Key Findings

- There were 82 Local Authority (LA) maintained nursery schools in London in 2007. There were also 1,823 LA maintained primary schools, 395 secondary and 144 special schools.
- There were 23 academies in nine London boroughs in January 2007 representing 50 per cent of all academies in England.
- Around 33 of the 124 new independent schools in England since 2003 are in London.
- There were 238 LA maintained Church of England primary schools in London in 2007. There were also 241 Roman Catholic, 17 Jewish, 1 Muslim and one Sikh primary school.
- There were 29 LA maintained Church of England secondary schools in London in 2007. There were 68 Roman Catholic, 4 Jewish, no Muslim and one Sikh secondary school.
- There were 1,066,200 pupils on roll in LA maintained schools in January 2007. There was a decline of 6.7 thousand pupils in LA maintained schools between 2003 and 2007.
- In January 2007, there were 79,200 pupils aged 16-19 years old at LA maintained schools in London; an increase of 8.72 thousand since 2004.
- Outer London LA maintained primary schools had 54.5 per cent white pupils compared to 33.4 per cent in inner London in January 2007.
- Pupils in LA maintained schools in inner London are more than twice as likely to be eligible for free school meals than pupils in schools in England as a whole.
- Pupil absence was lower in secondary schools in London than in schools in England in 2007.
- The proportion of Key Stage 2 pupils in inner London achieving the nationally expected level of attainment increased more between 2003 and 2007 than the proportion in outer London. Pupils in London improved more than pupils in England.
- At GCSE, pupils in inner London improved at a faster rate between 2003 and 2007 than pupils in England. There was a rise in inner London of 6.5 percentage points in the percentage of pupils aged 15 achieving the equivalent of 5 or more GCSE grades A*-C compared with 3.6 in England

Introduction

This publication aims to provide information on schools in each London borough and for London as a whole over the last five years. It brings together new and historical information that can be found on the DCSF website: [DCSF Research and Statistics Gateway](#). There are comparisons made over time and between boroughs in London.

This publication has been designed electronically so that it can be dynamically updated when new information is published by DCSF in a similar format to previous publications including, for example, the GCSE results published as part of the Achievement and Attainment tables (formerly the Performance Tables), or pupil absence information.

The list of table sources (at the end of the document) contains web links to the DCSF source publications.

See the glossary for a description and the definitions of the terms used in this document.

Notes:

Some information is not shown for some years because:

- the information was not published electronically by DCSF in that year; eg Key Stage 2 point scores results were not published before 2003,
- the definitions for the indicator had changed; e.g. the SEN code of practice changed in 2004, or
- it is not applicable; e.g. City of London have no Local Authority (LA) maintained secondary schools.

Some figures have been rounded by DCSF before publication so there may be discrepancies between the sum of constituent items and totals. For example, the number of pupils known or believed to have English as a first language is rounded to the nearest ten pupils in each borough.

The section on performance reports attainment in terms of the standard measure of the percentage of pupils who do or do not reach nationally expected levels. This measure does not describe the full range of attainment in London's schools.

1. Schools

- In January 2007 there were 3,042 schools in London, including nursery, primary, secondary, special and independent schools, pupil referral units, city technology colleges and academies. Some changes in the number of schools will result from the amalgamation of existing infant and junior schools. however, that aside
 - The number of schools in inner London increased by ten between 2003 and 2007. At the same time, the number of schools in outer London decreased by one. There was therefore an overall growth of nine schools in London.
 - This London growth contrasts with the trend in England as a whole. The number of schools in England dropped by 454 between 2003 and 2007.

Table 1: Schools

Area	Number of schools of all types					Change
	2003	2004	2005	2006	2007	2003-2007
Inner London	1,218	1,220	1,227	1,226	1,228	+10
Outer London	1,815	1,843	1,831	1,819	1,814	-1

England	25,472	25,543	25,335	25,179	25,018	-454

(Taken from Appendix 3: Table 1a iii)

- The increase in the number of London schools reflects the opening of academies, and an increase in the number of independent schools and pupil referral units (PRUs). There was little change in the number of city technology colleges (CTCs) in London between 2003 and 2007.
 - Between 2005 and 2007, thirteen new academy schools opened in London, and eight in Inner London. It accounted for 44.8 per cent of 29 new academy schools in England.
 - Around 26.6 per cent of the 124 new independent schools in England opened since 2003 are in London. It accounted for 63.6 per cent of new independent schools in outer London.
 - Between 2003 and 2007, 20 new PRUs opened in London, accounting for 22.7 per cent of the new PRUs in England.

(Taken from Appendix 3: Table 1a ii and Table 1a iii)

- There were 63 fewer local authority (LA) maintained schools in London in January 2007 than in 2003. The losses were approximately equally divided between inner London and outer London.

(Taken from Appendix 3: Table 1aiii)

- There were 82 LA maintained nursery schools in London in 2007. There were also 1,823 LA maintained primary schools, 395 secondary and 144 special schools.
 - Of the 63 fewer maintained schools in 2007 compared to 2003, 39 were primary schools and 12 were secondary schools. The decline in the number of primary schools is likely to be the result of amalgamation of infant and junior schools.

(Taken from Appendix 3: Table 1ai and Table 1aii)

- There were 238 LA maintained Church of England primary schools in London in 2007. There were also 241 Roman Catholic, 17 Jewish, 3 Muslim and one Sikh LA maintained primary school. There was little change in the number of each type of school between 2004 and 2007. (The information was not made available before 2004).
- In local authorities in England in 2007, there were 2.6 times more Church of England (CE) primary schools than Roman Catholic (RC).
- In London, there was the similar number of RC as CE primary schools. RC primary schools in London formed 14.1 per cent of all RC primary schools in England.
- Nearly three-quarters (72.5 per cent) of LA maintained primary schools in London in 2007 had no specific religious character.
- Of the 28 Jewish LA maintained primary schools in England, 60.7 per cent of them are in London. Over 80 per cent of those are in 5 outer London boroughs.

6. Free School Meals

- Pupils in LA maintained primary and secondary schools in inner London are more than twice as likely to be eligible for free school meals than pupils in schools in England as a whole.
- In primary schools in London, 25.2 per cent of pupils were eligible for free school meals in 2007 compared with 15.9 per cent in schools in England.

Chart 2: Eligibility for free school meals in LA maintained primary schools, 2003-2007

(source: appendix 3 Table 6a)

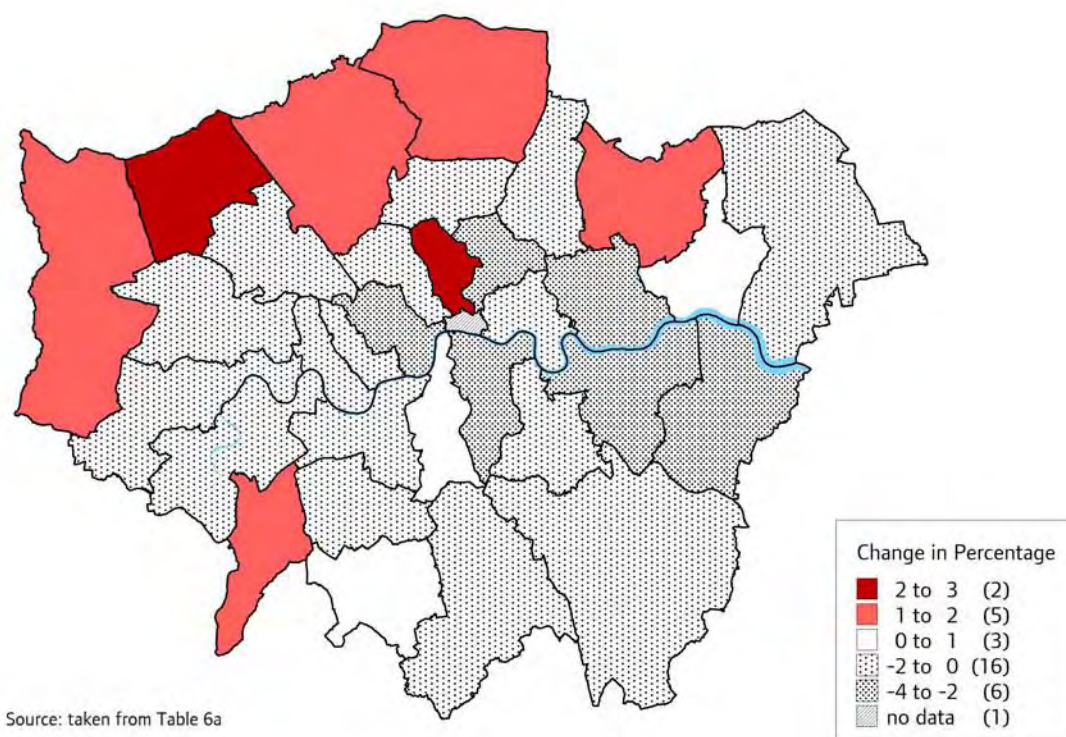

- In secondary schools in London, 22.4 per cent of pupils were eligible for free school meals in 2007 compared to 13.1 per cent of pupils in England. Between 2003 and 2007, there was a drop in the percentage of pupils eligible for free meals in secondary schools in Inner London of 3.5 points to 35.9 per cent.

7. Special Educational Needs

- In primary schools in London in January 2007, 1.7 per cent of pupils had a statement of Special Educational Needs (SEN). This is 0.1 per cent higher than in schools in England.
- The percentage of pupils with statements has changed little in London and in England since 2004.
- A higher proportion of pupils in secondary schools have statements of SEN than in primary schools. The proportion in London is 0.3 per cent higher than in schools in England.
- In inner London, the percentage of pupils in secondary schools with SEN statements was 0.6 points higher than in outer London. The percentage of pupils with statements of SEN in Inner London secondary schools fell from 2.9 per cent in 2004 to 2.8 per cent in 2007.

8. Absence and Exclusion

- In primary schools in London in 2007, 6.0 per cent of half-day sessions were missed due to absence compared to 5.8 per cent in primary schools in England.
- The proportion of missed half-day sessions in inner London primary schools is 0.2 percentage points higher than in outer London.
- Pupil absence is higher in secondary schools than in primary schools in London and England.
- The drop to 7.6 per cent of half-day sessions missed in secondary schools was greater in London than in England.

- Permanent exclusions of compulsory aged pupils from LA maintained schools fell between 2003 and 2006 in primary schools in London and rose in secondary schools in London.
- The proportion of permanent exclusions from primary schools was the same in London as in England at 0.02 per cent of compulsory aged pupils.
- Permanent exclusions from secondary schools were higher than those from primary schools with 0.29 per cent of pupils permanently excluded in 2006.

9. Key Stage 1 Performance

- At Key Stage 1, 68 per cent of London pupils achieved or bettered the nationally expected level of attainment in reading in 2007. In writing 56 per cent and in mathematics 71 per cent of pupils achieved at least the expected level.
- On this measure, girls in London schools out-performed boys in all three subjects; by ten percentage points in reading, 14 in writing and by one percentage points in mathematics.

- In schools in England, pupils performed better in all three subjects than pupils in London by 3 or 4 percentage points in each subject.

10. Key Stage 2 Performance

- At Key Stage 2 in London in 2007, 79 per cent of pupils in LA maintained schools in London achieved level 4 or better in English. The equivalent figures for mathematics and science were 76 and 86 per cent in science.
- A greater proportion of girls achieved level 4 in English than boys with a nine percentage points gap between the two.
- The gap between boys and girls was smaller in science and with proportion of girls reaching the expected level in London increased by one percentage point. In mathematics, using this measure, boys out-performed girls by one per cent.

11. Key Stage 3 Performance

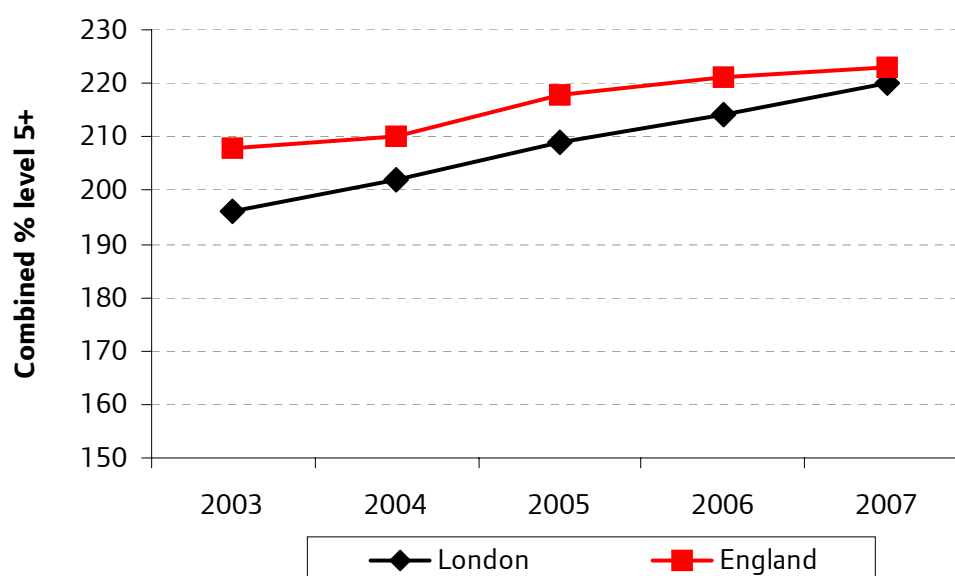

- At Key Stage 3 in London in 2007, 75 per cent of pupils achieved level 5 or better in English, 75 percent in mathematics and 70 per cent in science.
- On this measure, pupils in Outer London out-performed pupils in schools in England in English, mathematics and science.
- A greater percentage of girls than boys in London achieved the expected level in all subjects.
- The greatest difference in performance between boys and girls in London in 2007 was in English where 68 per cent of boys and 81 per cent of girls achieved the expected level. A difference of 13 percentage points. These proportions were the same for pupils in schools in England as a whole.
- The proportion of Key Stage 3 pupils in Inner London achieving the expected level increased more in inner than Outer London between 2003 and 2007.

12. GCSE Performance

- In 2007, there were 60.5 per cent of pupils in London schools who achieved the equivalent of five or more A*-C grades at GCSE. Pupils in inner London improved at a faster rate between 2003 and 2007 than pupils in England. There was a rise in inner London of 9.8 percentage points compared with 8.7 in England.

- Between 2003 and 2007 in London, there was a decrease of 2.1 percentage points in the proportion of pupils who had no pass grades at GCSE or equivalent. This percentage had remained steady at around 2.5 per cent in 2007.
- On this measure, pupils in inner London improved more than those in Outer London with a fall of 2.3 per cent compared to 2.0 per cent of pupils with no pass grades in Inner London between 2003 and 2007.
- In London in 2007, the proportion of pupils finishing Key Stage 4 with no GCSE pass grades was 1.0 percentage points lower than in England.

Appendix 1: Glossary of terms used

Academies

These are all ability schools established by sponsors from business, faith or voluntary groups working in highly innovative partnerships with central government and local education partners. Academies are non-LA maintained schools registered as independent schools.

Capped GCSE point score

Pupils take different numbers of GCSE or equivalent courses. In order to make comparisons between groups of pupils, their best 8 GCSE equivalent results are taken as a capped score.

City technology colleges

These take the form of a charitable company limited by guarantee. A CTC is a non-LA maintained school registered as an independent school.

Class sizes

The information is given for classes or groups of pupils being taught together at a particular point in the school day on the third Thursday in January each year. Reception classes are included in the Key Stage 1 numbers. The pupil figures do not include pupils engaged in private study, pupils on work experience or pupils attending courses at further education establishments during the selected period.

Combined percentages

At Key Stages 1-3, combined percentages are the sum of the percentage of pupils achieving the nationally expected level in the three main subjects: Reading, writing and mathematics at Key Stage 1; and English, mathematics and science at Key Stages 2 and 3.

Ethnic background of pupils

Since 2003 the categories for recording ethnicity data have reflected the categories used in the 2001 national population census. There is no complete direct mapping between this set of codes and those used in previous years.

First language

First language is the language to which the child was initially exposed during early development. At present, first language is recorded as either English, or a language other than English.

Free school meals

The definition of those entitled to Free School Meals includes only pupils where parents have indicated that they wish their child to have a free meal and have confirmed benefit receipt with the Local Authority or school.

Independent schools

An independent school is legally defined as any institution providing full time education for five or more pupils of compulsory school age, which is not maintained by a local authority.

Key stages

The national curriculum has four key stages. Key Stage 1 is for pupils who are in years 1 and 2 of the national curriculum. Key Stage 2 is for pupils in years 3 to 6 and Key Stage 3 is for pupils in years 7 to 9.

Tests are taken at the end of each key stage. For most pupils, these are taken in the summer when the pupils are aged 7, 11 or 14. Assessments at Key Stages 1 to 3 are in terms of levels, which are intended to reflect the extent of learning. Typically, children are expected to move up by one level over a two-year period. At the end of Key Stage 1, the majority of pupils are expected to have reached level 2. The national expected level for pupils at the end of Key Stage 2 is level 4 and at Key Stage 3 it is level 5 or 6.

Key Stage 4 covers the examinations taken at the end of compulsory secondary schooling. Pupils who were aged 15 at the beginning of the school year take exams at the end of that school year.

Middle Schools

Middle schools take children from first schools and generally lead on, in turn, to comprehensive upper schools. They cover varying age ranges between 8 and 14. They are deemed either primary or secondary depending on the age range catered for.

Non-maintained schools

Voluntary bodies run non-maintained schools; they may receive some grant aid from the Government for capital work and for equipment, but their current expenditure is met primarily from the fees paid by parents or to Local Authorities for pupils placed in the schools. Non-maintained schools include Academies, City Technology Colleges, Independent schools and some Nursery and Special schools.

Nursery schools

These provide education primarily for children below compulsory school age, under 5.

Part-time pupils

These are pupils who do not attend school both morning and afternoon at least five days a week. Each part-time pupil is counted as 0.5 of a full-time pupil. Pupils outside of compulsory school age are often part-time.

Primary schools

Primary schools consist mainly of infant schools for children aged 5 to 7, junior schools for those aged 7 to 11 and junior mixed and infant (JMI) schools catering for both age groups. Many primary schools provide nursery classes for children under 5.

Pupil absence

Schools are required to take attendance registers twice a day: once at the beginning of the morning session and once during the afternoon session. Schools have to indicate in their register whether a day pupil of compulsory school age is absent.

Pupil:teacher ratio

The pupil:teacher ratio within schools is the ratio of all pupils on the school registers (counting each part-time pupil as 0.5) to all qualified teachers (including the FTE of part-time teachers) employed in the schools on the third Thursday in January. Teachers absent for long periods or seconded to other duties are excluded from calculations of pupil:teacher ratios although their replacements – provided they are qualified teachers – are included.

Regional statistics of pupils

Regional figures are for schools in each region, irrespective of pupils' normal place of residence.

Secondary schools

Secondary schools teach pupils from age 11 to the end of compulsory age schooling at age 16. Some schools have sixth forms catering for pupils aged 16 and above.

Special Educational Needs (SEN)

In January 2002 a new SEN code of practice replaced the five-stage model used since 1994. The new code groups pupils under the headings: "school action", "school action plus" and "statemented". Pupils with a statement of SEN continue to be in a distinct group. For this reason numbers reported in 2003 and later are not directly comparable with those from earlier years. It is important that anyone using the data should be aware that SEN policies vary between local authorities.

Special schools

Special schools provide education for children with special educational needs who cannot be educated satisfactorily in a mainstream school.

Teachers

The figures for teachers are a count of teachers in post on the third Thursday in January each year, including supply and relief teachers filling vacant posts, but excluding unfilled vacancies.

Part-time teachers are counted once for each school in which they teach. Each part-time teacher is counted as a proportion of a full school week.

Value Added measure

Value added measures the progress that students have made between taking tests at each key stage. The value added scores are shown as measures based on 1000. Scores above 1000 represent schools where students made more progress on average than similar students nationally, while scores below 1000 represent schools where students made less progress. Further information can be found in the [Value Added Technical Information](#) section of the DCSF Achievement and Attainment tables.
