## Introduction

This methodology document provides an overview of the Adult Education Budget (AEB) data used in the production of statistics. It provides information on the methodology used, as well as information on the data sources, data issues and data definitions.

## Scope

This AEB release provides a coherent and comprehensive picture of the participation and achievement of adults in London for the full academic year (August 2019 to July 2020). It includes adult (19+) education provided by the following institutions:

- General FE Colleges (including Tertiary),

- Other Public Funded<sup>1</sup>,
- Private Sector Public Funded<sup>2</sup>,
- Special Colleges<sup>3</sup>, and
- Sixth Form Colleges.

These organisations deliver a variety of GLA-funded programmes, including:

- Adults Skills, and
- Community Learning.

Current GLA AEB delivery excludes apprenticeships, traineeships, advanced learner loans, the offender learning and skills service, and education and training services funded by the Education and Skills Funding Agency.

### Data Sources and Methodology Information

The key data used to produce AEB Data Publications are Single Individualised Learner Records (ILR) collections provided to the GLA by the ESFA, Funding Claims submitted by providers to the GLA and Funding Summary Report, provided to the GLA by the ESFA.

The following data files have been used to produce GLA's AEB release of data on the full academic year:

- Single Individualised Learner Records data (SILR R14), which includes data from August 2019 to July 2020,
- Funding Claims (R14 2019/20), and
- Funding Summary Report (FSR R14).

Greater London Authority payments are in accordance with the Standard National Profile for Adult Education Budget Grant-Funded Providers and final reconciliation applies at the end of the academic year subject to the arrangements agreed by the Mayor for that year. Note that in 2019/20 academic year, the data reconciliation process encompasses the impact of COVID-19 pandemic on Adult Education. Therefore, delivery values during this period should not be

### **ILR background information**

The Education and Skills Funding Agency publish a large range of information relating to the ILR, which includes technical documents that specify the ILR data which publicly funded providers must collect and return. This also includes information to help further education providers collect, return and check the quality of ILR and other learner data.

All information and documents are published on GOV.UK at:

## Methodology Information

### Records included in GLA publication figures

All valid records which meet the following criteria have been included in the dataset used to calculate the figures that the GLA publishes:

- Source of Funding is the Greater London Authority (code 116);
- Learning is active at any point in publication period<sup>4</sup>; and
- Learning must match agreement type that provider has with the GLA<sup>5</sup>.

### Definitions and SILR Variables used

Adult Skills	FundModel	FundModel = 35
Community Learning	FundModel	FundModel = 10

<sup>4</sup> For the R14 publication, the publication period is the full academic year (August 2019 to July 2020).

The following data files have been used to produce expenditure figures in this release:

- Single Individualised Learner Records data (SILR R14),
- Funding Claims (R14), and
- Funding Summary Report (FSR R14).

Greater London Authority payments are in accordance with the Standard National Profile for Adult Education Budget Grant-Funded Providers and final reconciliation applies at the end of the academic year subject to the arrangements agreed by the Mayor for that year. ### Publication cycle across the year

In early 2020, the AEB Mayoral Board agreed that AEB programme data should be published following the Department for Education's Further Education and Skills data publication and in line with the UK Code of Practice for Official Statistics (which the GLA has signed up to on a voluntary basis).

The GLA will be publishing on a quarterly basis. This is the first GLA publication covering a full academic year, including sets of LAD and SRP tables in addition to London-level tables.
