## Material References:

Stone (Central Form & East Form):	Portland Stone, light coloured with a good balance between visual features and material consistency. Portland Stone variety to be selected following large sample review.
Stone (NHG Building):	Lightly textured Stone. Colour to be a darker shade in comparison to Portland Stone selected for Corner building. Decision to be informed by large sample.
Metal:	Frames to be rich dark patinated aluminium bronze. All visually exposed metal elements including frames to windows, doors, panels and cladding panels to match in colour.
Perforated Metal:	Perforated dark metal panels to horizontal strips and to vertical feature panels. All visually exposed metal elements including frames to windows, doors, panels and cladding panels to match in colour.
Glass:	Low iron glass to maximised transparency. The glass specification will vary according to the location and safety requirements. Residential units: factory assembled hermetically sealed triple glazing units. Office and retail: factory assembled hermetically sealed double glazing units.

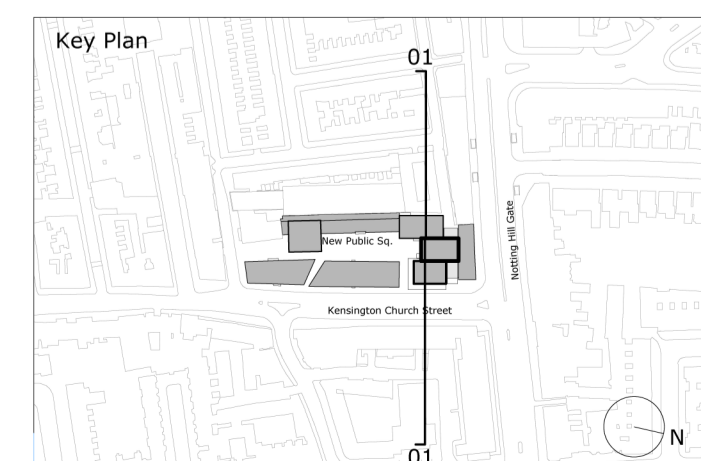

Brick:	Long format clay brick. Special brick formats in locations to deliver architectural details. Colour: to be tested in range of warm greys, nearly white through to brown, yellow gaunt. Decision to be informed by large sample including mortar setting.
Corian:	Corian Opaque Cladding Panels, colour: white; GF panels to have aluminium backing; all joint to be overlapped.
Corian Perforated Cladding Panels:	small perforations to achieve transparency effect; colour white; all panels to have aluminium backing; all joints to be overlapped.
Black finished frames to WPB2 only.
