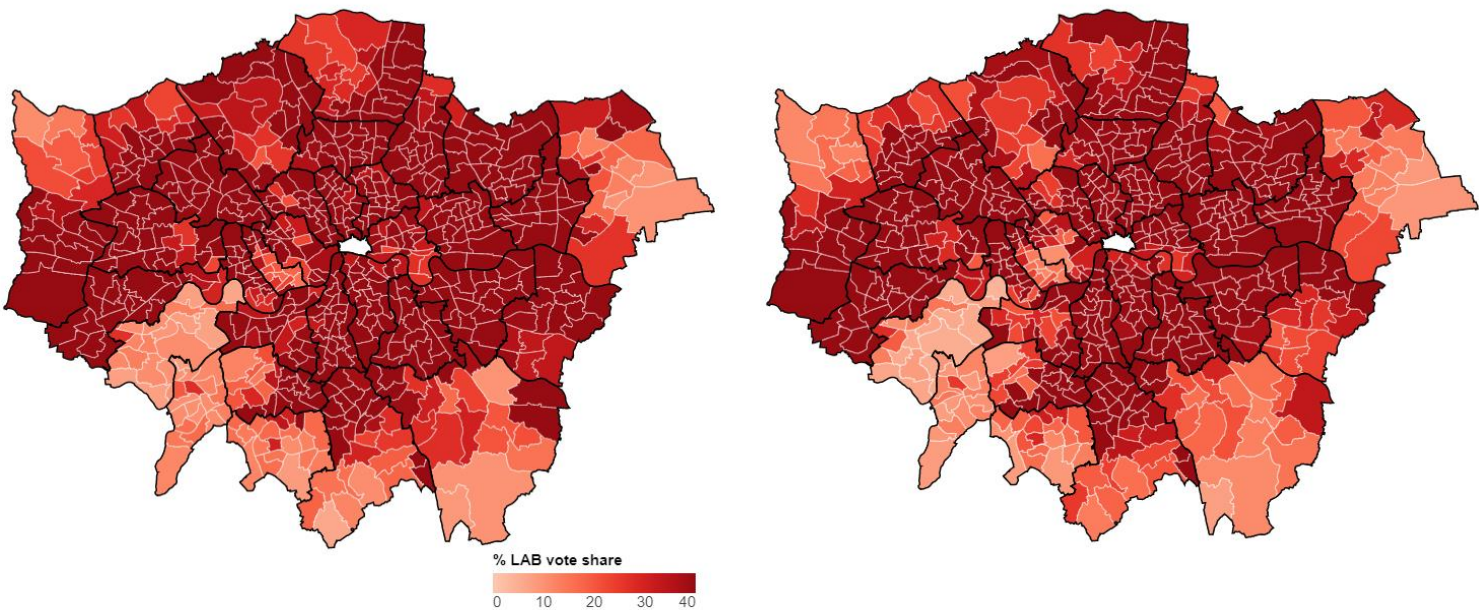

Redbridge	Clementswood	84.2%
Redbridge	Loxford	82.2%
Southwark	Peckham	81.0%
Barking and Dagenham	Village	78.7%
Haringey	West Green	78.1%

Five lowest wards:

Richmond upon Thames East Sheen	7.1%
Richmond upon Thames Ham, Petersham & Richmond Riverside	6.5%
Richmond upon Thames Barnes	6.4%
Croydon Old Coulsdon	6.0%
Richmond upon Thames South Richmond	5.1%

2022

2018

The Liberal Democrat Party Vote

The overall percentage vote for the Liberal Democrat Party was 14.1 per cent, up from 12.7 per cent in 2018. The party gained vote share in 21 of the 32 boroughs, making its biggest gains in Merton (up 9.3 percentage points to 23.2 per cent). Of the 11 boroughs where the Liberal Democrats experienced a fall in vote share, the majority were in London boroughs. The largest fall in vote share was seen in Kingston upon T. which fell by 5 percentage points to 44.7 per cent.

Highest borough Liberal Democrat vote: Richmond upon Thames, 51.6%

Lowest borough Liberal Democrat vote: Barking and Dagenham, 1%

Five highest wards:

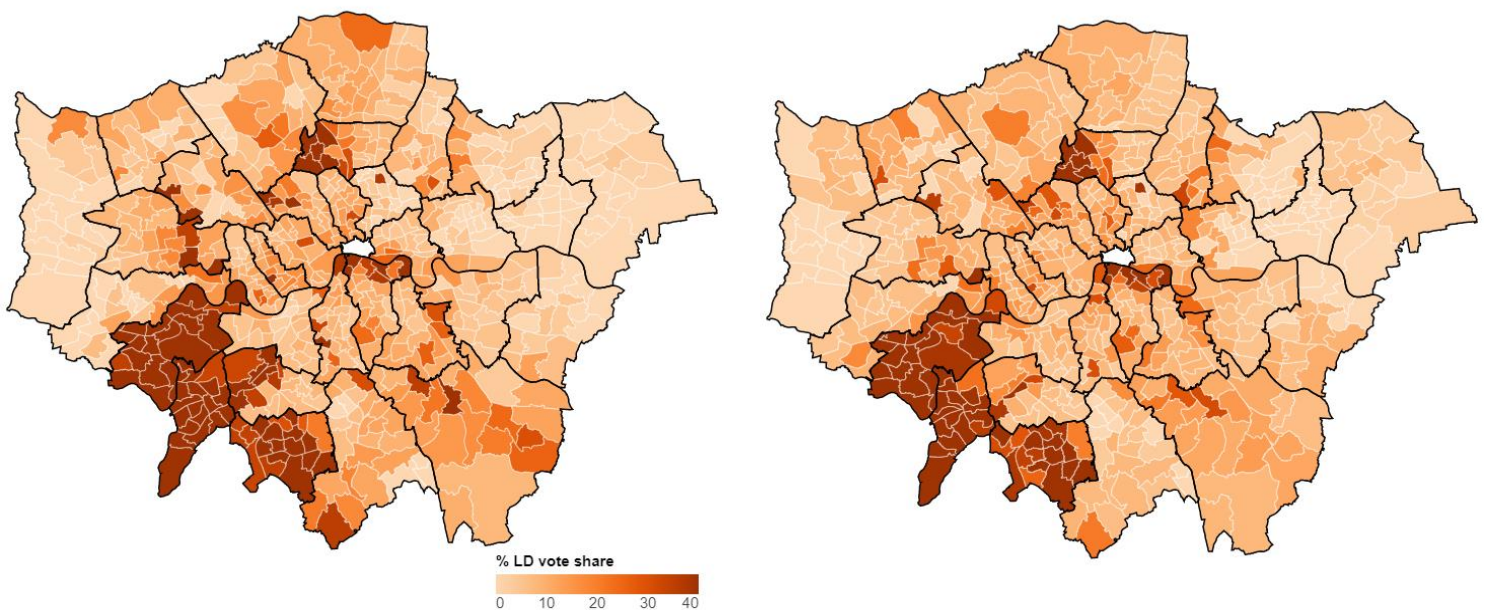

Richmond upon Thames	Hampton Wick & South Teddington	67.6%
Richmond upon Thames	Teddington	67.6%
Richmond upon Thames	St Margarets & North Twickenham	66.0%
Richmond upon Thames	North Richmond	64.5%
Richmond upon Thames	Hampton	64.0%

2018

Technical Notes

The London Borough Councils

The London boroughs were constituted under the London Government Act, 1963 and the first elections to the new councils were held on 7 May 1964. Prior to 1976, councillors were elected at general elections held every three years but as a result of an order made under the Local Government Act, 1972, the term of office of members of London borough councils was increased to four years. Before 1978 each council included aldermen, to a maximum of one sixth of the councillors, elected by the councillors from among themselves or from persons qualified to be councillors. Under the Local Government Act, 1972, the office of alderman of a London borough council ceased to exist after the 1978 elections. The mayor of each borough is elected annually by each council from among the councillors, with the following exception: under the Local Government Act, 2000, a council proposing a directly elected mayor must carry out a referendum on its proposals, the result of which is binding on the local authority.

Following ward boundary changes which became effective in May 2022, the total number of wards in London increased from 632 to 679, with changes across the city. The number of wards per borough varies from 17 in Bexley to 28 in Croydon. The number of councillors per borough ranges from 45 in Bexley to 70 in Croydon and Ealing. More than half of London wards return 3 members, however there are 210 two-seat wards and 5 single-seat wards.

City of London

The Corporation of London is constituted differently to the London boroughs and is, therefore, not included in the current publication. It consists of common councilmen and aldermen in addition to the Lord Mayor. The aldermen are elected for life by the ward voters (who include business as well as resident voters).

Where comparisons have been made between the borough election data and other elections, the City of London has been excluded from the Cities of London and Westminster constituency and the North East GLA Assembly constituency.

Tables and calculations

The main results and the share of the votes by party are combined to provide a single section for each London borough giving all the most important information. This appears between pages 43 and 194.

The general method for calculating share of the votes follows that used in 1994. In calculating voteshare, residents' associations, independent residents, tenants and residents have been combined into a single grouping which is given the abbreviation REA in the borough statistics.

All percentage vote figures include a correction to reduce the errors due both to parties or groups failing to nominate candidates for all seats in a ward, and to the differing numbers of seats in wards within and between boroughs. The correction chosen is the use of average votes per candidate for any given party or group. Percentages are based on the sum of average votes for a ward or borough, which is thus used as an estimate of the total number of valid votes cast in a single seat election. Percentages do not necessarily add to 100 due to rounding.

Candidates' names

Where known candidates' principal names are shown as their name as per the electoral roll, and otherwise are shown as they appear on the nomination papers.

Acknowledgements

Once again we should like to thank the Returning Officers of the London boroughs who supplied the basic information presented in this volume. Our thanks are also due to the many other members and officers of the London boroughs who were instrumental in improving the quality of our information.

Maps

The ward map for the 2014 elections shows wards that came into effect on 22 May 2014. The ward map for the 2018 elections shows boundaries that came into effect on 3 May 2018, which affected Bexley, Croydon, Southwark, and Redbridge.

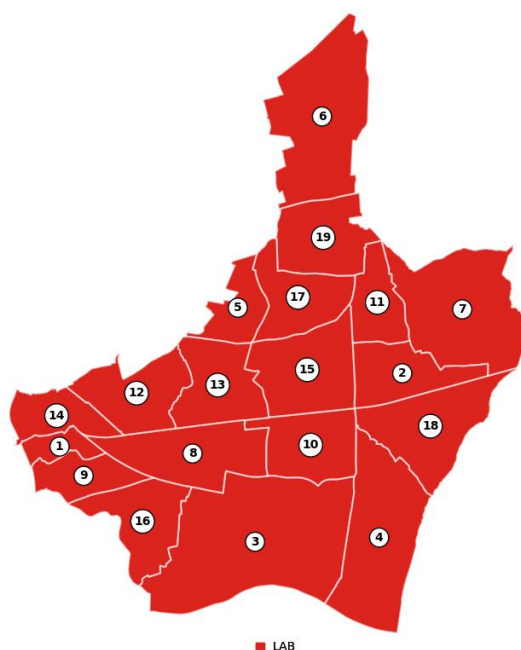

Using the results section

The share of the poll data shown in the results section are based on the average number of votes per party per ward. For example, if there are three candidates for one party, the total number of votes for that party would be divided by three, whereas wards with a single candidate would be divided by one. For the borough and constituency shares, the figures for wards (that is votes divided by candidates) within those areas are summed.
