Table 23

Q.13 Currently health services are run by the NHS in London. Some people think that these services should remain under the management of the NHS as they are equipped with specialist health knowledge and aren't subject to political pressure. Others suggest that the Mayor of London should have the responsibility, to ensure quality, consistency and more joined up healthcare services, and make them more accountable to the public.

To what extent would you support or oppose the Mayor of London setting the direction for health care services in London?
