

View 27 proposed

To achieve the optimum hand-held viewing distance of between 300-500mm (as per The Landscape Institute's guidelines), **we recommend printing this image edge to edge on A1 landscape and viewing it from a distance of 390mm.** Panoramic images should be viewed on a curved surface so that peripheral parts of the image are viewed at the same intended viewing distance or viewed by panning across a flat image with the eye remaining at the recommended viewing distance. Please refer to section 2.8 on page 5 of this document for further information.
