

MOPAC - (260139160)

Prepared for: Mayor's Office for Policing And Crime

Date of Issue: 22.11.16

1. Methodology

- This study was conducted in London
- **SAMPLE SIZE** – a sample of 501 Londers aged 16+ were interviewed.
- **INTERVIEWING** - Interviewing was conducted by online self-completion from 09/11/2016 - 21/11/2016
-
- **LOW BASES** - Where unweighted base figures are less than 100, data should be treated cautiously, as large margins of error are possible
- **ABBREVIATIONS USED**
 - = 0%
 - * = less than 0.5%
- **TERMS OF CONTRACT** - "No press release or publication of the findings of this survey shall be made without the advance approval of TNS. Such approval will normally only be refused on grounds of inaccuracy or misrepresentation". Confidential to client.
- **TECHNICAL INFORMATION** – Further methodological information can be made available on request

2. QUALITY AND INFORMATION SECURITY

To support this we maintain a Quality and Information Security management system which is mandatory for all staff. TNS UK Management are committed to providing adequate resources for the continuing development, promotion and maintenance of the Quality and Information Security management system which provides the framework for ensuring that we:

Satisfy client requirements in respect of quality and information security through:

- Engaging with our clients to understand their specific needs.
- Having the necessary resources and process in place to meet those requirements.

Set and review objectives and our performance regularly in order to continually improve as an organisation.

Comply with all relevant corporate, legal, statutory and regulatory requirements including:

- MRS and ESOMAR professional codes of conduct .
- ISO 20252 International market research quality standard.
- ISO 9001 International standard for quality management systems.
- ISO 27001 International standard for data security (within the scope of our accreditation).
- The UK Data Protection Act 1998.

Safeguard the data we collect and hold through:

- A secure technical infrastructure.
- A risk management framework which seeks to identify, analyse and treat risks and manage incidents effectively.
